WHAT IS HOME WITHOUT INSURANCE?

It is the most foolish economy
ever practiced.
Think of what the loss to you
might mean if your HOME should
be destroyed by fire. In many
cases, the home represents the
savings of years, and to lose it on
account of not taking the precau-
tion to insure it, how very thought-
less.

DR. THOMAS MORTON GALLAGHER.

Republican Independent Candidate for Alderman,
Ward One.

The four cornered fight in Ward
1 promises to be the hottest the city
has ever seen for ward alderman. If
fitness for the place through educa-
tion and knowledge of the wants of
the Ward goes for anything in this
election only one candidate can be
considered.
Trained in the schools of Wellesley

Harvard College and Harvard Medi-
cal school and a long experience as
a newspaper man, Dr. Gallagher is
easily the man for the place if the
people here want a representation on
the board this coming year. His
record as a worker for his party is a
long one for a man of his years, and
we predict a handsome vote for him
on election day.

—In 1892-93 and '94 J. W. Beverly
was with T. L. Mason of this town
as watchmaker and for the eight
years following carried on a jewelry
and optical business in Newton Cen-
tre. Mr. Beverly is now of the optical
firm of Simmons & Beverly, 12 City
Hall Ave., Boston, with an evening
office at 358 Centre street, Newton.

—Mr. J. Franklin Tobey died at
his home on Melville terrace last
Tuesday, aged 71 years. He was an
old resident of Newton and was em-
ployed as machinist at the works of
the Newton and Watertown Gas Light
Company until failing health com-
pelled him to give up his work. A
widow and son survive him. The
funeral will take place from the house
this afternoon at 3 o'clock.

—In the vestry of the Methodist
church Wednesday evening and
Thursday afternoon and evening a
Colonial sale was held in charge of
the Ladies' Social Circle. The pre-
vailing colors were blue and yellow.
The tables and those in charge were
as follows: Apron, Mrs. W. A.
Alexander; stocks, Mrs. H. J. Fox,
and Mrs. G. A. Aston; fancy, Mrs.
Albert Barber; handkerchief, Miss
Clara Cushman; china and grab,
Mrs. Charles Lawrence and Mrs.
George W. Barber; candy, Mrs. H. S.

man; burnt wood, Miss Alice Shap-
leigh; frappe, Miss Sherman; tea
room, Miss Florence Elms and Miss
Bessie Allen, assisted by the Misses
Springer Jewell and King. The fruit
table was in charge of all the ladies.
A satisfactory sum was realized,
which will be devoted to the needs
and work of the Society.

LICENSE OR NO LICENSE.

BE SURE YOU'RE RIGHT: THEN GO AHEAD!

Everybody thinks more or less; some more intelligently and fairly, some less so. But all think. This is well, for thinking makes a strong man, and happy is it, both for himself and others, if his thinking be wise and good, out of a good character which is the main thing.

Therefore I do not say, "Vote for License;" at the coming city election. Neither do I say, "Vote no License." Rather, I prefer to lay a few simple facts and principles in the manner of a free, frank and friendly talk, before my fellow citizens of every name and kind. They can then fairly and faithfully think these over carefully again for themselves and can then vote for what seems right and best.

1. Now, is the appeal made to self-respect, coupled with pity for all who need it? Forty years ago, or more I saw a poor, misguided, rum-ridden fellow man fall solid, with a heavy thud and a smothered groan, on a cold, wet, muddy cobble-stone pavement, on one of the rawest, sleety November evenings. I have more and more strongly felt, ever since, how much better it is for men to put rum into the gutter than for rum to put men into the gutter. This, for me, has always been the whole temperance question in a nutshell. This feeling was only confirmed, when, only a few winters ago, and in front of my own house, two stout young fellows,—worthy of better things,—were both sprawling on the wet slippery sidewalk, too drunk to get up, or to keep each other up. Happening to see them, I managed to help them both up and get them going again. Some might have mocked and laughed at the sight, but, to me, it was a sad one. I told them the short temperance principle, above mentioned, to help their minds as well as their feet. "That's right," they frankly, though shakily replied, and after a few steps we pleasantly parted. I hope it did them and me good. For myself, I am glad and thankful that no liquor was ever a temptation to me, and that, pledge or no pledge, I have, of my own free will, been practically a total abstainer, and, indeed, am now willingly pledged to be such.

Now, as to pledges, we can learn something well worth learning from the most noble and well beloved St. Paul. He, closely following his divine Master, said, "Let no man put a stumbling block in his brother's way, or an occasion of falling." What deadly temptations would be blotted out, if this rule were gladly followed. And again, he said, "If meat causeth my brother to stumble, I will eat no flesh while the world standeth, that I cause not my brother to stumble." So then, every one may well and cheerfully take a total abstinence pledge for two reasons, first for himself,— "let him that thinketh he standeth take heed lest he fall," and second for others, that they may be helped by example to take a strong stand and keep it.

2. Is another appeal to moral freedom and real independence? Thousands here make sad shipwreck by confounding true and false freedom. True freedom makes the learner see a teacher, so that he may better learn what he longs to know, or snags a traveller over dangerous ways seek a guide to safely lead him. True freedom leads the most skilful sea captain to wait for a pilot to carry him into a strange port, where he wants to be. Over-confidence in himself, or other like headstrong folly, would only hinder what the learner, the traveller, or the captain wants to do, and so would be only a vain show of freedom and a dangerous counterfeit of real freedom.

The man of clear, firm mind and self-respect knows of his own free mind when and why and how to say "no." If he says "no" when it is right that he should, and says it as he ought, civilly, and not rudely, he will be more respected for his firm but friendly standing by his principles.

Again, and again, in younger days, I have been offered liquor from a flask, or beer as a treat, by student companions in out of door studies. A friendly "no I thank you," just as anyone would say it when offered a dish he did not care for, was always kindly taken, and never made trouble. Have faith in right, and have faith in your right to keep out of harm's way.

3. But again, is the appeal to honorable public spirit; and kindly social fellowship? "No man liveth unto himself." "We are members one of another." "Cain" has had to learn that he is his brother's keeper. All like Cain are compelled by events to-day, as never before, to find that each must live for all as well as for himself.

Next after the single individual, or the single home, comes the local community, because it is much smaller than the county, the state, or the nation. The local community is made up of connected friendly homes, having many common interests, and bound to dwell together in peace and concord, each for all and all for each.

In this way, the question here before us is left in a shape to enable everyone to act out these large and generous principles on the liberal and truly democratic plan of local option. It is not a question of "you shall," or "you shan't." It is a question of trying faithfully to find out what is really best for each and all, and then to vote accordingly, in the enlightened real freedom already described.

4. There is then one more appeal which is to intelligence and good will, to help in thus finding out what to think and then how to act. It has long been a matter of common knowledge,—or easily may become such,—that liquor is practically of no value as food; for as a wholesome and effectual source of warmth, or of strength either of mind or body. Medical and other scientific testimony on this point is so abundant and easily found in libraries, that it need not be further mentioned here.

Whatever kind of "merry heart" liquor gives is very far inferior to the "merry heart" that "is a continual feast," and that "doeth good like a medicine." It is a dangerous and deceiving counterfeit of the "merry heart" that comes from cheerful industry, contentment, a happy home; labored for until it comes, and joyfully lived for when it comes.

More than that, the drinker's "mirth," whose end is heaviness from weakened ambition, energy and self-approval, is a poor exchange for the satisfaction that comes from feeling that we are helping, if ever so humbly, the life, the prosperity, the good condition and the good name of our own church, village or town, or of the institution, corporation or business establishment of any kind, to which we belong.

Liquor is notoriously a helper in making rags, poverty, dirt, disorder and crime. Who wants any of these, for himself, or his friends, or his home, or his neighborhood?

Liquor, finally, is a great enemy of thrift. Are not a good Savings Bank account, a neat tea table, and a tidy home, better than a spree?

There now! Are we not all ready, after an hour of sober thinking, to vote for what we sincerely believe will bring and keep all the good things this paper has tried to fairly set before all eyes, and will put away and keep away the evil things that I have faith to believe no one really wants to see?

Are we not all ready, I say, to join hands, and go together as Newton fellow citizens to vote on conscience, honor and good sense, for whatever we are as sure as we can be is really best for each and for all?

S. E. W.

To the Editor of the Graphic:

At the coming City election an opportunity will be offered for the first time in several years to secure the services of a woman on the School Committee. Miss Grace M. Burt, the candidate for Ward 7, on the Citizens' and Democratic tickets, is well known through her connection with various women's organizations, is a graduate of Mount Holyoke College, and has had experience as a teacher, and is cordially endorsed by the Newton Federation of Women's Clubs.

For many years it has been the custom in this city, as it has been in many other municipalities, to have the School Committee made up of both men and women. No other branch of the city government touches so vitally the matters in which women are most interested. Many questions of school management, sanitation and discipline and other details are such as can be dealt with most intelligently by women. Women as a rule have more time than men to visit schools, and especially in a suburban city.

Believing that Miss Burt is eminently fitted for the position, and that her election will strengthen the School Committee, and will be for the best interests of our schools, we ask all who believe in the representation of women on the School Committee to give her their votes next Tuesday.

Citizens' Committee,
Bruce R. Ware, Chairman.
Blanche G. Breene, Secretary.

The Sarah Hull Chapter, D. R., of Newton celebrated its sixth anniversary at the Hunnewell Club House, Monday evening, Dec. 1st, 1902, from 7.45 until 10 p. m.

Departing from their usual custom they entertained their gentlemen friends with other guests. The parlors were bright with flags and flowers and while crocheted music was much enjoyed a reception was held from 7.45 to 8.15.

The following program was then presented, Mrs. Francis E. Stanley introducing the speakers of the evening:

1st. Music by the Orchestra.
2nd. "The work of the Chapter since its organization."

Mrs. Alex. M. Ferris,
Honorary Regent.

3rd. Songs.
Mrs. Edward Everett Hayward.

4th. Address, George Washington.
Rev. Adelbert L. Hudson.

5th. An original poem suitable to the occasion by Mrs. James H. Wheeler Jr., and which will appear in the next issue of the Graphic.

America followed and then all adjourned to the dining room, which was tastefully decorated in the chapter colors in candles and flowers.

Among other guests the state and national societies were represented by officers.

Hostesses of the evening: Mrs. S. Curtis Smith, Mrs. Edward W. Howe, Mrs. Jesse C. Ivy, Mrs. John E. Alden, Mrs. Amos Adams, Mrs. William H. Bliss, Mrs. John H. Sabin, Mrs. Ada E. Davidson, Miss Clara J. Coburn, Miss Helen L. Wells.

A Good Record.

For nearly three-quarters of a Century Dr. Harrison's Peristaltic Lozenges have been on the Drug market and recommended by prominent physicians and druggists throughout the country. The peristaltic Lozenges have proved themselves never-failing in curing Constipation, the prolific cause of ill health. They are especially a remedy for ladies, and the druggist who sells them is bound to gain the confidence of all he recommends them to. There are hundreds of families who have used them for over fifty years and are still using them when they require a medicine. The Iceland Balsam is a wonderful remedy for Colds, La Grippe, etc. See adv. in another column.

A Card.

We, the undersigned, do hereby agree to refund the money on 50 cent bottle of Greene's Warranted Syrup of Tar if it fails to cure your cough or cold. We also guarantee a 25 cent bottle to prove satisfactory or money refunded. J. G. Kilburn, Jr.

Police Paragraphs.

As the result of a stabbing affray at 396 Boylston street, Thompsonville, Troiani was placed under bonds of \$20,000 to await the result on the part of the victim, Harardini Gasbarri, who had been sent to the Newton hospital with a deep cut five inches long across the abdomen. Troiani is well known to the police of Newton. In May he was given 45 days in the house of correction for disturbance and for inciting a riot among the Italians employed on the water works. Since that time he has been arrested for drunkenness. From the story told Monday morning by the prisoner's brother, Giuseppe it appears that the two went to Gasbarri's house shortly after 6 Sunday evening. While there Pasquale Troiani quarreled with one of the boarders in the house. The brother of the injured man became incensed at his remarks and ordered him from the house. He refused to go, and drawing a stiletto, exclaimed, "Come on. If you have any heart, come outside." The injured man's brother then pushed him from the room and closed the door. A few moments later Giuseppe looked out and saw Pasquale with an up-lifted knife standing outside. Baradino Gasbarri then started out with the remark, "I'll take care of him." He had no more than opened the door when he was struck in the abdomen with the knife. Although bleeding profusely he chased his assailant up the street until overcome by the loss of blood, when he fell to the ground and was later found by his companions. Carlini Troiani, brother of the prisoner, gives this version of the affair: "Pasquale and I went to the house at 396 Boylston street, early Sunday evening," he said, "to make a call. While there my brother got into an argument with one of the boarders there, which resulted in words with Gasbarri's brother. He said: 'I will look out for you fellows. You get out of this house.' My brother said: 'You fellows come outside if you have any hearts in you.' 'Then Gasbarri's brother made a run at us and pushed Pasquale outdoors. Pasquale then pulled his knife to defend himself. Gasbarri's brother saw the knife and ran and told his brother about it. Then Gasbarri came to the door, and, seeing my brother there, said: 'I'll take care of you,' and at the same time gave him a bang on the head. When he recovered he and Gasbarri clinched and fell on the ground, and Gasbarri was stabbed. We then ran away." When captured by the police Troiani still had the knife in his possession and attempted to stab Sgt. Bartlett. The weapon was knocked from his hand and he was handcuffed to keep him from further mischief. The weapon is a large jack knife, with a needle-pointed blade about five inches long.

Newton Co-operative Bank.

At the regular meeting of the Board of Directors of the Newton Co-operative Bank, held on the fourth day of November, 1902, resolutions upon the death of Mr. Edwin W. Gay were passed. Mr. Gay was president of the bank at the time of his death, having been elected upon the retirement of Mr. Francis A. Dewson. The resolutions were as follows: "Resolved that the members of the Board of Directors of the Newton Co-operative Bank hereby record for themselves and in the name of the bank their appreciation of the life and character of Edwin W. Gay, its late President. "Becoming in early life a resident of Newton he grew to manhood and has been for many years an honored and public spirited citizen. During that period he has been distinguished for the purity of his life, his business integrity, the sincerity of his Christian profession and his loyal and unselfish devotion to every good work. Although the claims of his business were unusually exacting, he was ever mindful of the public welfare and especially of the city of his home; and whether as a citizen merely or as a chosen official he gave to the discharge of his public duties the same conscientious, able and untiring devotion as to his own private affairs. As a director of this bank from more than thirteen years, and for the past year as its president, he has given to the bank the same loyal, painstaking and unselfish service which has characterized his whole life. In his death the members of this Board and its shareholders have lost a wise counsellor, an upright and prudent administrator and a great hearted and generous friend. "Resolved, that the above resolutions be spread upon the records of the Board of Directors, and that a copy be sent to the widow of the deceased." At the same meeting of the Board James W. French was chosen President to fill the vacancy caused by the death of Mr. Gay. Thomas B. Fitzpatrick was chosen Vice-President to succeed Mr. French, and Henry H. Hunt and Alonzo R. Weed were chosen directors to fill vacancies existing in the Board. The new President, Mr. French, has been a director of the bank since its organization, for a number of years chairman of its committee on investments and for the past year the vice president.

The present officers of the bank are as follows: President, James W. French; Vice President, Thomas B. Fitzpatrick; Secretary and Treasurer, J. Cheever Fuller, and Directors, Henry E. Bothfeld, William M. Flanders, Samuel W. French, Frank J. Hale, Henry H. Hunt, P. A. McVicar, G. Fred Simpson, George M. Weed and Alonzo R. Weed.

The real estate loans of the bank now amount to \$53,025. The regular monthly meetings of the bank are held on the first Tuesday of each month at the office of the bank, 297 Walnut street, Newtonville.

In the selection of holiday gifts, the wise purchasers will begin early to secure their complement. Many prefer something that may have originality as well as merit, and most people like to secure something that may not be duplicated. Mr. Shepherd has anticipated this want, and an inspection of his large stock of Foreign goods will reveal only one of a kind, and that one something which may not be found elsewhere.

At the Churches.

The regular meeting of the Channing Sewing Circle was held Thursday afternoon at Channing church, Newton. Supper was served at 6.30 and the hostesses were Mrs. W. T. Hammett, chairman; Mrs. C. T. Bailey, Mrs. Boyd, Mrs. W. G. Brackett, Mrs. Chester Corey, Mrs. Harry E. Damon, Mrs. James W. French, Mrs. Charles W. Hall, Mrs. A. L. Hudson, Miss Killan, Mrs. Macomber and Mrs. M. W. Stimson.

The Newton Centre Baptist church has received 141 pledges for Home expenses for 1903 amounting to \$4,205.28. The amount pledged for Beneficence by 88 persons amounts to \$1,859.02.

An organ recital for the benefit of St. John's Organ Fund will be held in the Central church, Newtonville, Tuesday, Dec. 9, at 8 p. m., with the following talent: Dudley W. Fitch, organist; Miss Josephine Martin, contralto; Mrs. R. T. Loring, violinist; Miss Elizabeth Kelly, accompanist.

The Young People's Missionary Club has undertaken to fit up the pastor's study of Central church, Newtonville, as a missionary information room. Racks have been put up to hold pamphlets and a book case to hold volumes. A small library of missionary biographies, reports of conferences and works in geography is already available.

The postponed meeting of the Ladies' Aid Society will be held next Thursday afternoon at the Newtonville Methodist church.

The Sunshine Band connected with the Immanuel Baptist church, Newton, met Tuesday afternoon with Mrs. F. B. Matthews, on Braemore road. The Woman's prayer service took place Wednesday afternoon at the home of Mrs. Collins on Maple street. Mrs. Tuttle entertained the Sewing Circle at her home on Franklin street, Thursday morning.

The annual meeting of the Second Congregational church, West Newton, will be held Wednesday evening, Dec. 10.

The Freedman's Aid Society of Eliot church met Thursday afternoon at the home of Mrs. Freeman on Newtonville avenue.

At Eliot church this week a Christmas box was packed by the Eliot Guild for a missionary family in North Dakota. The Freedman's Aid Society packed a barrel to be sent to a school at Pleasant Hill, Tenn., and the Woman's Association a Christmas box to go to the school at King's Mountain, North Carolina.

A social will be held at the West Newton Congregational church this evening. A special entertainment will be provided.

A special meeting of the Ladies' Sewing Circle was held yesterday at the First Universalist church, Newtonville. On Saturday an extra meeting will be held and the sale will take place Tuesday and Wednesday, Dec. 11 and 12.

The West Newton Women's Alliance will hold a meeting next Thursday in the parlors of the Unitarian church.

At the Newton Centre Methodist church next Sunday evening Rev. L. E. Dorchester will conduct his series of addresses on "Nights in Sacred History." The special topic will be, "That Strange Star."

A social entertainment will be held in the parlors of the New Church, Newtonville, this evening, in charge of Miss Ethel Sampson. Mrs. Jarley's wax works will be presented. A committee on acquaintance has been organized with Mr. John G. Thompson as chairman.

Rev. Ozora S. Davis expects to give five Sunday evening lectures on "Great Italians," in Central church chapel, beginning with January. The subjects will be "St. Francis of Assisi," "Dante," "Savonarola," "Fora Angelico," "Michel Angelo."

The gift of two very beautiful windows for the south wall of Grace church has been offered as a memorial of Mrs. Lydia Barton Ashenden. The offer has been accepted by the parish, and the windows will be put in position about Easter. They are to be made in Munich of very beautiful design, representing Faith and Charity.

Rev. John Matteson, who is chaplain of the Girls' Friendly Society, gave an address at a meeting of the society held Monday evening in the parish house of the Church of the Messiah, Auburndale.

The regular Friday evening services will be resumed this evening at the Church of the Messiah, Auburndale.

THE PLAYHOUSE.

TREMONT THEATRE, Dec. 8.—“The Sultan of Sulu.”
PARK THEATRE, Dec. 8.—“Dr. Jekyll and Mr. Hyde.”
GRAND OPERA HOUSE, Dec. 8.—“The Smart Set.”
COLUMBIA THEATRE, Dec. 8.—Rice's “Show Girl.”
MUSIC HALL, Dec. 8.—“Bolivar's Busy Day.”
KEITH'S THEATRE, Dec. 8.—Vaudeville.

Boston Grand Opera House—There has been put together this season an amusement organization under the title of “The Smart Set,” which will be seen at the Boston Grand Opera House next week, every night in the week except Sunday, and in the usual Tuesday, Thursday and Saturday matinees. The management engaged fifty people to justify its title and has put them in a three act comedy, which is produced with lavish extravagance. Of course the piece is musical and replete with comedy and specialties. One could scarcely imagine a performance of this kind that was not. The choruses are calculated to excite young people to emulate “The Smart Set” in rendering concerted pieces.

Park Theatre—There will be a grand revival of “Dr. Jekyll and Mr. Hyde” at the Park Theatre, for the week beginning Monday, December 8. This play, which is a dramatization of Robert Louis Stevenson's story of the same name, is famous for its successful presentation with Richard Mansfield in its title character, and its production by Cora Payton's stock company at the Park Theatre next week promises to duplicate the hit made by that eminent actor. The course of this story is always followed with breathless attention, and the performance of the dual characters by Walter Wilson at the Park Theatre next week promises to be a piece of acting of rare merit. The heroine will be played by Una Abell Brinker, and the other characters will be acted by leading members of Mr. Payton's stock company.

Boston Music Hall—At the Boston Music Hall next Monday afternoon a short run of popular farce comedies will begin. Billy V. Van and Nellie O'Neill, heading their own farce comedy company of 40 people, presenting for the first time in Boston the amusing and lively three act farce comedy entitled “Bolivar's Busy Day.” Mr. Van and Miss O'Neill are big favorites in Boston and they have not been seen in that city since their appearance at the Columbia Theatre a year ago in “The Chaparones.” Mr. Van is one of the most original and amusing comedians on the American stage and Miss O'Neill ranks in the first class of winsome soubrettes. The Sunday night concert at Music Hall are attracting enormous audiences and next Sunday night there will be an all star bill headed by Pauline Hall, Elita Proctor Otis and Hattie Belle Ladd.

Tremont Theatre—Ki-Ran, the Sultan of Sulu, is a real character that George Ade, of “Fables in Slang” fame, Artist John T. McCutcheon and other American war correspondents met, studied and sketched from life on his own native Sulu soil. The stories told in Manila of the merry old potentate suggested to Mr. Ade the scheme of making him the centre figure in a musical satire dealing with the introduction of American divorce laws and the American cocktail into his primitive tropical paradise. “Sultan of Sulu” is now playing to crowded houses at the Tremont Theatre, Boston, where it has proved fully as great a success as either of its famous predecessors, “King Dodo,” and “Prince of Pilsen.”

MR. FRANK MOULIN
As the Sultan, in the “Sultan of Sulu.”

—Keith's Theatre—“Keith's Natural Rest Cure” is attracting the attention of all classes of people more than ever before since its discovery by the pioneer vaudeville manager, and the handsome Boston theatre is the mecca toward which tired business and professional men turn as naturally as web feet seek water. The Latter-Day variety show is eminently a restful institution and does more toward prolonging life than all the nostrums retailed by druggists. Among the entertainers scheduled to appear the week of Dec. 8 are Sydney Booth, nephew of the great tragedian, and Misses Lena Merville and Marion Elmore, soubrettes of other days, who still retain their comeliness and spirit, the three uniting in the presentation of a most amusing mistaken identity sketch, entitled, “The Two Julietts.” Snyder and Buckley, favorite musical comedians, who not only know how to be very funny but are accomplished instrumentalists, as well; Leon Morris educated and comedy ponies, including the equine wrestler; Banner and Madison, and their colored opponent, John Hedge; Cadieux, a wonderful wounding wire performer; Will F. Deany, a popular character singer; Clarence E. Billings, in an original monologue and songs, and the Lucados, novelty equilibrist. The talented colored entertainers, Bob Cole and Rosamond Johnson, will be retained, but are to make a change of ballads.

Paxton, the well known and popular caterer, announces his Christmas novelties for 1902. It will pay anyone to examine his large and varied stock of Christmas boxes, baskets and favors. As for candies and ices the mere mention of his name is sufficient praise in this city.

Small Pox.
Mr. and Mrs. George Nicholson of 59 Charles street, Riverside, are quarantined at their home, both being ill with small pox.

The small pox ward at the Newton Hospital is undergoing repairs and the board of health found it necessary to establish a house quarantine. The cases were reported last Saturday and are not considered serious.

MUNICIPAL POLITICS.

On Tuesday next the annual city
election will be held and a mayor,
aldermen and members of the school
committee elected.

The democratic party has placed a
full ticket in the field although sev-
eral of its nominees are republicans.

There is a contest for the mayoralty,
although very few citizens seem to
realize it, and while there is every
reason to believe that Mayor Weeks
will receive the re-election he de-
serves, it is not wise to rely too
much on faith, but to see that every
possible vote is brought out.

The republican ticket for aldermen
at large and for school committee
also seems sure of election, although
a strong effort will be made to defeat
Mr. George C. Travis, the Ward 7
nominee for the school board.

Mr. Travis is opposed by Miss
Grace M. Burt and the latter, run-
ning on a platform of women repre-
sentation, will probably secure a
large share of the women vote in
the city. This added to the democ-
ratic vote will cause considerable
uneasiness to the friends of Mr.
Travis.

It seems a pity that when a man
of sound business judgment, high
character and previous experience in
the school committee like Mr. Travis,
consents to serve his city, that his
election should be endangered by a
mere sentiment like that of women's
representation.

The school committee of this city is
rapidly becoming a first class busi-
ness body, and while we believe in
women being members of the board
such a sentiment must yield, when
the opportunity is presented, to elect
a man of Mr. Travis' ability.

In the various contests for ward
aldermen, we wish to especially em-
phasize the exceptional opportunity
given the voters of Ward 2, 3, 4 to
elect first class men to that office.
In the other wards the republican
candidates are present members and
it goes without saying that they
should be returned. In Ward One,
the four cornered contest is waxing
hot, and it is impossible to prophecy
the result.

THE TWO YEAR TERM.

The voters will be called upon to de-
cide the question as to granting two
year terms to the mayor, making bi-
ennial instead of annual elections
no that important office. This change
is earnestly desired by Mayor Weeks
and if the city could be sure of al-
ways choosing men of like character
to the office there would be no doubt
but what the matter would be de-
cided in the affirmative. The argu-
ments in favor are that the mayor
would be more experienced and do bet-
ter work for the city, and that his
acts would not be biased by fear of
defeat for re-election. The oppo-
nents of the measure, claim that a
good mayor can be easily re-elected
if desired, and a bad mayor can be
defeated before very serious harm is
done the city.

VOTE NO.

The annual question of liquor
license will again be decided next
Tuesday, and while no great work is
being done on either side it is well
in this case as in the mayoralty to
take no chances and every voter is
urged to vote no. This policy of pro-
hibiting the open saloon and dram-
shop is of the utmost importance to
the future of Newton and the major-
ity against liquor should be so large
as to thoroughly discourage its few
remaining advocates.

The reception next week under the
auspices of the Newton District Nurs-
ing Association affords a splendid
opportunity to aid the excellent work
being done by that organization
among the sick poor of the city.

These Italian assaults and murders
are becoming altogether too frequent
for the good reputation of Newton.
The perpetrators of these outrages
should be given the full extent of the
law in the matter of punishment.

Penny savings may be a very good
thing but there are far more impor-
tant matters to engage the time of
school teachers.

The public schools will close at
noon Dec. 24th, for the Christmas
vacation, which lasts until Monday,
January 5th.

City Hall Notes.

Mr. Charles E. Kelsey, who has
been nominated by the mayor as a
trustee of the Newton Free Library
has been a resident of Newton Cen-
tre for the last eight years, making
his home on Montvale road. He is
a graduate of Amherst College and
has been connected with the Youth's
Companion during the past twelve
years. Mr. Kelsey has never held
public office before.

The mortality statistics for Novem-
ber show 34 deaths, 18 males and 16
females, of whom 8 were under 1
year of age. Infectious diseases on
hand Dec. 1st, are 5 cases diphtheria,
3 cases scarlet fever, 1 case typhoid
fever and 2 cases small pox.

The new carts for collecting ashes
are a great improvement.

Clubs and Lodges.

The degree staff of Newton Lodge
I. O. O. F., and several members
visited the Milford Lodge last Mon-
day evening. The degree staff
worked the third degree.

At a meeting of Gen. Hull Lodge,
A. O. U. W., held last Friday evening
in Dennison hall, Newtonville, the
Waltham degree team worked the
degree on five candidates. A colla-
tion followed the exercises.

Riverdale Lodge, N. E. O. P.,
held a meeting last Monday evening
in Norumbega hall, Auburndale.
Grand Warden Flint and suite of
Boston were present and witnessed
the working of the degree on several
candidates.

Charles Ward Post 62, G. A. R.,
has received an invitation to attend a
camp fire of the Waltham post next
Tuesday evening and to go with
Comrade George M. Fiske, assistant
inspector, Thursday evening, to visit
Charles H. Ward post of Worcester.

Newton Royal Arch Chapter ob-
served ladies' night in the Masonic
building, Newtonville, last Tuesday
evening. About 150 members and
lady friends were present. An enter-
tainment was given in Masonic hall,
consisting of vocal selections by the
Guild quartet and readings by Jessie
Eldredge Southwick. The banquet
followed in Temple hall.

Among Women.

A largely attended meeting of the
West Newton Women's Educational
Club was held last Friday afternoon
in the parlors of the Unitarian
church. A musical program was ren-
dered and Miss Betsey Apthorp Ma-
comber of Newton Centre gave a lec-
ture on "Cooking," with practical
demonstrations.

The next meeting of the Social
Science Club will be on Dec. 10th at
10 a. m. at the Hunnewell Club.

The Ladies' Home Circle will hold
their next meeting Wednesday, Dec.
10, at 2 p. m., in the West Newton
Unitarian church parlors.

The Gordon Union W. C. T. U. will
hold a social in the Auburndale Con-
gregational church Tuesday at 3 p. m.
Contributions of pictures, framed
or unframed and text cards for the
Sherborn Reformatory should be sent
to this meeting.

In the New Church parlors last
Tuesday afternoon a meeting of the
Newtonville Woman's Guild was held.
The members voted in favor of the
Mayflower for the Massachusetts
State flower. Miss Anna Seaton
Schmidt gave an interesting lecture
on "How the other Half Lives in
France," describing with the aid of
stereoscopic views, peasant life in
Britany and the life of the street
fakirs and the poor in Paris.

Hunnewell Club.

Serious Accident.

The 11.25 p. m. train on the Cir-
cuit branch last Tuesday jumped the
switch at the point where the branch
leaves the main line, near Cottage
Farm, derailing and overturning the
engine and an empty passenger car,
which immediately followed, and de-
railing the second car, a combination
smoker and baggage. The train was
well filled with passengers who were
thoroughly shaken up by the shock
and J. F. Dorsey of Newton Upper
Falls and Mrs. T. J. Roberts of
Needham received some injuries.

The fireman, F. E. Harvey of River-
side, was thrown clear from the
wreck and escaped with a few bruises.
The engineer, Seward B. Jones of
Riverside, was caught and pinned to
the ground by the boiler, and exposed
to the falling coals from the fire box.
It was impossible to relieve him ex-
cept with the aid of hoisting appar-
atus and after suffering for nearly
an hour, death came to his relief.

The wreck stopped travel on the
main line for about an hour, the
theatre train on that line taking the
passengers from the wrecked train
and carrying them to their destina-
tion.

Mr. R. A. Richards of Newton was
severely burned while endeavoring to
aid the unfortunate engineer, and
the conductor had his back strained.
The accident is said to have been
caused by a broken switch rod, but
thorough investigations are being
made by the company and the Rail-
road Commissioners. The property
loss is said to be about \$10,000.

Seward B. Jones, the dead en-
gineer, lived at the corner of Auburn
and Bourne streets, and was about 55
years of age. He leaves a widow, a
daughter, and two sons.

Funeral services were held today
and the body will be taken to South
Harris, Me., for burial.

No Two-Years' Mayor's Term.

To the Editor of the Graphic:
Next Tuesday the voters of Newton
must vote whether the mayor shall be
elected for two years.

If we have a good mayor we can
elect him a second time, as we usu-
ally do. If he is unfit, we want an
opportunity to prevent a second
year's service.

If a mayor wishes to serve only
one year, as Mayor Pickard did, then
a yearly election saves a special elec-
tion.

We usually elect and ought always
to elect a man who is familiar with
the city government, so the plea that
a year is needed for learning the
ropes is not sound.

We ought to keep close to the
people and not let the government
out of our hands two years.

We have an increasing immigrant
population and they can be assimila-
ted only by frequent agitation of
political issues.

Popular unrest in political matters
is increasing. It is poor policy to
tie the hands of the people.

Interest in city affairs is more
marked this year than ever. In Quincy
95 per cent. of registered voters
voted. Do not check the faithful
interest.

Six years ago Massachusetts gave
over 50,000, majority against a two
year term for governor. The same
principle is good for the city.

WEST NEWTON.

—Mr. Joseph S. Hoogs, who celebrated his 88th birthday in Milford, last Friday, was a native of this place, where he was born Nov. 28th, 1814. In the early 30s Mr. Hoogs owned a livery stable in Newton Lower Falls and ran a stage from Boston to Uxbridge, connecting with the stage for Hartford Conn.

—Mr. Joseph H. Howes, a well known resident, was found dead in his bed at his home on Washington street last Tuesday afternoon. The deceased was discovered by a friend who was unable to gain admittance, and notified the police, who broke in the door. Death was from natural causes. Mr. Howes was a native of Maine, was a ship carpenter and owned a number of sailing vessels. He came to Newton 25 years ago and was about 75 years of age. He was a widower and is survived by a brother, who lives in Ashland.

—The funeral was held from his late residence on Washington street, last Thursday afternoon, Rev. W. T. Worth, officiating and the remains were removed to Union, Me., for interment.

NEWTON EDUCATION ASSOCIATION.

A general meeting of the Association will be held in the New Church parlors, Newtonville, Monday evening, Dec. 8, at eight o'clock. Mr. Paul H. Hanus, Professor of Pedagogy in Harvard University, will speak on "The School and the Home." Prof. Hanus in referring to the change of time from afternoon to evening writes "I hope the teachers will come in the evening, but I particularly wish the parents to hear what I have to say." A cordial invitation is extended to all, whether members of the Association or not.

WEST NEWTON-AUBURNDALE SECTION.

A meeting was held at the house of Mr. George A. Walton on Monday evening. A very interesting description was given of the examination of sight and hearing of the children of the Hyde Park schools. Similar examinations elsewhere have revealed to teachers and examiners a very considerable proportion of children more or less defective in these senses and have thus relieved those children from, in some cases, headaches and in many instances the accusation of defective intelligence or of intentional disobedience.

There was also a short discussion as to the practicability of securing a general medical examination of all school children, not only as to sight and hearing but having in mind other important health conditions, such as contagious disease.

It is greatly to be hoped that the thoughtful citizens of Newton shall recognize the direct and permeating influence of these health conditions upon, not only the child of today, but the man of the future, and that they will take part in the meetings of this Association in their respective neighborhoods.

Katahdin Club

The first meeting for the season of the Katahdin Club was held last Wednesday evening in the assembly hall of the Hunnewell Club. Mr. D. C. Heath, the president, presided and after a few preliminary remarks introduced the guest of the Club, Mr. Edward C. Swett of Portland, who gave his well known illustrated lecture entitled "Picturesque Maine." The speaker described a trip he took from Boston to historic Portland, the birthplace of Longfellow and where is located the finest harbor on the Atlantic sea board. Then along the coast of Casco Bay to Harpswell, where Harriet Beecher Stowe wrote "The Pearl of Orr's Island," and a part of "Uncle Tom's Cabin." Old Orchard and Poland Springs was described in an interesting way. Also the great lakes, Moosehead, Rangeley and Chesuncook, Mt. Kineo, the Aroostook lumber camps, Camden, Mt. Desert, and the Bar Harbor cottages. Mr. Swett illustrated many of his locations by reciting beautiful poems and relating a number of humorous stories. The next meeting of the Club will take the form of a reception and will be held early in January at the home of one of the members.

St. John's Fair.

A fair under the auspices of the Woman's Guild of St. John's church, Mrs. Charles H. Alden, president, was held in Temple hall, Masonic building, Newtonville, Wednesday and Thursday afternoons and evenings for the benefit of the New Church Fund. The prevailing color was pink and the tables were decorated to represent baskets, the designs being appropriate for the contents of each. The chairmen of the tables were as follows: Fancy, Mrs. C. F. Avery; domestic, Mr. F. L. Clark; bag and handkerchief, Mrs. M. W. Hackett; baby, Mrs. G. A. Page; children's, Mrs. R. T. Loring and the Little Gleaners; flower, Mrs. Marcus Morton; grocery, St. John's Club; lemonade, Miss Leslie B. Kyle; cake, Mrs. Rogers. The tea room was presided over by Mrs. E. C. Adams, and the refreshments, Mrs. F. T. Benner, Miss A. W. Alden was in charge of the decorations of the hall and tables. Each afternoon in G. A. R. hall Farmer Hosh-Kosh and the Scientific Cow gave an interesting entertainment and in the evening the Dairymaids Festival was presented under the direction of Miss Josephine Sherwood. There was a good attendance and a satisfactory sum was realized.

Charles Ward Post.

At the annual meeting of Charles Ward Post 62, G. A. R., held last evening, these officers were elected: Commander, George L. Keyes; senior vice, C. C. Patten; junior vice, W. T. Shepherd; quartermaster, E. E. Stiles; surgeon, John Flood; chaplain, G. P. Putnam; officer of the day, S. A. Langley; officer of the guard, C. W. Coleman; trustees, C. C. Patten, G. M. Fliske, I. F. Kingsbury.

The Value of Precaution.

Too much emphasis cannot be laid on the great value of precautionary measures for the prevention of the development of disease. So much depends on individual effort for this important work that the use of an article of unquestioned merit and standing for daily use in the household should be greatly appreciated. Such a one is Cabot's Sulpho-Naphthol, the Standard Disinfectant and Cleaner. It is so highly concentrated that it is more economical for daily house cleaning and disinfecting than soaps, powders or cheap deodorants. The latter class is ineffectual to health, covering up one smell by the generation of another and allowing disease germs to develop under cover of their predominating odor.

Death of Mrs. Bartlett.

Mrs. Rebecca P. Bartlett, wife of A. G. Bartlett, died at Newton Centre, Nov. 30th, aged 67 years, after a very short illness.

She was the mother of Mrs. William Bacon of Brookline, Mrs. W. E. Parker and Mrs. A. E. Alvord of Newton Centre.

Funeral services were held on Tuesday at 3 o'clock at the residence of Rev. Dr. H. M. King of Providence, a former pastor, assisted by Dr. Burr, and the interment was in the Newton cemetery.

Ministers' Union.

At a meeting of the Ministers' Union of Newton, held Dec. 2nd, the following address to the public was adopted:

The Ministers' Union believing that the licensing of the sale of intoxicating drinks in saloons in this city would be detrimental to the best interests of all the people here, urge most earnestly that a large No License vote be cast at the coming city election.

This Union begs to represent that it is the duty of all our citizens who are concerned for the good name of Newton and for the welfare of those who are susceptible to the temptation of intemperance, to take the necessary time and trouble to deposit their votes against the liquor traffic; and that no one should take it for granted that all will be well unless he tries to make it so by doing his own duty at the polls.

AN ENGLISHMAN'S WIFE.

She is Really Her Husband's Business Partner and Acts It.

"In England," says Anslee's Magazine, "a man's wife is in reality his partner, and whether or not the two are in harmony with each other in affection in all material things they recognize that their fortunes are irrevocably bound together, that the interests of both are quite identical and that each has just as strong a motive for making things go well as has the other, since they share equally the labor and the reward therefrom. They may have their private disagreements, but they front the world together. The wife takes the keenest interest in the most minute details of everything that affects her husband's welfare. She knows his income to a penny. She manages her household as a chancellor of the exchequer manages the nation's outlay, so that the annual budget shall not only avoid a deficit and shall accurately balance, but so that it shall show a surplus. She will practice a rigid economy if necessary, and in doing so she will feel that she is merely carrying out her share of the marriage contract. It is the man's part to make money; it is her part to help him save it. She plans nothing for herself apart from him. She cannot think of him as in anything apart from her. If he is in political life, she enters into his ambitions with intelligence and zeal. She will write his letters for him and entertain his constituents. She will study the bluebooks and teach herself to understand the public questions with which he has to deal, so that she may discuss them with him and follow his career intelligently. She belongs to him, in fact, as he belongs to her. There is not much display of sentiment in an English household after the first year of married life has ended, but there is the bond of a common interest which grows stronger every day and every year and which gives to man and wife a unity of purpose and of feeling that will beyond comparison outlast the cobweb tissues of emotionalism."

He Was a Butcher.

"Now, I rather pride myself on my ability to read character," said the man who was given to buying detective tales, "and yet why should I? It is really a very simple thing; requires nothing but close observation. For instance, it is easy to tell a man's occupation. His facial expression, his actions, even his dress, are stamped by his daily work. You see that man sitting opposite us? Well, I am just as sure as though he had told me that he is a barber."

"You are mistaken," replied his friend. "That man is a butcher."

"Impossible!" exclaimed the amateur detective. "You never saw a butcher with slim white hands, like his."

"Perhaps not," admitted the other, "but he is a butcher just the same."

"How do you know he is?"

"How do I know? Why, the scoundrel shaved me once."—Household Guest.

Burial Alive.

Though it is possible that cases of burial of living persons may still occur, fortunately they are more rare than in former times. Even the doctor's orders against interment were not always obeyed, for the Gentleman's Magazine of 1751 relates the case of Richard Carson of Hay, Herefordshire, England, who was supposed to have died, but a doctor declared that Carson still lived and ordered that he was not to be buried. His relatives paid no heed to the injunction, and the body was committed to the grave next day. A person passing through the churchyard heard a noise and prevailed on the clerk to open the grave, where the supposed corpse was found in a profuse sweat and bleeding at the nose. Unfortunately the man was beyond recovery and soon died.

The Llama.

In Bolivia, one of the highest inhabited countries on the globe—La Paz, the capital, being 12,000 feet above the sea level—much use is made of that graceful and invaluable pack animal, the llama, which will travel farther and with even less food than the burro, but will not carry more than 150 pounds. The llama in some respects resembles the camel, kneeling in camel fashion to receive its load, and it will not rise if more than 150 pounds are placed on its back; moreover, the weight must be evenly distributed over its back and sides.

Grapes.

"Grapes dissolve and dislodge gravel and calculi," says the doctor. They bring the stomach and bowels to a healthy condition. Even the consumptive finds new life in them and should take grape juice in the tumblerful daily, as it makes new, rich blood. It builds up the tissues and feeds starved nerves. It is also cleansing.

Lightning Rapidity.

It is absolutely impossible for us to conceive of the rapidity and brilliancy of lightning. It has been estimated that a flash occupies less than one-millionth part of a second. As one-tenth of a second is needed for the full effect of any light upon the eye, we get only a very faint idea of the brilliancy of the flash.

Cause For the Condition.

"You don't shine so brilliantly as of yore," remarked the oil.

"No," said the wick; "I have been turned down by Miss Maude because that young simpleton is coming."—Town and Country.

HIS ONLY REGRET.

The Great Sorrow That Consumed Biehat When He Was Dying.

One century ago died Xavier Biehat, the famous physician and anatomist, author of "L'Anatomie Generale." He probably dissected more human corpses than any other man in the world's history. He established a record when he opened 123 bodies during one winter. He was not a vivisectionist and was wont to say, "I would rather dissect two dead people than kill one chicken."

Of his nerve a tale is told. When he lay on his deathbed, he called his colleagues to him and said: "Dear friends, I am done, but what comforts me is the fact that my case is a remarkable one. I have had unusual symptoms for some days which I have analyzed. The doctors sought to reassure him. He answered that he was under no illusion with regard to himself. 'I shall die fairly satisfied with my life and go to the grave with only one regret, one great sorrow.'"

"What is that?" he was asked. "I am distressed that after death I cannot dissect my own body. I could, I am certain, have made some beautiful scientific discoveries." Then he sank back, murmuring: "I must not think about it. It won't bear thinking of."

Birds' Nests and Poetry.

Birds' nests have attracted the attention of inquisitive genius from the days of Aristotle down to the present time. This is not wonderful, because the nests are invariably curious and often beautiful, besides offering a cradle, as it were, for a host of romantic speculations and poetical theories. Imagination has taken hold of birds and their nests with singular affection, drawing forth meantime some beautiful legends to enrich romance withal and to add to the sum of what is most persistent in the song of mankind.

The ancients told that the halcyon, a beautiful aquatic bird, had its nest on the sea's breast, a little floating palace around which the water was always calm and sweet. Halcyon, or alcyon, was the kingfisher, it is supposed, but we now know every species of this bird, and none of them builds its nest to drift about on the sea. Indeed, as if to make the contrast of fact with fancy as great as possible, most of the kingfishers dig deep holes in the ground for their homes.

How to Prolong Life.

The following rules for warding off death have been compiled with great care for the Modern Miller by experts, and meet with the indorsement of the most competent medical authorities in the world:

Never step into an elevator hatchway when the car is not there.

Do not permit yourself to be run over by a street car or railroad train.

Under no circumstances allow a brick to drop from the top of a building on to your head.

Be careful not to be in a place when a bolt of lightning strikes it.

Never fall from the top of a high building.

Do not take hold of a live electric wire. Both you and the wire cannot remain alive.

Training Is Necessary.

The time has come when, to be master in any line, it requires long years of careful training and preparation. It is true that the opportunities open to young men are greater today than they ever were before; but, on the other hand, there never was a period in the world's history when the qualifications requisite for success in any line of worthy endeavor were of a higher character, says Success. The artisan, the farmer, the business man, the clerk, the physician, the lawyer, the scientist, each in his various rank must prepare to reach up to ever enlarging ideals if he would attain his full height.

Negro's Kicking Hips.

A boy big enough to have reached the subject of races of men—not horses—in his geography class was asked to describe the negro. His answer, "The negro has kicking hips and producing lips," showed that he had at least heard the teacher when she spoke of the "kinky" hair and "projecting" lips characterizing his dark skinned brother. His answer really was not so funny as the remark made by a woman who in speaking of her sister said feelingly, "Oh, she's all misconstructed, so we had to take her to the hospital for a performance."—New York Herald.

Her Saving Way.

Mrs. Scale Downie—I will have to get another girl, though only temporarily, perhaps a month or so.

Mr. Scale Downie—Three dollars more a week and board! What do you want an extra girl for?

Mrs. Scale Downie—I have found out how to make just the loveliest little hanging cabinet you ever saw at a cost of only \$2, but it will take me several weeks to do it.—New York Weekly.

A Discouraging Position.

"Do you think a literary woman ought to marry?"

"Not if she is a novelist. Her ideas of manly perfection as depicted in her books would be enough to make any conscientious husband give up in despair and leave home to look for work as a truck driver."—Washington Star.

Time.

Time is the most paradoxical of all things; the past is gone, the future is not come, and the present becomes the past while we attempt to define it.

When a man has difficulty in finding a chance to propose, he can make up his mind that the girl doesn't want him.—Chicago Record-Herald.

Would you like to feel Young Again?

Many old people are lame, nearly all are weak.

Worst of all, is that feeling of languor, of inability to act, of weariness at trifling exertion.

Nothing will make the old young again, but Vinol will prevent 99 out of 100 old people from feeling so old.

There is no humbug about it. We found out about Vinol, and tried it every way before we decided to put it on the market and guarantee it. Now we believe that almost any tired, discouraged old person who will take a bottle of Vinol and use it as directed will feel better right away.

It will increase their strength, relieve their lameness and brighten their spirits.

It does this by nourishing. Don't blame the old folks for being blue and cross. Take home a bottle of Vinol.

MIDDLESEX, SS. SUPERIOR COURT.

November 11, A. D. 1902. Harlow H. Rogers of Brookline in the County of Norfolk, defendant, vs. Almira Thatcher formerly of Newton, now of parts unknown. This is a plea of land wherein the said Harlow H. Rogers demands against the said defendant a certain parcel of land situated in Newton in the County of Middlesex, and bounded and described as follows, viz.: bounded northeasterly by land now or late of Edward L. Pickard, southeasterly by land now or late of Lenora T. Pickard, southeasterly by Herkley Place, northeasterly by land now or late of Mary G. Walte, and now or late of heirs of Rachel Davidson, and containing about 10.100 square feet, and being Section 43, Block 30, lot 12 of the Assessors' plans on file at the Assessors' office in said City of Newton. Whereupon defendant says that being served of the said premises in fee within twenty years now last past, he ought to be in quiet possession thereof, but that the defendant disavowed him thereof, and still unjustly withholds said premises and demands the defendant out of possession, threat as set forth in the plaintiff's writ dated June 20th, 1902.

And it appearing to the Court by the suggestion of the plaintiff and on inspection of the officer's return on the plaintiff's writ, that the defendant had no last and usual place of abode, tenant, agent or attorney in the Commonwealth known to the plaintiff or to said officer; and that no personal service of said writ has been made upon the defendant.

It is ordered by the Court here, that the plaintiff give notice to the defendant of the pendency of this action, by causing an attested copy of this order to be published in the Newton Graphic, a newspaper printed in Newton, once in a week, three weeks successively, the last publication to be thirty days at least before the first Monday of January next, and that this action be continued until notice shall be given to the defendant agreeably to the order.

REAL ESTATE

An unusual number of sales are reported completed in Newton. One concerns the property on the corner of Washington and Crafts streets, comprising a lot of land containing 34,605 feet of land and two frame buildings. The title is given by John J. Harkins to Mary G. Callanan

John H. Allen transfers to Charles P. Walter a property consisting of two acres of land and buildings, situated on Waltham street, West Newton.

A lot of land on Crafts street, Newtonville, with an area of 37,198 feet, is conveyed by Joseph Stone and another to Olof Ohlson

Mary E. Brunel has conveyed to Etta Wells a lot of land on Cottage court, Newton, containing 15,000 feet.

Florence Butterfield transfers to Frederick H. G. Small a lot of land containing 7200 feet, with buildings, situated on California street, Newton.

Another transaction reported is that of a parcel on Irving street, Newton Centre, consisting of land and buildings, Blanche M. Burr conveying to Robert W. Wilson.

Mrs. Mary A. Rumery has sold her estate No. 410 Newtonville avenue, at auction, by John T. Burns, auctioneer, to Mr. Phillip B. Downing of Boston for a Boys' Colored Boarding school.

Rev. John Reid, Jr., of Great Falls, Mont., recommended Ely's Cream Balm to me. I can emphasize his statement. "It is a positive cure for catarrh if used as directed."—Rev. Francis W. Poole, Pastor Central Pres. Church, Helena, Mont.

After using Ely's Cream Balm six weeks I believe myself cured of catarrh.—Joseph Stewart, Grand Ave., Buffalo, N. Y.

The Balm does not irritate or cause sneezing. Sold by druggists at 50 cts. or mailed by Ely Brothers, 56 Warren St., New York.

NEW BOOKS.

For Christmas and the Holidays.

Christmas Numbers of the Standard Magazines.

Most prominent and perhaps most interesting among the many special features of The Outlook's Annual Book Number is a discussion called "The Most American Books," in which ten authors contribute their views in reply to the question. The number has also portraits and sketches of Miss Hegan, author of "Mrs. Wiggs of the Cabbage Patch," Mrs. Lillian W. Betts, whose "The Leaven in a Great City" is attracting much attention; H. H. Furness, the great Shakespearean; Booth Tarkington, and Helen Keller—the last a sketch by Edward Everett Hale. A beautifully illustrated article on the "Washington Irving Country" by Mr. Hamilton W. Mabie; a careful survey of "Novels of a Season," with portraits of authors; a talk about "Children's Book Plates," by Zella A. Dixon, Ex-Secretary John D. Long, under the title "Building the New Navy," contributes the second of the important and authoritative series of twelve papers he is publishing in The Outlook on the general subject, "The New American Navy;" Mr. Reuter Dahl, the best of our marine artists, is furnishing original pictures for this series, which are also otherwise illustrated fully.

"Boy Donald and His Hero," by "Penn Shirley," third volume of the "Boy Donald Series." Illustrated by Bertha G. Davidson. Cloth.

The scene of this is laid in California. Boy Donald and his supposed "twin," Julius Fay, go with several of their friends to the country seat Cascade Roses, where they meet with both amusing and thrilling adventures. The story closes with a grand barbecue and a glowing tribute from the assembled guests to Donald's idolized brother Kirke, who has proved himself a hero indeed. A delightful little book, like all books by this author and her gifted sister, "Sophie May." Price \$5.00, net. Lee and Shepard, publishers.

"The Young Volcano Explorers," or "American Boys in the West Indies," second volume of "Pan American Series" by Edward Stratemeyer. 12 mo. Cloth illustrated. This is a complete tale in itself, but has the same characters which have appeared so successfully in "Lost on the Orinoco." The boys, with their tutor, who is an old hunter and traveler, sail from Venezuela to the West Indies, stopping at Jamaica, Cuba, Haiti and Porto Rico. They have numerous adventures on the way, and then set out for St. Pierre, Martinique, to join the fathers of two of the lads. On approaching the ill-fated island they encounter the effects of the eruption of Mt. Pelee, and two of the boys are left on a raft to shift for themselves. Later on the adventurous party does some thrilling volcano exploring, in an endeavor to locate the boys' parents, who have disappeared. The book contains a vivid description of the destruction of St. Pierre, and likewise of the havoc wrought on the island of St. Vincent. An excellent explanation of the great convulsion of nature is woven into the story. Life in the West Indies is well portrayed, and the tale will appeal to many an older person as well as to the boys. Mr. Stratemeyer has by writing this book strengthened his right to be, as he is, the most widely read of living American writers for boys. Price \$1.00, net. Lee and Shepard, publishers.

Tom Winstone, "Wide Awake," by "Martha James," author of "My Friend Jim." Large 12mo. Cloth illustrated by W. Herbert Dunton. One of the very best, as well as most successful, of last season's books for boys was "My Friend Jim," by a previously unknown writer, Martha James. Such real genuine boys had not been seen in print in a long time. Miss James has now written a second book in every way equal to the first, and proved that her success was not the result of accident. "Tom Winstone," "Wide Awake," reads much like the noted books of J. T. Rowbridge, who has seemed likely to pass leaving no real successor. The young hero of this book, equally efficient in a foot race or a noble action, is well worth knowing. The book is excellently printed and bound, with an unusually attractive cover design. Price \$3.00, net. Lee, Shepard, publishers.

The Christmas National comprises one hundred and fifty pages of the brightest and most entertaining text and picture. Admiral Dewey, Secretary Shaw, John Mitchell, Ernest McGaffey, and John Bates Clark contribute pithy "sentiments for the Christmas season. There are short stories by ten American writers. Joe Mitchell Chapple discusses "Affairs at Washington," illustrated with dozens of new snapshot pictures and portraits of celebrities. Frank Putnam in "Note and Comment" chats about the intellectual activities of American women. Poulney Bigelow gives us a glimpse of "The French Family Point of View." John Bates Clark analyzes compulsory arbitration, and defines its limits. S. Glen Andrus, in "The Miracle of the Batopilas Mine," tells how the late "Boss" Shepherd, after his exile from Washington, took millions out of Mexican silver mines—the richest on the continent. E. S. Hoch writes in praise of "St. Louis, a Much Maligned Metropolis." Caroline S. Mahoney introduces three great grandmothers who are actively engaged in Atlanta journalism. Byrd Prillerman tells how Booker T. Washington is regarded among his old-time neighbors in West Virginia, and H. L. Cleveland depicts the delights of a trip "On the Overland Limited to California."

Woodrow Wilson, the new president of Princeton University, opens the De-

cember Atlantic with an able and stimulating article on "The Ideals of America." P. T. McGrath, editor of the St. John's Herald, Newfoundland, discusses "The Atlantic Fisheries" from his home standpoint. Francis H. Nichols contributes "Chinese Dislike of Christianity." C. H. Henderson gives some noteworthy "Impressions of Porto Rico and Porto Rican Schools;" and A. P. Winston continues his studies of the labor question, with an illuminating paper on "The Relations of Trade Unions and the Superior Workman." Thomas Bailey Aldrich contributes "All Sorts of a Paper." Zitkala-Sa tells "Why I am a Pagan;" Alexander Black furnishes a striking sketch of "The Court Bible," and George Chamberlain furnishes an interesting and informing letter from Brazil. Varied and agreeable stories appear from Fanny K. Johnson, Marion Wilcox and Beirne Lay, a brilliant new writer.

The Christmas number of Scribner's Magazine has been always made notable by the richness and beauty of its pictures, and the fine quality of the sentiment and exquisite workmanship of its stories. The issue of this December number sustains and adds to that reputation. It contains eight short stories, most of them illustrated and special articles and poems. The color printing is especially beautiful in this number. A very simple and striking scheme of color is shown in Edward Penfield's "Christmas at Cafe Spaander." Richard Harding Davis in his most attractive manner describes "The Gentle Art of Bull Fighting." Maxfield Parrish, who stands at the very head of American illustrators in color, furnishes a striking frontispiece to accompany "The Desert," a story by Arthur Cosslett Smith. Other short stories are: F. Hopkinson Smith's humorous tale, "Compartment Number Four—Cologne to Paris." A tale of the famous "Blue Grotto in Capri," by Guy Wetmore Carryl, entitled "Pippa." A beautifully pathetic story, "The Bishop's Silence," by Mary R. S. Andrews. The love story of a Yale crew man entitled "The Custom of the Captain." A story of love in a college settlement, by Octave Thanet. "The Alliance of Laughter," by E. F. Benson.

TRIVIAL, YET POTENT.

The Tyranny of the Small and the Helplessness of Mankind.

The "tyranny of littleness" is the cruel despotism not of one master, but of a multitude of small ones. Witness the trampled way which any sovereign ruler of the kitchen may wield over a helpless household. What happiness or misery is bestowed lightly by one who turns a toaster or brews a pot of coffee!

We are all slaves to milliners and tailors. The millman holds us helpless in his clutches. The chore man orders us about. The maid of all work beckons, and we follow. We bow and scrape before the haughty plumber.

We who would strike down monarchs and measure swords with ministers of finance, what sorry figures we cut in the community if slighted by the laundryman! We scarce can hold our own against a surly railway porter, and it is but by the courtesy of Master Boots that we emerge from our hotel apartment. And who shall stand before the overwhelming power vested in an offended waiter? We cannot even mount a trolley car if the conductor and motorman choose to ignore us.

The man who rules the Stock Exchange cannot rest at night because an infant's voice banishes dreams. He is a victim to the insect world. Who will abolish the tyranny of flies and of mosquitoes?

Behold the tyranny of horses, dogs and cats, to which the great majority of mortals submit without a murmur. What master is as exacting as a tight shoe or a torturing collar? A parrot or a pet canary can sadly try men's souls! Yes, "things are in the saddle and ride mankind."

Who will do justice to the tyranny of the depraved inanimate taskmasters? A diamond necklace changes the history of empires. A courtier's cloak may pave the way to royal favor. A glove, a handkerchief, a glass slipper, what things to conjure with! Slaves of the lamp! Slaves of the ring!

Ah, the supremacy of trivial things, that one real tyranny to which we all bow down! Is there no hope that we may some day throw off the heavy yoke? Well is it for us to meditate upon this vital problem which touches each so closely. And as we meditate we may grow wise enough to break some of the multitudinous shackles that hold us spiritless and helpless in the power of the arch tyrant, "Little Things."—Caroline Tieknor in Brander Magazine

Her New Jacket.

A naval officer engaged in ordnance duty on a home station was given to talking in his sleep. One night he awakened his wife by starting up in bed and exclaiming in accents of plying distress:

"She must have a new jacket! I must manage to get one for her!"

The wife, knowing her husband's slumbers had never before been disturbed by the requirements of her wardrobe, became vastly agitated and gripped him by the arm.

"William! William!" she breathed earnestly into his ear, hope meanwhile rising high in her breast. "Who is she?"

"My three inch gun!" sighed the overtired ordnance man.

Next Sunday afternoon, boys' meeting at 3, Mr. John M. Dick will give an illustrated magnet talk. At the men's meeting at 4, Rev. H. H. Cutter of Maplewood will speak on "The Master Virtue."

Dr. Frank R. Stubbs gave an interesting and instructive lecture on "Take Care of Your Body," last Monday evening.

A chess tournament for members will begin on Monday.

Charles Williams' recital of "Enoch Arden," with the Richard Strauss music is to be given at the Hunnewell Club, Newton, next Tuesday afternoon, Dec. 9, at three o'clock. Miss Louise Waitt is to be the pianist. The music was written especially for the poem by Richard Strauss. Some of it is played as the words are spoken, other parts come in as interludes. Whether descriptive or emotional the effect of this music is marvelous. The Transcript says "it is truly great music." There will be a fine audience as there are already a large number of subscribers.

WHAT IS HOME WITHOUT INSURANCE?

It is the most foolish economy ever practiced. Think of what the loss to you might mean if your HOME should be destroyed by fire. In many cases, the home represents the savings of years, and to lose it on account of not taking the precaution to insure it, how very thoughtless.

CITY ELECTION.

Republicans Victorious in All Contests but One.
Sweeney Elected in Ward One.

Mayor's Term of Office to be Two Years. No License Receives a Strong Endorsement.

The cold weather and generally uninteresting election resulted in a small vote being cast last Tuesday at the annual municipal election.

3389 ballots were cast in the whole city and Mayor Weeks received 2294 to 925 for Dr. S. L. Eaton, his democratic opponent. The entire republican ticket is also elected with the single exception of the nominee for ward alderman in Ward One.

In this ward the republican vote was split by the independent candidacy of Dr. Gallagher and the democratic nominee, Wm. P. Sweeney, was easily elected. The fourth candidate, John Flood, did not take his nomination seriously and his vote was accordingly meagre.

Possibly the greatest interest was aroused in the contest for school com-

mittee from Ward 7, between Miss Burt and Mr. Travis. The women's vote was almost solid for Miss Burt and she ran ahead of her ticket besides, but the strength of Mr. Travis was such as to give him a lead of 445 votes in the whole city.

The acceptance of the two year term for mayor was something of a surprise as but little work was done in behalf of the measure, and as a rule the average voter is reluctant to make radical changes in existing methods without strong reasons therefor. The act is accepted by a majority of 304 and will take effect at the next city election.

The majority of 1022 for no license is extremely gratifying considering the generally adverse conditions of election day. Only two precincts were carried by the liquor interests, and every ward is in favor of the present system.

The vote in detail is as follows:

NEW BOOKS.

Published by Lee and Shepard.

For Christmas and The Holidays.
An Attractive List.

"Hortense.—A Difficult Child." by Edna A. Foster, editor children's page "Youth's Companion." Illustrated by Mary Ayer. 12mo. Cloth. Although this is Miss Foster's first book, few have had more experience in intelligently supplying good and attractive reading for children than this gifted editorial writer. She has here a book of unusual excellence, whether viewed as a tale of entertainment for a child's reading or a valuable and suggestive study for the education of those who have to do with children. The impulsive little Hortense wins the readers' sympathy at once, and the experiences of the well meaning young lady, relative who attempts to train her up according to set rules for well regulated children are very interesting. Hortense's progress is one of triumph, however, and what she accomplishes might well exemplify the text "A little child shall lead them." Price \$2.80, net.

"Randy and Her Friends." Third volume of the "Randy Books," the previous volumes being "Randy's Summer" and "Randy's Winter" by Amy Brooks, author of "A Jolly Cat Tale" and "Dorothy Dainty." Finely illustrated by the author. 12mo. Cloth. Another "Randy Book" is as welcome an announcement as we have to make to the girls, and the "Randy Books" concern both Randy herself, now almost grown up, and little Prue, now aged six, and as ready as ever with most unexpected sayings and doings, both the big and little girls will be equally interested. The lovely young lady, Helen Dayton, who has with so much tact as well as kindness helped a remote village to profit through her far different lot in life, makes Randy her guest in order to enjoy a term at a fine private school in Boston. How the simple country maiden by being "natural" not only escapes embarrassment, but wins high favor in new surroundings, is finely told. The rural residents, Timotheus Simpkins, and all, are as amusing as ever. The "Randy Books" are rapidly getting to be as well known and important as the "Pepper Books." Price, \$2.80, net.

"Madge A Girl in Earnest," by S. Jennie Smith. 12mo. Illustrated by James E. McBurney. Madge is indeed "a girl in earnest." She scorns the patronage of an aristocratic relative and takes upon her strong young shoulders the problem of carrying along the family in an independent manner. Her bravely-won success, in spite of the lions in her path, not the least of which was the fear of social disfavor felt by some of her family, forms an inspiring tale. An unusual amount of practical information is presented in a thoroughly entertaining manner, and the character-drawing is remarkably true and strong. Miss Smith deserves the thanks of all mothers and daughters for writing so noble a book, and with it very bright and readable style we predict a continued success. Price \$1.00, net.

"Dorothy Dainty." Being the first volume of the "Dorothy Dainty Series," by Amy Brooks. Large 12mo. Cloth. Finely illustrated by the author. Here is a literary masterpiece for younger readers by one who knows them sympathetically. Its large, clear type, wide margins, fine pictures, and beautiful binding all help to make it a gem of a book for little girls. More than that, the atmosphere of good breeding so evident throughout the book, without being obtrusive, makes it specially desirable. The little heroine lies up to her name, and the character of her little playmates, and of the strikingly original waif, "Nancy," are unusually well sustained. This is just the book that careful mothers will welcome. Price \$2.80, net.

"Brave Heart Elizabeth." A Story of the Ohio Frontier, by Adele E. Thompson, author of "Becky Fortune," and "Betty Seldon Patriot." 12mo. Cloth. Illustrated by Lillian Crawford True. Any one who has known Miss Thompson's previous books needs not to be told that in addition to a finished style and a wide range of knowledge, she displays in her books just those qualities of nobility of character and common sense, seasoned with a rich sense of humor, that makes an author both a safe and a welcome companion for her daughters. This is a book for older girls, and in strength ranks with the best fiction of the year. It is a story of the making of the Ohio frontier, much of it taken from life, and the heroine one of the famous Zane family after which Zaneville, O., takes its name. As an accurate, pleasing, and yet at times intensely thrilling picture of the stirring period of border settlement, and the hardy folk whose familiarity with danger taught a surprising ability to enjoy the brighter side withal, this book surpasses all recent writings of its kind. Price \$1.00, net.

Artistic Piano Rooms

The old established Ivers & Pond Piano Co., have lately redecored their extensive warehouses at 114 Boylston St., Boston, so that this beautiful store is now really one of the sights of the town. Whether a used square piano at \$25, or a concert grand at \$1,000, is desired, the Ivers & Pond Piano Co. can furnish it with the assurance of giving maximum value. Any of our readers contemplating buying, renting or exchanging a piano will do well to write for their catalogue with a bargain list of used pianos and description of their rental purchase plan of buying. It may be the means of saving \$50 to \$100.

THE PLAYHOUSE.

TREMONT THEATRE, Dec. 15.—"The Sultan of Sulu."
GRAND OPERA HOUSE, Dec. 15.—"Not Guilty."
COLUMBIA THEATRE, Dec. 15.—Rice's "Show Girl."
MUSIC HALL, Dec. 15.—"Spotless Town."
KEITH'S THEATRE, Dec. 15.—Vaudeville.

Boston Music Hall—If ever Boston Music Hall was too small to accommodate theatregoers, it will be next week when Gus Hill's comedians in "Spotless Town" are presented. The piece is a compound of the usual features of modern farce comedy extravaganza, introducing a number of specialties. The first scene is laid in "Spotless Town," where the Butcher, Mayor, Maid, Policeman and Doctor reside. The second act shows a magnificent palace. The third act represents a street scene. "Spotless Town" has created more hearty laughter than all other farces combined, and has met with success eclipsing all other combinations of similar nature. Carlin and Brown, the best of German dialect comedians; Speck Brothers, boxers and burlesque artists second to none; the three Kelcey Sisters, singers and dancers of extraordinary merit. On Monday Resident Manager C. H. Smith will inaugurate a distinctively novel entertainment for the children. The Japanese Garden has been transformed into a cosy children's theatre and entertainments will be given there hourly for the express benefit of the little ones. The entertainment will consist of the very latest novelties in moving pictures, depicting the scenes of Fairyland and the program will be changed each day. Performances will be given hourly and children will be admitted at ten cents each.

Tremont Theatre—"The Sultan of Sulu." George Ade's merry opera, undoubtedly would break the remarkable records established at the Tremont Theatre by Manager Henry W. Savage's previous productions, "King Dodo" and "Prince of Pilsen," could it hold the stage of Manager Schoeffel's popular playhouse for a similar length of time. Unfortunately it can remain in Boston only a fortnight longer, owing to other engagements, and playgoers who intend enjoying it will have to make early application for seats, as the house is selling out at every performance, and late comers are compelled to content themselves with standing room. George Ade's lyrics are fairly Gilbertian in their humor, the general verdict being that the libretto contains the brightest lines of any yet written by an American, and they have been set to charmingly "catchy" music by Alfred G. Wathall. Sultan Ki-Ram's "Cocktail" song, as sung by Frank Moulan, together with his droll "Smiling Isle," ballad have become instant favorites. There are many other attractive numbers, including "Oh, What a Bump," with its humorous satire on society customs. The stirring "Hike" song, the dainty "Delia," Miss Quinlan's "My Sulu Lulu Loo," and the grotesque ballad, "Come Back to Manistee," all of which may be said to crowd the laughable "Cocktail" song for first honors.

Keith's Theatre—There is another big show scheduled for Keith's popular Boston playhouse for the week commencing Dec. 8, headed by Lewis McCord, the quaint comedian, late of David Belasco's forces, supported by an excellent company, in a realistic comedy of dramatic life, "Her Last Rehearsal," which is from the pen of the noted dramatic editor, Willard Holcomb. Among the other entertainers whose services will prove of value in an interesting or amusing way may be noted: Delmore and Onaida, in the greatest "perch" act ever seen in this country; the Salamons, in a novel electrical specialty; Hal Merritt, the cartoonist, in a monologue entitled "The Poster Girl"; O'Rourke and Burnett, novelty dancers; the Rousseaus, acrobats and tumblers; the Romany trio, vocalists and instrumentalists; and Lew Simmons and Frank White, in a blackface farce. Messrs. Cole and Johnson, the noted colored vocal comedians, will remain for a third week, making a change of songs.

The Faded Woman's Orchestra of Boston will probably not visit California this season but will tour New England, giving concerts in the principal cities and towns. Mrs. Nichols reports that she has had splendid success in the leading vaudeville theatres since starting at Keith's, Boston, in March last. Vocal soloists of note will accompany the Fadedettes on their projected concert tour.

New Ballroom Inspected

There was an informal private inspection of the magnificent new ballroom at the Hotel Somerset, Commonwealth Avenue, Boston, Saturday evening, from seven to nine o'clock. On this occasion Proprietor Charles A. Gleason disclosed to a large number of invited guests the rare beauties of the hall and its surroundings. The ballroom, in architectural design as well as in its appointments, is in strict accordance with the style of the Louis XV. period, finished in gray and gold, with just a touch of color lent by the crimson draperies and hangings and the upholstery of the imported bent wood chairs. The dancing surface is 100 feet in length by 75 feet in width, and the floor is of parquetry polished oak, with solid mahogany parquetry. This floor, is covered by a carpet of rich green, which will protect the surface during the Sunday evening table d'hôte dinners, which will be made a weekly feature beginning Dec. 14. The hall is of easy access, approaching direct from the porte cochere as well as by the main entrance through the piano room, which forms a foyer and promenade for the ballroom. The room has been completed at a cost of \$100,000 and is considered one of the finest of its kind in the country. During the two hours of the inspection the proprietor entertained his guests with a collation served in the piano room.

Boston Grand Opera House—"Not Guilty" a four act melodrama which met with unprecedented favor on the circuit last season is the attraction selected for the Grand Opera House Boston next week. This announcement will be hailed with delight by the patrons of good old-fashioned melodrama. "Not Guilty" comes heralded by press and public as one of the substantial and enduring successes of the hour. It is replete with stirring incidents, the scenic embellishment is elaborate and appropriate. The play contains an abundance of good comedy. Matinees will be given on Tuesday, Thursday and Saturday as usual.

Columbia Theatre—Edward E. Rice's production of Barnett's pretty tangle and exceedingly funny little "bit of tomfoolery," the "Show Girl," is enjoying a very prosperous engagement at the Columbia Theatre. The "Show Girl" made a host of friends when it was first presented here by the Cadets, and was so well received when it was given here for a week once before this season that Mr. Rice determined to change his plans for the Western tour so as to permit a limited engagement in Boston. It is certainly a most effective banisher of dull care, and, moreover, puts catchy tunes enough in ones head to last a month. The cast is a brilliant one, including Frank Lalor as Dionysius Fly, the theatrical manager who owns the wishing cap, which gets him into no end of trouble and funny scrapes; David Lythgoe as Captain Armour; Robert L. Dailey as Garick Forrest Marceady; Neil McNeil as Jhonnie Jhonca; Kathryn Hutchinson as Miss Cecelia Gay, the show girl; Kathryn Warren as Lady Beth Pringle; Yolande Wallace as Lady Clarissa; David Abrahams as Thomas the cat. Anna McNabb and Neil McNeil in "Waltz Me Sally" make a decided hit. The latest New York musical success "Sue Anna," sung by Mr. Dailey and Miss Wallace, has made a sensational hit in Boston. Messrs. Dailey and McNeil in "There She Sits All the Day" get a half dozen encores nightly. In "As the Prince Waked the Princess" and "Psyche," Mr. Lythgoe's fine voice is heard to great advantage. The chorus is very good in all respects and the costumes and scenery are quite in keeping with the sumptuous entertainment. Matinees are given Wednesdays and Saturdays.

Street Railway Matters

The Newton Street Railway Company has commenced operating its double track system over Main street, Waltham, and the improvement over the former single track gives great satisfaction. At the present time cars are run every fifteen minutes, as formerly, but there are no tedious waits on turnouts as under the single track system.

The company is soon to inaugurate a through service between Waltham and the subway via Watertown and Cambridge.

Judge Loring denied in the Supreme Court last Friday a motion of the Boston & Worcester Street Railway Company to dissolve or modify a temporary injunction granted against it in a suit brought by the New York Central & Hudson River Railroad Company, restraining it from entering upon the railroad's location on Boylston street, Newton, to lay its tracks, poles and trolley wires. The case will probably be taken to the full court.

Geo. W. Morse of Newton has sold his entire interest in the combination of street railways of Newton and vicinity now known as the Boston and Suburban Electric Companies, and has resigned from the Board of Trustees.

Mr. Morse led in the early promotion of these roads and in the electric lighting at a time when few believed in their chances of success and was always one of the largest stockholders.

The consolidation is now under a new management, with good prospects. The roads were turned over to the consolidated company in excellent physical and financial condition and free from the taint which too frequently attend public franchise companies.

Mr. Morse will devote himself as formerly to the general practice of his profession.

Enoch Arden

A representative audience was gathered in the assembly hall of the Humwell Club last Tuesday afternoon to hear Mr. Charles Williams' recital of "Enoch Arden." Mr. Williams gave a most artistic rendering of this famous poem by Alfred Tennyson and showed a true conception of the dramatic, the sad and the cheerful portions. The musical accompaniment written especially for the poem by Richard Strauss, which was played by Miss Louise Waitt added greatly to the recital. It is hoped Mr. Williams will appear again in some other selections from his extensive repertoire.

To accommodate those who are partial to the use of atomizers in applying liquid into the nasal passages for catarrhal troubles, the proprietors prepare Ely's Liquid Cream Balm. Price including the spraying tube is 75 cents. Druggists or by mail. The liquid embodies the medicinal properties of the solid preparation. Cream Balm is quickly absorbed by the membrane and does not dry up the secretions but changes them to a natural and healthy character. Ely Brothers, 50 Warren St., N. Y.

THE RESULTS.

The success of the Republican
ticket at the city election this week
was discounted in advance, the in-
terest centering in the result of the
ward alderman fight in Ward 1, in
the contest for school committee
from Ward 7 and in the outcome of
the vote for two year term for the
mayor.

In Ward 1, the election of Mr.
Sweeney is the result of the indepen-
dent candidacy of Dr. Gallagher,
whose strength was largely derived
from what is normally the republi-
can vote. The ward committee failed
to recognize this fact and complacently
settled back in the belief that the
opposition to the Republican candi-
date was divided, when as a matter
of fact the boot was on the other leg.

The election of Mr. Travis is
gratifying to those who desire to see
strong and influential men on the
school board. The woman vote as
predicted last week was almost solid
for Miss Burt, but the adverse
weather conditions presented the
ladies from being much of a factor
in the result. Miss Burt's vote,
under the circumstances is quite
complimentary, however, and she
ran well ahead of her ticket.

The adoption of the two year
term for mayor was rather a sur-
prise, as but little work was done
in its behalf. The influence of
Mayor Weeks probably had an im-
portant bearing on the result.

The large majority for no license
is especially pleasing when the cold
and the generally uninteresting elec-
tion are considered, and shows con-
clusively that the electorate of Newton
can be generally depended upon to do
the best thing.

The coal situation in this city is
the most serious since the coal strike
was declared last spring. Dealers re-
port that the hard coal supply is
practically exhausted and great
difficulty is found in obtaining
enough teams to deliver of coal.

The heavy demand brought forth
by the cold wave this week is the
cause for this situation, which will
probably be relieved next week as coal
is reported on the way to this city.

A little patience and a willingness
to take coal in small lots in order
that the present supply may go as
far as possible are the qualities to
be cultivated under the circumstances.

The delay in confirming the nomi-
nation of Mr. C. E. Kelsey as a
library trustee is inexcusable.

WABAN.

—Miss Helen Collins of Brooklyn,
N. Y., is the guest of her cousin,
Miss Jessie Gould.

—Mills undertaking rooms, 813
Washington street, Newtonville. Tel.
445-5. Leave calls at Rhodes' Drug
store. Tel. N. H. 237-3.

—Land owners on Windsor road have
been notified that the city has at
last agreed to accept it. A hearing
will be held at city hall next Monday
evening.

—Many regrets are expressed that
Mr. T. E. Ripley and family are
about to leave Waban. Mr. Ripley
finds it necessary to be nearer his
business at Tacoma. They leave next
week for the west.

—About fifty society people of this
place attended the "Military Whist"
held in Waban hall Wednesday even-
ing. The hall was prettily and ap-
propriately decorated in the National
flags and colors, the tables represent-
ing well known forts and were
kept by little flags run up at the home
fort. Punch was served during the
evening.

Among Women.

Sarah Hull Chapter members are
herby notified that boxes of litera-
ture, clothing and useful and fancy
articles are to be sent next week by
the chapter, to the mountain Whites
at Berca College, Kentucky and Lin-
coln Memorial University, Cumber-
land Gap, Tenn. Will all interested
persons, whether chapter members or
not, who have contributions to make,
send by Monday next or notify one of
the following ladies: Mrs. F. E.
Stanley, 638 Centre street, Miss S. A.
Whiting, 11 Washington street, New-
ton; Mrs. E. W. Howe, 285 Crafts
street, Newtonville; Mrs. A. F. Hay-
ward, 1523 Centre street, Newton
Highlands; Miss J. C. Clark, 40 Cy-
press street, Newton Centre.

A meeting of the West Newton
Woman's Educational Club will be
held this afternoon in the parlors of
the Unitarian church. Mrs. F. E.
Stanley will give a report of the bi-
ennial convention at Los Angeles and
a paper on "Arts and Crafts," will
be read by Mrs. Ada W. Tillinghast
of New Bedford, chairman of the
Arts and Crafts committee of the
state federation.

The regular meeting of the Newton-
ville Woman's Guild will be held
next Tuesday afternoon in the par-
lors of the New Church. There will
be a special musical program and
Mrs. Alice S. Ware will speak on
"Historic Landmarks in Boston."

At the gentlemen's night of the
Sarah Hull Chapter, D. R., given at
the Hunnewell Club parlors on the
evening of Dec. 1, the address was
delivered by the Rev. A. L. Hudson.
The subject was "The importance of
high ideals in national life." He
used as an illustration, the life and
character of Geo. Washington, show-
ing how he was guided by his ideals
of democracy, although his inherited
aristocratic tendencies, his military
genius, and his reputation as a great
General were all temptations pointing
to an opposite career.

The next meeting of the Social
Science Club will be on Wednesday,
Dec. 17th, at 10 a. m. at the Hunne-
well Club. Lecture, "Oxford," by
the Rev. B. Hornbrooke. Guests
may be invited.

The Auburndale Review Club will
meet Dec. 6th with Mrs. Henry R.
Turner, 42 Maple street.

Newton Club.

70, J. W. French and W. R. Baldwin
64, and A. D. W. Sampson and F.
Johnson 62.

M. J. G. Hood gave a most inter-
esting exhibition of pool playing
and fancy shots in the assembly hall
on Wednesday evening. In one case
he pocketed 11 balls in one shot,
which was played blindfolded. In a
match with Mr. G. A. Page Mr.
Hood won 50 to 31.

Clubs and Lodges.

G. M. W. T. H. Videto, D. D. G. M.
W. Vinal; Grand Supervisor Walter
R. Forbush and Rev. W. W. Reed of
Needham.

The annual meeting of Triton
Council, Royal Arcanum, was held
last Monday evening in A. O. U. W.
hall, West Newton. The new officers
are: Regent, P. F. Carroll; Vice
Regent, John McBride; Orator, Ed-
ward Hickey; Chaplain, John Con-
nor; Treasurer, J. H. Nickerson;
Collector, P. C. Sheridan; Warden,
P. McCarthy; Sentry, William Green;
Past Regent, D. J. Linnehan.

The annual election of the officers
of Newton Council, K. of C., was
held in Dennison hall, Newtonville,
last week and resulted as follows:
G. K. John Barry; D. G. K., M. J.
Pendergast; C. T. M. Spelman; W.
H. Dolan; F. C. J. B. Healey;
R. M. O. Gallagher; T. G. W.
Linnehan; C. Rev. J. J. Farrelly;
A. J. J. Warren; L. E. J. Glancy;

Medeth; trustees, J. C. Foley, J. T.
O'Hara, John C. Buckley.

Hunnewell Club.

The club team won a two in three
bowling match in the Newton league,
Wednesday night, defeating Maugus
by 112 pins.

Wardwell was high man with a
single of 219 and a total of 559. Wel-
lington 540, and Loveland 502 were
also in the honor class.

In team bowling this week, team
7 beat 1, team 9 beat 4, team 12 beat
8, two out of three each. Team 11
won three straight from team 10. W.
F. Bacon 231 and E. T. Ryder 211
were high men for the week.

City Hall Notes.

City Treasurer, Ranlett has awarded
\$29,000 3 1/2 per cent. 10-year park
and \$12,000 25-year street bonds to Mac-
Donald, McCoy & Co., of Chicago, at
102.51 for both.

Mayor Weeks entertained his
friends election night at his home on
Valentine street.

The Mayor's coal "bureau" has
been hard at work this week.

Street Commissioner Ross has been
confined to his house for a few days.

No one will envy Agent Stone this
week in the work of thawing out
water pipes in a house quarantined
for small pox and which plumbers
would not approach.

NEWTONVILLE.

—Miss Constance Richardson of
the freshman class, Smith College, took
part in the play given last week.

—Are you satisfied with the canned
peas that you have been using? If
not, try the "Lily Brand" at Henry
W. Bates's.

—Mr. and Mrs. H. A. Mansfield of
Walnut street left yesterday for Los
Angeles, Cal. where they will spend
the winter.

—The Newton High school hockey
team will be associated with the Pre-
paratory school league the coming
season.

—Next Thursday afternoon in the
rooms of the Associated Charities,
a visitor's meeting will be held at 3
o'clock and a director's meeting at 4
o'clock.

—Mr. and Mrs. John Dorney will
have the sympathy of their friends
in the loss of their infant son George,
yesterday. The funeral will be held
from the family residence on Claffin
place this afternoon at 3 o'clock.

—An organ recital for the benefit
of the organ fund of St. John's
church was given by Dudley W. Fitch
in the Central Congregational church
Tuesday evening. Mr. Fitch was as-
sisted by Miss Josephine Martin,
contralto, and Mrs. Richard T.
Loring, violinist. Miss Elizabeth
Kelly was accompanist.

—Miss Sarah E. Robinson died at
the home of her sister, Mrs. Hol-
brook on Clarendon avenue last Sun-
day. She was 76 years of age and
was formerly a well known resident
of Watertown. Funeral services were
held from her late residence Wednes-
day afternoon at 2 o'clock, Rev. Rich-
ard T. Loring, rector of St. John's
church, officiating, and the inter-
ment was at Mt. Feake cemetery,
Waltham.

—A pretty sale under the auspices
of the Ladies' Sewing Circle was
held in the parlors of the Universa-
list church yesterday afternoon and
evening and will be continued this
afternoon and evening. The Sewing
Circle table in charge of Mrs. Ban-
chor; fancy goods table, Mrs. Kimball;
domestic table, Mrs. Parker and
candy table Mrs. Atwood, were de-
corated in crepe paper to represent the
four seasons. The neckwear and
handkerchief table in charge of the
Y. P. C. U. was in blue and white
and the memorabilia table, presided over
by the Lend a Hand was decorated
in green and pink. On Thursday
evening a turkey supper was served
by Mrs. Cox and a committee and to-
night there will be a salad supper
served by the members of the Lend
a Hand. The success of the affair
was largely due to the efforts of the
officers of the Circle, Mrs. H. B. Park-
er, Pres.; Mrs. E. J. Cox, Sec.; Mrs.
W. F. Kimball, Treas.; Mrs. J. F.
Banchor, chairman of the board of
directresses and the members.

NEWTONVILLE.

The Business Centre of the City.

A New Business Enterprise to be established in Masonic Building.

To those who have watched the trend of affairs it is plainly to be seen that Newtonville must be the business centre for the Newtons. The electric lines have chosen this part of the city for their offices and transfers, and the interchange of travel is already very large. The High school, Masonic building, the Newton Club, Newtonville Trust Co., and other prominent buildings and other improvements that are contemplated ensure its future as a business centre. Any movement that tends to foster this situation is for the benefit of all Newton people and tax payers, as the local merchant is almost the only one that affords the assessor any tangible evidence of personal property and an increase in this taxable property goes toward reducing the tax on real estate, which all property owners will admit is acrimonious matter to be wished. With the above matters in mind the proposition that a new business enterprise was on the tapis for Newtonville, would interest our readers. One of the oldest and most reliable Boston Houses have taken a lease of the new store in Masonic Block (next door to the Newtonville Trust Co.) where they will carry on the Grocery business in an "up to date" style and do away with the need of so many buying their supplies in Boston. That

MASONIC BUILDING.

is, if standard goods, low prices and good service enter into their consideration. The style of the firm will be Geo. H. Bond & Co. Mr. Bond is a resident of West Newton, has been in the business in Boston for 37 years and is at the front as far as buying is concerned, and he ought to know by this time, what the people desire. He was president of the Boston Retail Grocers' Association for four years and the first food fairs were conducted by him under their auspices. His connection with these food fairs placed him in direct connections with all the leading manufacturers in the country and many of these will take advantage of the opening days to exhibit and give samples of their goods. This store will be fitted with all the approved methods of doing business and the new style fixtures not only insure absolute cleanliness but are a thing of beauty to the eye.

In receiving and delivering goods this store has no equal, all being done under cover, reached by brick archway in rear of store. Mr. Bond is sole agent in this section of the celebrated "Star Creamery Butter," the finest without exception in N. E. States. He has handled this for 27 years and its reputation is still the same. With the assistance of able and courteous salesmen it would seem that this store would be a desirable addition to the business part of the Newtons. It is said that a great percentage of the people of the Newtons buy their groceries in Boston but in conversation with Mr. Bond he says that if prices, quality and service are the reasons, that will not be the reason hereafter as his goods will be placed in his store as cheaply as the largest buyer in Boston and he is in a condition from his long experience with the trade to know fairly well what the public demand. The public are invited (whether purchasing or not,) to see the finest store of its size in America and get a souvenir of the occasion.

All coffees sold in this establishment are ground on the spot in patent electrical grinders, pulverizing or granulating as the customer may desire.

All things being equal, they think they may be able to show the consuming public some inducement for them to favor them with a part of their patronage. If close attention to the wants and demands of their patrons will count for anything, he says, that part of it will be carried out.

The store will be opened on Saturday, December 20, and visitors will receive a souvenir of the occasion.

NEWTON LOWER FALLS.

—Mrs. Rufus Moulton of Grove street died at her home after a short illness.

—A meeting will be held in Freeman hall, Friday evening to discuss the Lower Falls train service.

—Mrs. Rupert Thompson, formerly Miss Christine McLean, gave a reception at her new home in Newtonville, Wednesday evening.

—Mr. Frederic Kimball gave a very interesting talk at the Epworth League social held at Mrs. Taylor's on Grove street, about the Colorado scenery, Monday evening.

Dancing School

Mr. Harry Ellsworth Munroe, the well known dancing teacher, is to open a class in Odd Fellows' hall, Allston, on Wednesday evening, Jan. 1st at 7.45. Tuition \$6.00 for 12 lessons. Particulars of Miss May Graham, Cambridge street, Allston, Mass., or of Mr. Munroe, 117 Huntington avenue, Boston.

For the Floating Hospital.

Newton Society is looking forward with much interest to the presentation of "As You Like It," which is to be given by young ladies of Newton and Brookline for the benefit of the Children's Floating Hospital at Temple hall, Newtonville, on Friday and Saturday evenings of next week, (Dec. 19-20.)

Tickets one dollar each may be had by applying to Mr. Fred Freeman, 258 Mt. Vernon street, West Newton.

The Way we Form our own Faces, and the three ages of Beauty in Women

"I require nothing of thee," said a father to his innocent son, when bidding him farewell, "but that thou shouldst bring me back thy countenance." People are what they look; and we all know by intuition. Little children even, and some animals read at a glance the character of good or evil in the countenance of a stranger, and are at once attracted or repelled. Every man and woman by physiognomy is daily influenced; at this moment, the reader can figure a countenance which shall to him, or her, appear exceedingly lovely, or exceedingly hateful; all of us, more or less, the first time we are in company with a stranger, compare, observe, judge and estimate according to appearances. That every individual is responsible for the countenance he bears can scarcely be denied, if we admit that he is the creator of his own character and the controller of his own mind.

However beautiful a face may be in form and features, it is the expression of the countenance that either makes or mars it, beautifies or disfigures it. We commence to make our own faces in the morning of life; that budding time of youth when impressions more easily influence the character, and the mind more readily affects the countenance. By the time a man or a woman reaches thirty-five, sometimes before that age, the facial expression has become almost permanent. It then requires much training and persistent cultivation, to undo the work of many years. Pleading expressions are generally acquired between ten and twenty, they are, so to speak, a concentration of many smiles, and joyous thoughts. Each motion of the mind leaves behind some impression upon the lineaments of the countenance, not, however, at once observed, but continually repeated assume at last that habitual look portraying the character—beautiful or deformed. To transform this permanent expression of the countenance which we have worn and worn for many years of our life, appears at first sight to be bordering on the impossible. However, upon close examination of the philosophy of facial transformation, we shall find it to be perfectly rational, which routine I shall set forth in many of my following chapters.

The beauty of a face is a possible attainment, no one will deny who has diligently studied the subject in its philosophical, metaphysical and physiological aspects. I use the word "beauty" in its broader sense—and not in its narrower meaning; there is a considerable distinction between prettiness and beauty. There are three distinctly marked ages of beauty in woman, each of which forms an important epoch in her life.

The first age extends from birth to the period of puberty. This is a time when the face and form are undergoing their development to burst forth in due course like a flower in the glory of maturity.

The second period extends from the full growth of womanhood to the age of forty. At the commencement of this time in her life, her neck increases in size, her voice assumes a different tone, her eyes grow brighter, and her beauty becomes more striking and attractive.

In the third age, extending from forty to sixty-five, plumpness of the face and form invariably makes its appearance. The fat in the system being absorbed, with less activity accumulates in the cellular tissue beneath the skin, and in other places of the body. This frequently effaces the wrinkles that have begun to furrow the skin, and restores once more the freshness and sometimes almost the beauty of youth. This period is known as "the age of return."

Some women preserve their beauty longer than others, still physical beauty of women should last until they are past this third age; nor does beauty, in many cases, reach its zenith under the age of forty. Indeed, it was past the age of forty-two, before Helen of Troy came on the stage of beauty. Aspasia was thirty-six when married to Pericles, and she was the most brilliant figure thirty years afterward. Cleopatra was thirty-four years past when she met Antony. When Diane de Poitiers won the heart of Henry II, she was thirty-six. The king was half her age, but his devotion never changed. Anne of Austria was thirty-eight when described as the most beautiful woman in all Europe. Mme. de Maintenon was forty-three when united to Louis, and charming Catherine of Russia was thirty-three when she seized the throne, which she occupied with splendor and beauty for thirty-three years more; and Mme. Recanin was considered the most beautiful when at the age of forty-five. Naturally, you now ask, can one rejuvenate a face on which time has already left its mark?

Yes; out of the oldest, most wrinkled, faded, and decaying face, it is possible, one may make it presentable. With scientific work, thanks to art and hygiene, an old face, in spite of care, together with its complexion, can be gracefully transformed to give an impression of youthfulness. With intelligent care a face of seventy-five may be transformed into one of forty. I say this frankly after many years of study devoted to the specialty, and you, who read, may trust my thought and word in such work as I have to do for you. Next time I shall discuss the secrets of face transformation, simply and frankly, without, so far as possible, employing medical or technical terms.

Byron Efford, D. O.

Written for The Sixth Anniversary of the Sarah Hull Chapter.

To the friends who meet with us this evening The Chapter brings heartfelt greetings You have heard from the previous speakers A report of our various meetings And the work that our chapter is doing For humanity's cause and the Right And we hope you'll be glad to remember Our sixth anniversary night.

Sarah Hull from the first was an infant Any mother might look on with pride, And her sponsors were dames of the fiction Who knew how with wisdom to guide Such precious and vigorous youngster, And to train all its powers aright. Else she'd not be the wonder we know her On her sixth anniversary night.

From the first she'd remarkable powers, Which already began to be felt Before she had passed the first milestone Or we had even guessed her intent. At an age when most infants are napping She posed for the leaves of the Past, With their records of deeds and parables, Which won us our freedom at last.

She has loved deep in ancient traditions And the lore of colonial days, And dear Mrs. Hornbrook has taught her Much about the colonial ways. Her god mother, good Mistress Ferris, Gave to her, of all gifts the most dear, A kindly and gracious demeanor, A cordiality warm and sincere.

Now were I to continue to tell you All the little things she's received, And how lovingly they have been given, I'm sure you would scarcely believe, And you'll all here and say "Mrs. Wheeler Is a bore, to keep us all night." And you'd sigh and you'd yawn from exhaustion I'm sure 'twould not be for our delight.

Her charity's broad as the sunshine All the time when our brightest best Were called to the front for their country To fight for a people oppressed, And to languish in damp, noisome prisons Neath the heat of a tropical sun Sarah Hull knew the needs of the soldier And at once the good work was begun.

And many a poor homesick lad Who was grieved by gifts from her hand, And welcomed each loving remembrance In language we all understand, For tears are the fullest expression, And humanity's cause, we our watchword, The heart's deepest and noblest emotions, So Nature has shown us the way.

Thus the years have rolled on and her powers Have grown with each year of her life, And her god mother's able direction Has kept her from error and strife. Now we learn that she's just been adopted And who's who's wife and so true Who will know all the needs of our Sarah, And just what is wisest to do.

And will lead her up higher and higher To heights which our eyes may not see To heights which our souls may not see To uplift, to inspire, to free. Where there are wrongs to be righted, Where there are wrongs to be righted, Needs a tongue she shall voice their oppression, Shall see that each wrong is redressed.

May her patriotism be for a country That knows not a boundary or name, May her love be for the human element We trace on the map, to our shame Let us stand for a broader republic That includes all the nations of earth, And humanity's cause, be our watchword, Then we'll honor the land of our birth.

The world still today has her heroes, Who die all unloved, all unknown, In the pitiful fight for existence They fall by the wayside alone, And the hurrying crowd surges by them, Unheeding their manly or their sighs, No pitying hands raise their lifeless forms Or wipe the hot tears from their eyes.

Let us work for these brave living heroes, Nor search for the leaves of the past, We have them today and among us, Aspiring action shall last. There are many wrongs yet to be righted, There are slaves in the southern today, Little children in factories working, To free them there must be a way.

Here's a work for our Sarah, God bless her! A work that she's fitted to do, When we shall have passed over yonder Other hands the good work will renew, Our lips will proclaim the glad tidings, Other hearts will rejoice and be gay, Just as you and I are rejoicing On this sixth anniversary day.

Then here's to the health of our Sarah, And her progress be onward and upward, And lead to the pathway of peace Into the glorious Future. May she walk with unfaltering tread, With a purpose calm and benignant, And a righteous God o'er her head.

ANNIE B. WHEELER.

Police Paragraphs.

Eugene B. Walker, a machinist, attempted suicide by cutting his throat with a razor at his boarding house, Newton Upper Falls, Friday. He was discovered and taken to the hospital. Walker was about thirty years old and unmarried. He is said to have been drinking heavily of late and this act is supposed to have been caused by despondency resulting from his habit.

Frank R. Ray, alias Frank R. Pond, aged 18, was arraigned on count Monday morning charged with the forgery of a check on the First National bank of West Newton for \$6.50. It is alleged that Ray, who has been employed by W. H. Colgan, a local business man, secured a blank check from the latter and signed it with his name. The check was cashed and later found to be worthless. Ray pleaded not guilty, but probable cause was found and he was held in \$500 for the February term of the grand jury.

Thos. J. Nolan of 59 Henshaw street, West Newton, owes his life to Sergt. Purcell and Patrolman Kite. Nolan was found on Washington street about 1 o'clock Sunday morning helplessly drunk. The fingers of one of his hands were frozen, and he was unable to move or speak. The officers took him to headquarters, and by heroic treatment and copious drenchings of cold water, succeeded in bringing him to consciousness. He pleaded guilty to drunkenness Monday morning, and Judge Kennedy, thinking he had been sufficiently punished, placed his case on file.

In the police court Monday morning, Mrs. Lillian A. Albanese, accused of shooting her husband, Nicholas Albanese, on Nov. 15, pleaded guilty and was sentenced to three months in the house of correction.

The Young Woman's Mission Club met Tuesday afternoon with Mrs. George Harwood on Ivanhoe street, and the Woman's Foreign Missionary Society with Mrs. O. R. Newcomb in the Charlton on Washington street.

The collection at Eliot church next Sunday will be for the Boston City Missionary Society.

The Charity Square, connected with Central church, Newtonville, began its meetings for the year on Wednesday. The members will work in the interests of home missions.

The junior club connected with Eliot church met Monday evening with Miss Helen Cobb on Bellevue street, Newton.

The total offerings for missions at the Newton Methodist church for the year to date are \$221.

A largely attended sociable was held at Eliot church last evening. The entertainment consisted of "Cricket on the Hearth," tableaux and readings followed by a social hour. Refreshments were served by the Woman's Association.

West's cantata, "The Story of Bethlehem," for solo voices, will be given by the choir of the Auburndale Congregational church at the Christmas vesper.

The missionary meeting and concert to be held this evening at Eliot church will take the form of a symposium and a catechism of Congregational work and Eliot church ways.

The offerings at Grace church, Newton, next Sunday will be for the Christmas tree for the young people.

A home missionary meeting was held at the First Baptist church, Newton Centre last Monday.

The monthly sociable of the West Newton Unitarian church will be held this evening. The entertainment will be in charge of Mrs. C. R. English and will consist of music by violin and voice.

The first social of the winter was held Wednesday evening in the vestry of the Immanuel Baptist church, Newton. Supper was served at seven o'clock and was followed by an entertainment.

A missionary Christmas box to be sent to the King's Mountain school in North Carolina was packed at Eliot church this week.

Mrs. John Goddard was chairman of the Woman's league meeting at the New Church, Newtonville, last Monday afternoon.

The Sunday school connected with the Newtonville Baptist church is planning for a Christmas concert. Miss Tami Sinai of Japan will be present and speak.

The annual meeting of the Central Club, Newtonville, was held at the church last evening.

The Woman's Guild of St. John's church, Newtonville, met Wednesday evening. Mrs. Charles H. Alden on Washington park. The Auxiliary Guild met the same afternoon with Miss Marion Barney and the St. John's Club in the evening with Mr. Harry Hickox on Jennison street.

At a meeting of the West Newton Women's Alliance held yesterday at the Unitarian church, Miss Sarah P. Brigham gave an interesting account of the work of the Lent-a-Hand Mission in the South.

The meeting of the Young People's Society at the Immanuel Baptist church, Newton, next Sunday evening, will be conducted by Mrs. R. F. Cummings.

The mid week meeting this evening at the Auburndale Congregational church will be in charge of Mr. Nathaniel Dike. The topic will be "An Object Lesson."

At the New Church last Sunday the annual contribution for the Newton hospital was taken.

At the meeting of the Unitarian Club at the Channing church parlors next Thursday night, Rev. James Ellis of Boston will speak on "Privilege of Living Today."

A meeting of the Sunday school board of the Newtonville Methodist church was held Wednesday evening at the home of Mr. Calvert Cray on Foster street.

A missionary meeting will be held at the Newtonville Methodist church next Thursday afternoon.

Facts about Medicine.

"If your Vinol is such wonderful stuff, what's the need of harping about it so much in the paper? There are twenty medicines advertised in every sheet, and I don't believe what they say about any of them." Such was a remark heard in the store.

We answer: We advertise Vinol because we have found it a good thing for cough, lung troubles, insomnia, weak women and children, old people and run-down folks.

We advertise Vinol under our own name, and with our own guarantee because it is different from the twenty medicines our friend alluded to. For instance, it is not a secret preparation. It is endorsed by physicians. It has a surprising record of cures right here in town. It has our absolute guarantee of money back if you are not helped.

We advertise Vinol to increase its usefulness. It's pleasant to take.

Cure Your Constipation

And it can be done, just as easy as not to cure it. If you want a Very Sure Cure and will have faith in a simple remedy that has been in use nearly three quarters of a Century try Dr. Harrison's Peristaltic Lozengers. They are for sale by all reliable Druggists and come highly recommended by the best physicians in the country.

The Washington Post says: "The presiding genius of the Tantalus Club, Judge Powers of Massachusetts, and his numerous luminaries, all of whom contributed materially to last winter's Congressional gayeties, will not remain in obscurity, now that legislation has been resumed. The Tantalus Club is still alive, and its next achievement, so those say who have been admitted to the inner councils, will eclipse all others."

The piece de resistance, as the epicures often term it, will be the next Speaker "Uncle Joe" Cannon, of Illinois. Speakers of other and possibly better days may also attend. The program from an early meeting has been outlined. Experts in such things pronounce it something very grand. The Tantalus Club members are accustomed to Speakers of the House, being first term Republicans all, and they count on being able to give the next man to wield the gavel a specially high frolic. Judge Powers, the president, is devoting to the details all the time he can spare from consideration of anti-trust bills."

Christian Science.

Boston, Mass., Nov. 25, 1902.
Editor of the Graphic,
Newton, Mass.

Dear Sir:—

Your masked correspondent on the subject of Christian Science ends his essay by declaring: "Christian Science denies the plain truths of the Bible. It is neither Christian nor Scientific and is out of harmony with the fundamental principles of logic and common sense and contrary to the experiences of human existence." This Science has been discovered by Mrs. Eddy in the teachings of Christ. It is Christian because its teaching and practice are in strict accord with Christ. It is spiritually scientific because its basic lesson is the scriptural teaching, "God is Spirit." It is logical because every statement contained in the Christian Science text-book, Science and Health with Key to the Scriptures by Mary Baker G. Eddy is a consistent deduction from its premise. Let our critic show where in Christian Science differs in any way from Jesus' philosophy, "God is Spirit."

Our critic declares his intention not to omit anything that would change the sense in quoting from the Christian Science text-book, and yet some of the quotations which he has given, without their context, afford a very imperfect sense of Christian Science. Such is his quotation in respect to bathing and rubbing. Mrs. Eddy condemns these as hygienic methods, but she declares, "Cleanliness is next to Godliness" and that "bathing should be for the sole purpose of keeping the body clean." Are Christian Scientists less clean in mind and body than other classes?

If our critic really made quotations from Science and Health for the purpose of giving a fair unbiased meaning of it, why did he not quote more extensively and without comment? Did he believe that his comments would make the book more clear or the contrary, did he believe that by his peculiar method of making quotations and comments he could help the book to appear ridiculous?

I would assure him that if Christian Science were what he represents it to be, it would be as offensive to its adherents as it is to him, and it is to be regretted that he does not make sure of his understanding before he attempts to teach this science. We repeat what we have often declared that it is as impossible for one to understand this science sufficiently to present it correctly to others without first having been a successful practitioner as it is to teach mathematics without first having a wide experience in the solution of mathematical problems. Whatever our critic may assume, Christian Science is indeed a Science and must be so treated in order to be understood.

He declares, "Her (Mrs. Eddy's) chief object seems to be to deny the reality of sin, sickness and death, yet she treats them all through the book as if they were very real to herself." Our critic is in error on these two points. The foundation teaching of this Science deals with its definition of God as Spirit, Love, the only first Cause, and secondly with His creation as His expression or manifestation. Thirdly it concludes as to the constancy of sin, sickness and death from its teaching in respect to Cause and effect. He who can endorse the major premise of Christian Science, namely, its definition of God as Spirit, Love, and its minor premise, His creation is after His kind and therefore Spiritual, must of necessity endorse its every conclusion and the entire teaching of the Christian Science text-book.

Our critic insists that the Bible teaches the reality of sin, sickness and death. Will he please quote wherein the Scriptures specifically declare sin to be real? Jesus declared sin, sickness and death to be the works of the devil. He spoke of the woman as having been bound by Satan for these eighteen years. He did not say she was bound by rheumatism but "bound by Satan." He spoke of Satan as a liar and the father of it and of his own, his offspring, as a lie. If the woman was bound by Satan and Satan's band is a lie as Jesus taught, according to axiomatic reasoning, she was bound by a lie, a false claim. Inasmuch as Jesus regarded sin, sickness and death as the works or products of the devil we are safe in assuming that he considered them not among the stern realities of existence but as belonging to the erroneous evil sense of it. We will all agree that however sin, sickness and death may be to mortals, they can have no weight whatever in the sight of omnipotent God, for evil and disease have no more place in God's presence than darkness has in the presence of light. True, Mrs. Eddy speaks of these evil claims in Science and Health and Christian Scientists in their outward deportment recognize that these exist in human experience and must be dealt with intelligently. They believe in the power of evil and disease because they have not yet through a sufficient spiritual growth altogether unbelieved in these. One who has not sufficient faith in God to lift him above mortal frailties is more or less subject to sin and disease. Evil and devil are mentioned in the Scriptures as the powers of darkness. Darkness is not regarded as an entity, not as something but the want of something, a lack of light. So evil should be understood as the want of consciousness and demonstration of good.

Our critic objects to the teaching of Christian Science, that the blood, heart, lungs, brain, etc. do not constitute the life of man. This introduces a form of the much mooted question, "Which is first the egg or the bird?" The question need not be put in this: Does the body produce life or does life produce the body? In Christian Science the question would assume the following form: Does man create God or does God create man? for God according to Christian Science is life.

Our critic quotes from Deut. "For

the life of the flesh is the blood." This and other quotations he offers as a proof that blood is the life according to Scriptural teaching. Is it not a little strange that he did not note and select the more clear and definite teaching of Jesus on this point? Why did he not quote the words of the Master as a means of enlightening us on this question, "It is the Spirit that quickeneth (giveth life) the flesh profiteth nothing? Herein Jesus declared Spirit to be that which animates and the flesh to be altogether unprofitable. Associated with the statement, "It is the Spirit that quickeneth," the Master's words, "The flesh (matter) profiteth nothing," can only be interpreted to mean there is no life in matter. Indeed, if matter or flesh is altogether unprofitable, it has neither life, substance nor intelligence. Will our critic insist that there is anything in it from Christ's standpoint? When we consider this text together with the Scriptural declaration, "God is Spirit," is not Mrs. Eddy absolutely correct when she declares Spirit to be the only Life, Substance and Intelligence and the universe, including man, to be the expression of Spirit? Paul wrote, "that no flesh shall glory in His (God's) presence." Jesus never uttered a favorable word concerning flesh or matter.

Our critic objects to Mrs. Eddy's teaching that belief, acting through the mind is the only thing that produces pain or sickness. Does he believe it possible to be rid of pain through prayer? Does he believe that Jesus and the apostles destroyed pain through prayer? If they healed by such a change in the mental condition of the patient as to inspire faith in God, a lack of faith in God must have been the real cause of disease. We may say we have taken cold, we have overtaxed ourselves, we have been exposed to disease germs and these are the causes of sickness, but are they the fundamental causes? Are we not sick because material elements and conditions have been allowed to be more to us than God? If in our meditations or prayers God becomes to us infinitely great, will not the so-called causes of disease become to us infinitesimal and lose their power over us? If not, then man has no hope in God and the Psalmist was not right when he said, "Because Thou hast made the Lord which is my refuge even the Most High thy habitation, there shall no evil befall thee, neither shall any plague come nigh thy dwelling." It is not the exposure to accident and disease germs that needs to be destroyed in order to make mankind safe but the cause of these, the want of faith in the omnipotence and omnipresence of God in God and the Psalmist was not right when he said, "Because Thou hast made the Lord which is my refuge even the Most High thy habitation, there shall no evil befall thee, neither shall any plague come nigh thy dwelling." It is not the exposure to accident and disease germs that needs to be destroyed in order to make mankind safe but the cause of these, the want of faith in the omnipotence and omnipresence of God in God and the Psalmist was not right when he said, "Because Thou hast made the Lord which is my refuge even the Most High thy habitation, there shall no evil befall thee, neither shall any plague come nigh thy dwelling." —George Nicholson, who was taken ill with small pox last week died at his home on Charles street on Monday. He and his wife, who were both ill with the same disease, have been under quarantine. Deceased had been a resident of this place for several years and was a carpenter by trade. His wife is reported improving.

—The marriage of Miss Lena Marston Josselyn, daughter of Mr. and Mrs. Lewis H. Josselyn and Mr. Frank Fitts Lamson, which occurred in Manchester, N. H., last Tuesday, was an event of considerable interest to the bride's many friends here. Miss Josselyn was well known when she was a student at Lasell Seminary. The bridesmaids, Miss Carol Maude Chase of Manchester, Conn., and Miss Ivah Marie Javis of Topeka, Kansas, were classmates of the bride at Lasell.

At the Churches.

The Rev. L. E. Tease, formerly of Brooklyn, N. Y., will preach at the Universalist church, Newtonville, Sunday morning at 10.45.

The annual meeting of the Sunday school board of the Newton Centre Methodist church was held Tuesday evening at the home of Dr. W. P. Cooke on Sumner street. The old board of officers were elected and reports were read showing an increase of about fifty per cent. in membership and average attendance.

At the Methodist church, Newton Centre, next Sunday morning the pastor will preach and in the evening at 7.30 Rev. Dillon Bronson of Brookline will conduct the service.

The recent sale held by the Ladies' Aid Society at the Newton Centre Methodist church netted nearly \$400 for the new parsonage fund.

The Woman's Home Mission meeting was held Tuesday afternoon at the First Baptist church, Newton Centre. Papers were given by Mrs. C. A. Clark, Mrs. A. W. Hodges, Mrs. C. A. Reese and Mrs. W. B. Taylor.

At a business meeting of the Y. P. S. C. E. of the First church, Newton Centre, held last Wednesday evening at the home of Mr. J. E. Rockwood on Beacon street, the following officers were elected for the coming year: Pres., E. F. Rockwood; Vice Pres., Lawrence Davis; Sec., Miss Margaret Noyes; treas., Mrs. A. Polhemus.

WOMEN WARRIORS.

Many Have Fought Bravely—Escapes of a Queen.

The muster rolls of the civil war show a number of cases of soldiers who were discovered to be women.

One of the most remarkable women was Christian Cavenagh, who lived in England in the nineteenth century. She was married and had three children. Her husband was carried off to Holland, where he had to enlist as a private soldier. His wife dressed as a man and enlisted so as to be near her husband. She was wounded at the battle of Landen, made a prisoner by the French and carried to St. Germain-en-Laye, where she remained until she was exchanged. Then she quarreled and fought a duel with her sergeant and was transferred to another regiment. Again she was wounded at Ramillies, when her secret was discovered. She was, however, permitted to remain with the regiment as a cook.

Many English officers recall the case of "Dr. James Barry." This woman served in the British army about fifty years ago as a surgeon at the Cape, Malta and at Barbados. At the Cape "he" fought a duel with an officer who had called "him" a woman.

Mrs. Lindley, the wife of a soldier, went through some of the sharpest engagements of the civil war. She enlisted in Company D, Sixth Ohio cavalry, and fought at Fort Magruder, Hanover Court House, Bull Run, Antietam and Boonsboro. She is said to be still living and the mother of several children.

Christina, queen of Sweden, was educated and dressed like a boy from her birth because her father was disappointed at not having a son. She was more a king than a queen and after four years of rule resigned her crown and went off to amuse herself in Europe. She was dressed in men's clothes and acted as uproariously as any man who ever owned his clothes by right of sex. She was only twenty-eight at the time.—Savannah News.

FLAG LANGUAGE.

The black flag is a sign of piracy. To "strike the flag" is to lower the colors in submission.

Dipping the flag is lowering it slightly and hoisting it again to salute a vessel or fort.

The yellow flag shows a vessel to be in quarantine or is a sign of a contagious disease.

A "flag of truce" is a white flag displayed to an enemy to indicate a desire for parley or consultation.

The red flag in our service is a mark of danger and shows a vessel to be receiving or discharging her powder.

A flag at half mast means mourning. Fishing and other vessels return with the flag at half mast to announce the loss or death of some of their crew.

Flags are used as the symbol of rank and command, the officers using them being called "flag officers." Such flags are square to distinguish them from other banners.

The white flag is a sign of peace. After a battle parties from both sides often go out to the field to rescue the wounded or bury the dead under the protection of the white flag.

If the president of the United States goes aboard, the American flag is carried in the bow of his barge or hoisted at the mast of the vessel on board of which he is.—New England News.

Didn't Want Too Much.

A Lone Star State man tells the following story of a negro baptizing in Texas:

An old negro preacher did the honors, and the candidate for baptism was a coal black negro woman. The preacher led his victim far out into the stream, where she could be thoroughly immersed, and at the auspicious moment he cried in a loud voice:

"Be stiddy, sister, be stiddy, and you'll cum up whituh den snow!"

"Oh, parson," she exclaimed, "dat's askin' too much; a cream colouh'll do!"—New York Tribune.

Conservation of Energy.

"What was your idea in having Bertha learn typewriting?"

"Well, she was always drumming with her fingers, and I thought she might as well do it to some purpose."

—Chicago Tribune

Reception.

At the residence of Mrs. F. E. Stanley, president of the Newton District Nursing Association on Centre street, Newton, a largely attended reception was held last Wednesday afternoon under the auspices of the officers of that organization. Mrs. Stanley was assisted in receiving by Mrs. W. H. Coolidge, a former president. The dining room was in charge of Mrs. E. W. Howe, Miss Lovett and others and Mrs. Wallace H. Foss was in charge of the tea room. A good sum was realized which will be devoted to the work of the association among the sick poor of the city. The officers of the association wish to thank the ladies of Newton for their generous response to their request for assistance for this worthy object.

BOARD OF ALDERMEN.

Plain Words Regarding Excessive Expenditures by Departments—Resolution Adopted.

An Illuminated Clock for Newton Centre—Management of Library Discussed—Mr. Kelsey Confirmed as a Trustee.

At the last regular meeting of the board of aldermen for 1902, held on Monday evening, President Weed was in the chair and Aldermen Baker, Barber, Bowen, Brown, Carter, Day, Ensign, Hubbard, Hutchinson, Lotherop, Lowe, Mellen, Norris, Pond, Saltonstall, Trowbridge and Webster were present.

A hearing was immediately announced upon the laying out of Windsor road, Waban, under the betterment act. Mr. W. C. Strong said that the road was laid out as a country road and for years was satisfactory to the abutters. A change was deemed desirable and the hearing was upon a petition. Mr. Strong said he had no interests on the upper part of the road but had kept the lower portion in good shape. He had been told that the rate of assessments would be based upon the number of feet of frontage of each abutter and did not believe the board would adopt such a narrow and arbitrary method. He thought each case should be treated separately and on its merits. Believing so he had signed the petition and would bear his portion of the expense. Mr. Strong said that the matter of drainage required a strip of land from him ten feet wide which he did not feel called upon to contribute. He was willing the land should be taken at its assessed valuation and the cost made a part of the expense of the street, of which he would pay his share.

Mr. J. H. Robinson was heartily in favor of the acceptance as he had been a resident there for 12 years and there had been more or less talk, trouble and expense about it during all that time.

Mr. William Saville said he was the only land owner who had not signed the petition. Each lot had even been presented to him. He had recently fixed 300 feet of the road in front of his place and with what other neighbors had done had put the street in very good shape. He did not want to protest but suggested that the acceptance could wait a year or two as his assessment would be in the vicinity of \$800, and he did not like to add that amount to what he had already done unless absolutely necessary.

A letter of remonstrance was read from Mary D. Aiken and the hearing closed.

A communication from the school committee requesting an additional appropriation of \$1500 for school incidentals and a transfer of \$50 from the General Appropriation to Conveyance of Pupils was read and filed.

Petitions of E. D. Dyer for damages for injuries received by wife, and of Hugh Kelly, Joseph Borelli, Daniel O'Connell and Geo. F. Kelly for damages on account of fire caused by spark from road roller were referred to the committee on Claims.

Petitions of F. K. Miller et al for a gas light on Boylston road, and of H. H. Bemis for street light on Old Orchard road were referred to the Street Commissioner. Alderman Trowbridge informing the board that the Gas Company had refused to comply with the request of the Street Lighting Commission as to lights on Old Orchard road unless more lights were ordered. The matter was now under advisement by the Mayor.

Petition of John T. Burns for renewal of Auctioneer license was granted. Petition of the B. & W. Street Railway Co. for extension of its franchise on Boylston street until July 1, 1903 was received. Alderman Trowbridge stating that the injunction of the Supreme court in the matter of crossing the railroad was the basis of the petition.

In presenting the petition of the Commonwealth Avenue Street Railway Co. for an alteration of location recently granted them to connect with the tracks of the Boston Elevated at Lake street, Alderman Trowbridge said that the plans of the railway engineer from which the City Engineer had scaled the plan adopted by the board, did not accurately show the rails of the Elevated Co. and that there was an error of from 12 to 14 inches. The matter was merely a technicality, so far as the hearing was concerned, no opposition having developed at the former hearing and the mayor had signified his willingness to allow the company to proceed with the work as fast as possible. A hearing was then ordered for January 12 at 2 p. m. to be advertised in the Newton Graphic.

The petition of the B. & W. Street Railway Company for cancellation of its bond on account of Boylston street was referred to the Committee on Public Franchises and Public Works, the City Solicitor, Street Commissioner and City Engineer to report to the committees at their meetings. Petitions of Filippo Vitti for a street musician license, of the N. & W. Gas Light Co. for pole locations on Waltham street and at Hall and Washington streets, and of the N. E. Tel. & Tel. Co. for pole locations on Watertown street were referred to the Committee on Public Franchise, hearings being ordered where necessary for Dec. 23, at 8 p. m.

A letter of acknowledgment of the memorial of the late Alderman John M. Kimball was received from Mrs. Sally J. Kimball and placed on file. A communication from the Mayor relative to the proposed mill tax bill for school purposes and recommending passage of a resolution of protest by the board was read and filed.

REPORTS OF COMMITTEES.

The following reports of committees were received:

FINANCE, recommending these transfers, \$252.86 from treasury re-

ceipts to Newton hospital, Health Dept.; \$1,853.49 from treasury receipts to Street Dept., General Repairs; \$482.45 from gravel lands to sidewalks, etc.; \$146.70 from watering troughs, etc., to sidewalks, etc.; \$104.17 from treasury department, incidentals to interest on temporary loans; \$50 from general appropriation for schools to conveyance of pupils; \$130 from soldiers' relief to state aid; \$196.89 from soldiers' relief to board printing, etc.; \$271.58 from soldiers' relief to miscellaneous; \$50 from City Hall expenses to carriages for aldermen; \$189.51 from public property to heating and lighting plant, (majority) recommending transfer of \$1190 from interest on permanent loans and \$310 from interest on water loans to school incidentals; recommending transfer of unexpended balance of fuel appropriation school department to 1903; submitting resolutions condemning practise of exceeding appropriations; recommending grant of \$46,636.25 from city expenses to Dec. 31; recommending grant of \$11,700 for city expenses to Jan. 15; recommending payment of interest of \$40,884.50 due Jan. 1903; authorizing water main, Walker street, \$115; extending location of B. & W. Street Railway Co. on Boylston street to July 1, 1903, and authorizing the following transfers of appropriations: \$252.86 from treasury receipts to Newton hospital, health department; \$1,853.49 from treasury receipts to street department, general repairs; \$482.45 from gravel lands to sidewalks, etc.; \$146.70 from watering troughs, etc., to sidewalks, etc.; \$104.17 from Treasury department, incidentals to interest on temporary loans; \$50 from general appropriation for schools to conveyance of pupils; \$130 from soldiers' relief to state aid; \$196.89 from soldiers' relief to board printing, etc.; \$271.58 from soldiers' relief to miscellaneous; \$50 from City Hall expenses to carriages for aldermen; \$189.51 from public property to heating and lighting plant.

POLE RELOCATIONS.

Upon the orders granting the N. E. Tel. & Tel. Co. pole relocations, Parker, Needham, Walnut and Boylston, Church and Park, Centre, Boylston and Dudley and Boylston and Winchester streets, Alderman Webster said that his attention had been called many times to the practice of the company in substituting a round chestnut pole for a square hard pine pole. Some abutters object, and he believed the board should make arrangements for any relocations as he also believed such occasions a favorable opportunity to relieve the streets from more than one line of poles. These relocations were flagrant acts of the company as the new poles were not always put in the same place as the old, and they then came to the aldermen to ratify their illegal location. He believed they should come to the board first and not to the Inspector of Wires, except in exceptional instances.

Alderman Brown cited cases where poles had been relocated and believed the abutters interested should be notified of relocations. Alderman Lotherop said that relocations in his vicinity had disfigured the streets. In reply to an inquiry from Alderman Hutchinson as to power of the Inspector of Wires, Alderman Webster stated that the committee were informed that the counsel for the Telephone Co. did not deem the relocation authorized by the Inspector of Wires as sufficient and desired the aldermen to ratify such locations.

City Engineer Farnham explained the details of plans submitted by the company and the order was then adopted, the Committee on Public Franchises being requested to obtain the opinion of the City Solicitor as to whether the board should act upon a matter of relocation, and if the Inspector of Wires can act before the board if such is the case. Hearings were held on the laying out of Farlow road and Beechcroft road at which no one appeared, notice having been duly waived by all abutters and the orders laying out said streets were then adopted.

An order transferring \$1190 from interest on City Loans Permanent and \$390 from interest on Water Loans to School Incidentals was adopted. Alderman Ensign and Hubbard voting no. Alderman Ensign changing his vote from yes to no prior to declaration of the vote. A long discussion followed the order transferring to 1903 the unexpended balance of the Fuel appropriation of the School Department. Alderman Webster did not believe in adding to the appropriation made in the budget, as there was enough money to carry the department through the present winter. The action of the Finance Committee was defended by Alderman Lotherop, Day and Trowbridge and the order was adopted. Alderman Webster alone voting no.

Upon the order appropriating \$100 for maintenance of illuminated clock on the Mason school, Alderman Webster offered an amendment that the order should take effect until the contribution of \$425 had been deposited with the City Treasurer. This motion was opposed by Alderman Saltonstall as absolutely useless.

Alderman Bowen stated that the citizens had already raised one half the amount in a very few days, but would not raise the money if the city will not agree to maintain the clock. Alderman Webster then withdrew his amendment and the order was adopted. The following resolution was adopted:

RESOLVED, that the board of aldermen of the City of Newton is opposed to legislation providing for a state tax upon the taxable property in this Commonwealth to be distributed among cities and towns in proportion to attendance in the public schools, for the following among other reasons:

That such taxation is unjust to cities already sustaining heavy burdens in taxation which will be compelled by such taxation and distribution to aid in sustaining the expenses of other cities and towns. The City Solicitor is hereby directed to oppose such proposed legislation before the Commission appointed under the provision of chapter 115 of the Resolves of the Legislature of 1902, entitled "Resolve to provide for the appointment of a commission to investigate the method of supporting public schools."

Alderman Mellen then offered the following resolution: WHEREAS it has been brought to the attention of the board of aldermen that certain department or officers of the city have heretofore expended money or incurred liability beyond the amount duly appropriated therefor contained in the annual appropriation order or subsequently appropriated and thereafter granted by order of the board of aldermen, in direct violation both of the spirit and letter of the city charter, NOW THEREFORE RESOLVED,

that we disapprove of such action on the part of those who have practiced it and demand that in the future the expenditures in every department be kept strictly within the limits of the appropriation therefor. RESOLVED, that this board approves the action of the chief executive of the city looking toward the enforcement of the charter requirements in the expenditure of public money, and we pledge ourselves to support him in every effort to make those requirements effective.

Alderman Mellen read a portion of the city charter prohibiting the expenditure of money beyond the amount appropriated and granted by the aldermen and said that in certain cases that section had not been lived up to and the resolution were presented by direction of the Finance Committee. He believed the asking of transfers and for new money was all wrong, although in sudden emergencies like epidemics of small pox and the maintenance of the heating and lighting plant, appropriations might be lawfully exceeded. He believed Newton had the best Street Commissioner in Massachusetts or even the United States but he was sorry to see a request for a transfer to the Sidewalk appropriation which had been exceeded. The School Department had also asked for \$1500 to meet a liability incurred in excess of their appropriation. He did not believe it a right way to do city business. He did not believe there was anything stinky or niggardly about the board but they should insist that the expenditure of public money should be within the charter requirements.

Alderman Ensign said that it was bad policy to spend more than the appropriations, and it was time to call a halt. He believed the board would treat the departments fairly.

Alderman Webster said he favored the resolution and hoped the rest of the board would not therefore vote against it. He thought the board should approve these things before action was taken by the departments. Alderman Saltonstall approved of the resolutions in the main but could see how exigencies such as a storm or fire might occur and believed there should be a saving clause or it might work some hardship.

Alderman Mellen said that the statutes cover that point and the resolutions were then adopted.

WINDSOR ROAD.

Alderman Hutchinson said that the matter of Windsor road had been before the Committee on Public Works for some months but the items of drainage and taking lands for that purpose had not been considered and he wished the order recommitted.

City Solicitor Slocum said that the taking of land for a drain outlet as part of the street was a new proposition but believed it could be done. The right to use the water course for drainage was correct if the brook was not surcharged thereby, in which case the abutters would have an action for damages. He believed the cost of the drainage could be included in the basis of betterment assessments.

Alderman Webster said this order represents the culmination of eight months hard work and he had difficulty in getting the abutters to agree to it. The matter of water arises on every street laid out by the city, and this objection would always apply to Windsor road, as well as to any other street. Part of the water from Windsor road in an emergency could be turned into the south branch of Cheesecake brook, and he suggested that if the brook needed widening it could be done under the betterment act.

Alderman Day said he was a trustee of what was formerly the Poor Farm property and had been at great expense to drain that property near the north branch of the brook. The trustees are willing to allow the use of this brook by the city if they are held harmless and their right to damages maintained. Windsor road is the water shed for that vicinity and it is now proposed to turn all the water from it into the north branch of the brook. There would be a serious objection from abutters if the brook was widened under the betterment act.

The order was then recommitted.

DINNER.

Alderman Trowbridge called attention to the custom of an annual dinner by the board and stated that last year steps were taken to make a permanent organization. The committee appointed at that time wished permission to invite the ex-mayors and ex-aldermen since 1898 to attend the next dinner to be given.

On motion of Alderman Ensign the committee of last year were asked to take charge of such a dinner and to invite the ex-mayors and ex-aldermen as suggested. This committee consisted of Aldermen Trowbridge, Brown, ex-Alderman Henry Bailly and Mayor Weeks.

And at 11.19 p. m. the board adjourned until Dec. 29 at the usual hour.

ITS HISTORY.

The Boston Elevated Railway Company.

Its Inception, Growth and Scope Fully Described.

A striking illustration of what young men can do who are not afraid to work, and, above all, are not afraid to think out hard problems for themselves along novel lines, is found in the vigorous management of the comparatively new Boston elevated railway—the great metropolitan system which by elevated, underground, and surface lines knits together in one comprehensive whole the diverse requirements of "Greater Boston"; reaching out for miles into the suburbs, or plunging under the crowded downtown streets only to emerge and speed above them on the roaring tracks of the elevated structure proper, and soon to travel beneath the harbor to the "island wards" of East Boston.

Five years ago Boston was apparently in the last agonies of "congestion," the narrow business streets fairly swarming with people for whose transportation to and from no ingenuity had been able to make adequate provision. Big rambling suburbs added to the complication, whether within or beyond the actual city limits, stretching out north, south, west and, in the case of South Boston, East Boston and Chelsea, even seaward to the ocean. Commissions had been appointed, by the state or city, and commissions had been dissolved, after voluminous reports, all containing more or less valuable information and suggestion, but congestion continued to increase faster than facilities. It really began to look as if it were a case of hopeless confusion, which, moreover, would be sure every year to become more hopelessly confounded.

But in reality, now that it has been achieved, the orderliness of today, contrasted with the chaos of five years ago, seems a very simple proposition indeed. Some wise man has said that the harder the puzzle the simpler the answer; at all events, it needs only a clear statement of present conditions to note how satisfying has been the result of the new transportation, company's solution of what so short a time ago seemed an inextricable entanglement.

The men—young men they were—who set themselves to think out the puzzle came to their work in a spirit of courage and hope; because things were confused they did not, like so many typical "conservatives"—a word behind which lack of enterprise is always apt to try to conceal itself—think it necessary to believe that no way out of the difficulty was possible. They studied the city, its topography, with its narrow crooked streets—its geography; that is, its general physical configuration, as the map maker calls it. They studied the financial limitations and possibilities of the situation, and, above all, perhaps, they studied the necessities, and even the tastes of its people. They decided that the thing could be done and immediately set about the accomplishment of a task that many railway men said would prove either physically impossible or financially disastrous.

In order to appreciate the difficulties in the undertaking, a glance at the past is necessary. The street railway lines in Boston were originally built as substitutes for old stage coach lines. They radiated to every point of the compass, from the business section of the city to the suburban territory, and were planned and operated independently of each other, without reference to convenient connections.

In 1887 practically all of these independent companies were consolidated into one large system known as the West End Street Railway Company; electricity was introduced as a motive power and other lines were from time to time established, and the whole service was improved and perfected until it became the best equipped street railway in the world, but it was very soon demonstrated that surface transportation could no longer supply the needs of the vast and rapidly increasing population which it undertook to serve. In order that further facilities might be provided the West End company was given the right to construct subways and an elevated road, but owing to the large investment of capital and the financial risk involved, the company was unwilling to depart from the surface operation. This attitude incited the public to take the matter in hand and bring about a better condition. The evolution began with the famous Boston subway, built by a joint commission of the state of Massachusetts and the city of Boston. The subway was leased to the West End Street Railway Company for a period of 20 years and was built for use by its surface trolley cars.

It ran through the most crowded portion of the city, but, though it stretches a mile and a quarter from end to end, it did not entirely clear the business section, and cars coming out of it must still be seriously impeded by street traffic—pedestrians and teams—thus preventing the long swift runs which were necessary to bring the extreme opposite limits to the community into the closest possible communication.

This was the situation when a small group of comparatively young men, possessed of ability, executive training and resolution, adopted the idea of supplying Boston with a transportation system that would be adequate not only for present needs, but for future growth.

A plan had been devised that was well nigh a stroke of genius, and, to the ordinary mind, almost audacious in its breadth and scope. It was

nothing less than to secure control of the great West End Company, together with its lease of the subway, and upon this as a foundation—with the subway as a key to the operating problem—to build an elevated road that would be part and parcel of the surface line system, and supply the entire metropolitan district—of which Boston is the centre—with a service that in convenience, cheapness and extent would be without parallel. Men who knew the system and its resources said it could not be done, but, nevertheless, with the energy and hopefulness of youth, this coterie of young men undertook the task of raising up the millions required to capitalize the enterprise; undertook to obtain the control of the existing company; undertook to secure enabling legislation; and ultimately, undertook the construction and operation of an elevated road under such adverse physical conditions that a trained railway expert who recently visited the city and saw the system in actual operation, held up his hands and exclaimed: "You have accomplished the impossible."

The first step—that of securing financial backing—proved to be the least difficult, because the men who were in charge of the enterprise had repeatedly demonstrated their ability to deal successfully with large affairs. The first step—that of securing financial backing—proved to be the least difficult, because the men who were in charge of the enterprise had repeatedly demonstrated their ability to deal successfully with large affairs. The first step—that of securing financial backing—proved to be the least difficult, because the men who were in charge of the enterprise had repeatedly demonstrated their ability to deal successfully with large affairs.

Then came a staggering obstacle. The West End Railway Company would make no combination or operating agreement. This would have been not only discouraging but disastrous to less determined and resourceful men, but the situation was met with undaunted and characteristic energy. A campaign was entered upon to obtain a majority vote of the West End stockholders in favor of a board of directors who would lease the road to the elevated company provided its charter should be suitably amended, and, after a vigorous and memorable contest, this, too, was accomplished.

Thereupon, in 1897, the legislature was asked to amend the charter so as to give it a practical form. Terms of greater liberality to the public than ever before had been suggested by any responsible railway corporation were proposed and, among other things, it was agreed that a substantial sum should be paid in cash to the cities and towns in which the company's line were located in return for the privileges that were to be received; that all fares should be reduced to five cents, irrespective of the number of transfers or the length of trip; and that the public should share equally with the stockholders all dividends over and above 6 per cent. It is needless to say that the legislature, attracted by the liberality of the proposition and urged by the public clamor for rapid transit and relief from congestion, was not slow to take advantage of the offer and grant the necessary authority, and in so doing it conferred a public benefit, the value of which can scarcely be estimated.

The West End Street Railway Company was leased by the Elevated road, as a matter of course, and plans for construction were entered upon. After careful study and experiment the road was built and rapid transit became an accomplished fact.

The railway structure, equipment and methods of operation were exactly that which was expected to result from the efforts of such men—a better system than ever before had been devised for transporting passengers by the hundreds of thousands daily. Efficiency was the keynote in the plans for the new road and the absolute best in all things was sought with the same persistency that had held them to their course from the inception of the plan to its culmination in a splendid success.

Modern railroading, as they conceived it, consists of three elements—speed, safety and convenience. How completely these objects have been attained is well known. The trains now dart along the structure at a rate of more than 40 miles an hour, and notwithstanding a dozen stops made at stations, the run of seven miles is made in twenty minutes. No other railway or railroad equals this record when the frequency of stations is taken into account. But one passenger, among the hundreds of millions that have been carried during the year and a half of operation has been killed and he alone was responsible for the fatality. From far and near experts come to study the new railway and are amazed at its perfection.

It would be interesting to tell how this giant youth among corporations manages to carry nearly half as many passengers as all the steam railroads of the country combined; how, by combining surface, overhead and underground lines under one management, it takes one to almost any street corner in a territory covering a hundred or more square miles, with speed and certainty; and how all of this service can be supplied for no greater charge than a five cent fare. Hundreds of columns have been written upon the Boston elevated road as a railway system, the present purpose is to present it as a notable achievement of young American brains and perseverance—an answer to the charge that nowadays young men have no such opportunities for success as were enjoyed by their fathers and grandfathers in the good old days of yore—Suffolk Publishing Co.

MUSIC HALL, Dec. 22—"Zigzag Alley."

GRAND OPERA HOUSE, Dec. 22—"Peck and his Mother-in-Law."

Keith's Theatre—No holiday week is complete at Keith's unless an act that especially appeals to the juvenile patrons is included in the bill, and so the children can look forward with pleasure to the week of Dec. 22 as one of the most interesting and amusing animal acts in the country will be exhibited to them. This is the troupe of bears and monkeys trained by Prof. Winscheram. Not only will it delight the juveniles, but it will interest and amuse grown folks as well. Among the other turns scheduled for the same week are: Cashman Holcomb and Curtis in "The New Teacher," one of the best vocal comedy casts in the varieties. Tom Almond, comedian, singer and eccentric long shoe and ice skate pedestal dancer; Louis M. Granat, the most accomplished whistling soloist in the business; the Paloma ladies' quartet, high class vocalists; Wonderful Busch, the most artistic of gymnasts; Al Merritt, the talented cartoonist, in "The Poster Girl;" Joe, Myra and Buster Keaton, in a dancing, singing and eccentric acrobatic specialty; Banks Winter, the favorite minstrel balladist; and his accomplished daughter, Nona, in imitations of other stage favorites, and Cole and Johnson the great colored comedy vocalists, who have scored the biggest hit ever recorded of a similar team in vaudeville in Boston. On Christmas day the theatre will be opened at 10 o'clock a. m. to accommodate the crowds that always flock to Keith's on a holiday.

Tremont Theatre—James K. Hackett, who for the past four years has been coming to Boston each year with a new drama of the romantic type, will make his fifth visit here on December 29th at the Tremont Theatre, and will produce another

MR. JAMES K. HACKETT IN "THE CRISIS," Tremont Theatre, Dec. 29.

new play. He will present Winston Churchill's play, "The Crisis," which, with strong business perspicacity, he determined last year would be the greatest theme for a play that had been offered in many years. Those who have read this deeply interesting book, it is said, will find the play quite as satisfactory. Those who have not read the book, will find the play possessed of a clearness and a continuity of events and a well rounded story, such as few dramatizations of novels have ever attained. Its triumphal progress through the country this season has been one which has broken the records of every theatre it has thus far visited, and it comes direct from Wallack's Theatre, New York, where every endeavor to prolong its engagement proved futile.

Tremont Theatre—"The Sultan of Sulu," George Ade's mirthful musical satire, is proceeding merrily on its way at the Tremont Theatre, amusingly depicting the many music lovers as can be accommodated in the theatre. Only one week remains of the engagement of this work, which has attracted more than ordinary attention in Boston, not only because of its clever lines and smart sayings that have already become widely quoted, but because of the many tinny numbers which Alfred G. Wathall has furnished the score. The song hits in the opera are especially numerous, and humorist Ade's libretto has aroused wide comment for the reason that "sling" man has taken with American laws and customs the same liberties that W. S. Gilbert took with English laws and institutions in "Pinafore," "Patience" and "Iolanthe." In the comical roll of the Sultan Frank Moulan has scored one of the biggest hits made by any leading comedian in Boston in years. There will be a special matinee on Christmas day.

GOLF NOTES.

Representatives of 32 golf and country clubs held a meeting at the Exchange Club, Boston, last week and voted to establish a state golf association of clubs. At the roll call among the clubs represented by delegates were the Albemarle Golf Club, Newtonville; Brae Burn Golf Club, West Newton; Chestnut Hill Golf Club, Newton; Centre Golf Club, Newton Highlands; Golf Club, Woodland Golf Club of Auburndale.

Boston Grand Opera House—"Peck and His Mother-in-Law," like Oper's "Happy Hooligan," and "Alphonse and Gaston," is designed for laughing purposes first, last and all the time, and not a dull moment is there in its performance from start to finish. Monroe, Mack and Lawrence head the big company of laugh-makers and set a swift pace for their competitors to follow. The large and capable company of clever comedians and handsome girls—there are twenty-eight of them—are happily introduced and frolic through the piece with an abandon that is refreshing. Vinnie Henshaw and George Fransioli are a pair of girls with a train of followers from coast to coast, and are among the highest salaried artists on the musical comedy stage. They are among the solid successes of the production. "Peck and His Mother-in-Law" will be presented at the Boston Grand Opera House next week with matinees Tuesday, Thursday, (Christmas Day) and Saturday.

Boston Music Hall—For a Christmas week attraction at Boston Music Hall, Managers Stair and Wilbur have booked the celebrated Zeb and Zarrow Trio and their big farce comedy organization in the hilariously funny trick pantomime, "Zig Zag Alley." This show is on similar lines to Hanlon's "Superba" and other noted pantomimes and is a piece well calculated to amuse the ladies and children, as well as to delight the men folks. Everywhere the piece has been seen this season the press and public have praised it as being one of the very best shows of its kind on the road. The new Children's Theatre, located in the picturesque Japanese Garden, has sprung into instant favor and is filling a long felt want.

COAL

The coal situation is slightly better than last week but consumers are still having difficulty in securing fuel except in small quantities. Stories and rumors not at all creditable to the good sense of the coal dealers are in circulation, and while we have confidence in the good intentions of these gentlemen, it is disquieting, to say the least, to hear of one dealer shipping 100 tons of coal to Boston, and refusing to supply requests from citizens of Newton, and that residents of surrounding towns are being supplied by Newton men, who at the same time refuse to deliver coal to their regular customers. It should be borne in mind, however, that stories of this nature, in such times as these, are easy to circulate and rapidly grow in size, but at the same time the reputable coal dealer should be more than careful in handling the amount of coal which comes into their hands during the present crisis.

The resolutions regarding the exceeding of appropriations by city departments call attention to the unbusinesslike methods heretofore in vogue at City Hall in the purchase of supplies and the employment of labor. The recent change in the ordinance, giving the mayor complete jurisdiction in these matters will probably regulate the evil.

The aldermen did well in taking steps in opposition to the unjust mill tax bill. There is no more reason why Newton should contribute toward the support of the schools of other cities and towns than there is for its supporting the fire or police force of such places.

The technicality by which the connection of tracks of the Commonwealth Avenue line with the Boston Elevated at Lake Street has been delayed, is unfortunate, as through cars to Boston are greatly to be desired.

Residents of the south side will be glad to see that definite action is announced this week in the matter of abolishing grade crossings. The hearing on January 17 will be largely attended.

The charges made against the Chief of Police should be immediately investigated. The public confidence in the efficiency of that department demands rapid and conclusive action.

Many people believe that Ananias was a model of truthfulness as compared with the average coal dealer.

Help some one else to have a Merry Christmas, and your own will be all the more enjoyable.

Alderman Ensign is bound to secure an active management of the Library.

The snow and the coal are equally rapid at disappearing.

Newton Club.

At duplicate whist last Monday the following players made plus scores:

E. K. Sherman and H. G. Brinckle-
hoff 4½
F. E. Marston and H. S. Pearson 2½
J. R. Nichols and P. D. Worcester 2½
J. F. Humphrey and William Hol-
lings ½

No prizes were awarded for the bowling of last Saturday, but will be given at another contest on Dec. 27.

A gentlemen's whist will be held tomorrow evening.

Clubs and Lodges.

The annual meeting of Tennyson Rebekah lodge was held Tuesday evening in Odd Fellows hall, West Newton. The officers elected were N. G., Mrs. W. C. Newell; V. G., Mrs. Charles Jones; Sec., Harvey C. Wood; Fin. Sec., Mrs. Addie Peck; Treas., Mrs. Elizabeth K. Wood. The vice grand will appoint the minor officers later.

At a meeting of St. Bernard's Court, M. C. O. F., held in A. O. U. W. hall, West Newton, last Monday evening, six candidates were initiated.

At the last meeting of Mt. Ida Council, R. A., held at Dennison hall, Newtonville, the following officers were elected: Regent, W. C. Newell; Vice Regent, C. H. Stone; Orator, S. K. Billings; Secretary, C. D. Cabot; Collector, E. W. Bailey; Treasurer, J. B. Robson; Chaplain, Harold Libby; Guide, H. D. Cabot; Warden, G. W. Mills.

At a meeting of Newton Council, K. of C., held in Dennison hall, Newtonville, last Tuesday evening, a smoke talk was given by Mr. James J. Nolan of Jamaica Plain.

Garden City Lodge, A. O. U. W., of Newton, elected the following officers last Tuesday evening: M. W., John Flood; P. M. W., J. J. Hapenny; F., Michael Cullinan; O., Thomas Segreve; R., J. P. Segreve; F., F. W. Brown; R., J. F. Griffin; G., William Segreve; I. W., P. F. Fitzgerald; O. W., M. J. O'Shea; trustee, John Murphy. A public installation will be held the third Tuesday in January.

Among Women.

Sarah Hull Chapter, Newton, and all interested persons having literature or useful and fancy articles to send to Mountain Whites at Berea, Kentucky, or Lincoln Memorial University, Tenn., please, send before next Monday afternoon or notify Miss S. A. Whiting, 11 Washington street, Newton.

The next meeting of the Social Science Club will be on Wednesday, Dec. 31st, at 10 a. m., at the Hunnewell Club.

Mr. Wm. J. Mann, whose book on America in its relation to the Great Epochs of History, which we review this week in another column, will be remembered as a recent lecturer before the Newton Centre Women's Club.

In the New Church parlors last Tuesday afternoon a meeting of the Newtonville Woman's Guild was held. Mrs. Alice S. Ware gave an interesting address on "Historic Landmarks in Boston." She illustrated her address by the aid of a map and photographs and described at length the old houses still standing in that city. A group of English songs were finely rendered by Miss Cora E. Davis.

The West Newton Educational Club held a regular meeting in the parlors of the Unitarian church last Friday afternoon. Mrs. F. E. Stanley gave a report of the biennial convention at Los Angeles and an interesting account of her experiences going across the continent, and on the Pacific coast. Mrs. Ada W. Tillinghast gave a paper on "Arts and Crafts," describing the origin of the movement, the result desired being to educate people in general to appreciate good and beautiful handwork in furniture and house furnishings, rather than the cheap machine made ornament.

At the Churches.

A missionary meeting was held at Eliot church, Newton, last Friday evening. A discussion of the matter of pledged giving and the advantage to the giver and the cause was participated in by Messrs. A. B. Fifield and F. A. Day. The six benevolent societies were briefly characterized by six young ladies of the church.

The Christmas tree and entertainment for the children of the parish will be held in the vestry of the Methodist church, Newtonville, next Tuesday afternoon.

The Rev. Albert Hannatt of Bellows Falls, Vt., will preach at the Universalist church, Newtonville, Sunday evening.

The Christmas concert of the Sunday school of the Newton Methodist church is postponed to Dec. 28.

Last Sunday evening the Newton Methodist church was closed on account of fuel. The regular service will be held this evening and next Sunday.

At the sociable held at the West Newton Unitarian church last Friday evening, a musical was given under the direction of Mrs. Charles R. English. The talent was Miss Capron, soprano; Miss Whitmore, violinist; Mr. Clark, reader; Miss Cobb, pianist.

The Christmas offering taken next Sunday at the Newton Centre Methodist church is the annual contribution for needy superannuated ministers of the New England conference.

City Hall Notes.

The board of health have required physicians to report cases of consumption.

The mayor's coal supply gave out on Wednesday and wood will be furnished until an invoice of ten cars now on the way, is received.

A special meeting of the aldermen may be called this evening on account of financial matters.

Communication.

Coal is very scarce and high at this Christmas time of giving and good cheer, let us remember our faithful letter carriers, who spend much of their time, the cold winter months, where coal, even at high prices, will do them no good.

Appreciation.

NO LEGAL RIGHTS.

Waban Location of Wal-
tham St. Rwy. Co.Disapproved by Board of Railroad
Commissioners.

Another chapter in the street railway history of this city was written at the office of the Railroad Commissioners yesterday afternoon when that body rendered an adverse ruling on the petition of the Waltham Street Railway Company for approval of its recent grant of location through Waban.

Messrs. Chamberlain, Milton and Wilson of that company, Messrs. Coolidge, Claflin, Hammett and Hight of the Newton companies and Mr. J. H. Robinson of Waban and Mr. C. F. French of Waltham were present at the hearing which was held at 2.30 p. m.

Mr. Chamberlain stated that the Waltham Co. had filed a petition with the legislature for an extension of the charter of the Waltham Co. into Newton, Wellesley, Weston, Lincoln and Concord, and requested the board to hold the Waban matter in abeyance until the legislature had acted.

Mr. Coolidge objected saying that petitions of the Newton companies were being held up in Newton until this Waban petition was settled and his company was entitled after waiting three months for a decision from the board. Mr. Coolidge also intimated that his company would seriously object to some of the conditions of the Waban franchise if that matter was to be considered.

After some discussion between Chairman Jackson and Mr. Chamberlain the chairman stated that the board would rule that the Waltham company had no legal standing before the aldermen of Newton in the matter of a location in Waban.

Mr. Chamberlain took exceptions with the intention of appealing to the Supreme court.

Hunnewell Club.

In the club bowling tournament team 9, Captain Bailey leads with a record of ten victories. This week's games were as follows: Team 1 beat 2, team 8 beat 4, three straight each. Team 6 beat 1 and team 5 beat 10 two out of three.

An enjoyable evening was given on Thursday by the Criterion Club of Boston. Three plays being given as follows:

NEWTON LOWER FALLS.

—The M. E. church will hold their usual Christmas festival Wednesday evening at 7.30.

—An addition is now being made to the St. Mary's parish house by the children of the late Charles T. Hubbard of Weston in memorial of their father.

—The ladies of the St. Mary's parish held a sale and entertainment Tuesday evening at the home of Mrs. Crosby. The ladies were dressed in old colonial style and an enjoyable evening was spent.

—The St. Mary's church will hold a service at 8 o'clock with full communion Wednesday morning and in the afternoon the Christmas festival will be given to the members of the Sunday school in the chapel.

Lasell Notes

The Lasell Glee Club gave a delightful vespers service last Sunday evening before a large audience. The whole musical program was a sample of judicious selections from a number of the great composers. Mention should be made of the solo by Miss Edna Sawyer, "Chantique de Noel," and Miss Evelyn Bates' solo, "The Virgin's Lullaby."

A pleasing musical rehearsal was enjoyed Tuesday evening. The program included vocal selections by Miss Ford, Miss Hellman, Miss Patterson, Miss Moore, Miss Hayden and Miss Spitz; piano selections by Miss Manchester, Miss Goodwin, Miss Grindle, Miss Phillips and Miss Bone and a violin solo by Miss Bid-
dle.

Newton League.

On Wednesday evening the Newton Boat Club were defeated three straight by the Maugus Club at Wel-
sley. The scores were not particu-
larly good.

The same evening, Riverdale defeated Hunnewell, two out of three at Brookline. Baucroft 527 and Loveland 524 were the only Hunnewell men to reach the honor class, although Barker rolled a single of 204.

POULTRY POINTERS.

Supply plenty of gravel to fowls that are being fattened in confinement.

Chickens should never be allowed to go on the roofs until ten or twelve weeks old.

Line is a purifier and should be used as a wash on the coops, perches and nest boxes.

If a hen lays soft shelled eggs, give her plenty of gravel, oyster shells and crushed bone.

Ducks should be allowed as much liberty as possible. They are not partial to confinement.

Flat eggs, eggs within eggs, double yoked eggs and other unnatural formations are due to the hens being over-fat.

Geese may be fattened on any kind of grain if fed all that they will eat for about ten days before sending them to market. Corn, peas and barley are best.

Young chicks of fancy breeding should not be permitted to roost on perches until after they are eight months old, as it often causes crooked breast bones.

Accumulating filth is a prolific source of disease, especially gapes. After the poultry yard is cleaned up sprinkle it well with diluted carbolic acid and a little copperas.

Adding Insult to Injury.

She had just banded him the frosty mitt, but he was game to the last hurdle.

"If you are ever in trouble," he said, "do not hesitate to lift up your voice, and you will find me 'Johnny on the spot.'"

"I'm in trouble now," answered the human refrigerator, with a sigh long drawn out.

"And, behold," exclaimed the unsuspecting youth, "I am here."

"Yes," she said, "that's the trouble."

—Chicago News.

No, Not You.

"Mamma, what was that fuzzy bundle you took out of papa's vest pocket and threw in the fireplace just now?"

"That was an accumulation of household relics your father cut out of the papers downtown and put away for my benefit. I have to clean them out of his pocket about once a month."

—Chicago Tribune.

A Faulty Appraisal.

Mr. Spriggins prides himself on understanding the value of money.

"And that's where Mr. Spriggins makes a mistake," said the liberal man. "He expects a dollar to buy two or three times as much as it has any right to and is continually being annoyed and disappointed."—Washington Star.

Fatal to His Candidacy.

"You have just as much right and theoretically just as good a chance as anybody else to be president," says the patriotic citizen to his neighbor.

"I cannot agree with you," sighs the neighbor. "We have no children, and that fact alone would lose me the photographers' vote."—Judge.

Police Paragraphs.

In consequence of charges made by certain citizens in regard to the official conduct of Chief Fred A. Tarbox of the police department, an investigation will be held by Mayor Weeks at City Hall beginning next Monday morning. The petitioners will be represented by John S. Richardson, Esq., of Boston, while Mr. Jesse C. Ivy will be the counsel for the Chief.

Unitarian Club.

The monthly meeting of the Unitarian Club was held last evening in the chapel of Channing church, Newton. After supper was served President Oliver M. Fisher called the club to order and eleven new members were elected. Rev. James Eells, pastor of the First Unitarian church, Boston, was then introduced and spoke on "The Privilege of Living Today." He stated that if our forefathers had been told 100 years ago of the progress that would take place from that time to the present they would have marvelled and doubted. We are the same kind of men, endeavoring to attain an ideal, but having availed ourselves of the increasing knowledge of the natural force the life of today is on a higher plane with more luxury and comforts. It is a significant fact that man has learned that the power to do things and to attain an object is largely in themselves—the power is manifested in the world around us. The whole creation is waiting for man to attain his very best to be a man in the highest term the word implies. The speaker closed by citing certain instances of the power of faith.

Rev. O. S. Davis of the Central Congregational church, Newtonville, continued the thought of the first speaker, describing briefly love, labor, appreciation and yearning as the four great elements of life. During the evening tenor solos were finely rendered by Mr. Thomas I. Deacon of the church choir.

UNIQUE CHRISTMAS GIFTS.

THE CHRISTMAS DISPLAY AT DENNISON'S VERY ATTRACTIVE AND INTERESTING.

Useful and unique creations are always to be found at Dennison's and especially is this true at Christmas time. This year's display is unusually attractive and those in search of new ideas in the gift line will not fail to visit 26 Franklin street, for so many years past the Boston headquarters of this company.

No company in the country probably manufactures so extensive and interesting a line of product as this Company, which for three generations, has been so well known to New England people.

Handy boxes of fine Chamois, Burial wood, imitation leather and paper, and containing baggery, and household tags, glue, twine, gummed labels, paper fasteners, rubber bands, mending tape, key tags and many other useful articles is representative product and by the way a highly useful article for any home or office.

Passe-partout picture framing outfits, colored gummed bindings for picture framing, game sets and counters, jewelry cabinets, perfumed sealing wax sets and caskets, fancy initial seals, Little Mother and Complete outfits for paper flower making, Decorated crepe paper Lamp, Candle and electric shades and Children's novelties comprise but few of these, and will be found in great variety of styles and prices and interesting combinations.

In the line of decorative material for the Holiday season this Company easily takes the lead of any store in the country. New and beautiful designs in Dennison's Decorated Crepe Paper, worked out in the most beautiful and vivid colors meet the eye at every turn, also many attractive and useful things that can be made with this unrivaled material—crepe paper novelties of every kind, lamp and candle shades, dainty napkins, screens, flags, flowers, fancy boxes, picture frames, candy boxes, baskets, table decorations and favors of every kind.

Christmas garlands, holly, amilax, dainty wrapping paper, fine tissue, gold and silver paper, fine paper boxes and cases, Christmas coin boxes and Christmas tags.

The entire display is extremely attractive and makes the Dennison store one of the most interesting places to visit in Boston. Dennison's Christmas catalogue, "Inexpensive Holiday Gifts," "How to Frame and Protect Photographs" and "Crepe paper Table Decorations" are three books which every housekeeper can have for the asking.

What would you give for a Good Appetite?

Not a false appetite, such as is aroused by powerful and deadly drugs like strychnia, quinine and nuxvomica, but a healthy appetite for good food?

As our old doctor used to say, "If you can't eat, you can't work," and we might add, "or play either."

We are very sure that Vinol will find your lost appetite. It will arouse the vital organs to call for wholesome food and help them to absorb it.

Vinol is a non-secret union of the valuable principles of organic iron, cod liver oil and a good table wine.

It is pleasant to take, and both nourishes and creates an appetite for nourishment.

Thousands of bottles have been sold on the guarantee of "money back," if not satisfied, and a dissatisfied customer is very rare.

SUPERIOR COURT.

MIDDLESEX, ss.

November 10, 1902.

To George W. Wiggins of Franklin, Edmund K. Turner of Franklin, Edmund K. Turner of Franklin, and George F. Swain, both of Boston, being three interested parties.

Upon the petition of the Mayor and Aldermen of the City of Newton representing that they are of the opinion that it is necessary for the security and convenience of the public that alterations should be made in the following described crossings and ways over and across the railroad of the Boston and Albany Railroad Company in and City of Newton, the approaches thereto, in the location of said railroad and said ways, and in the grade thereof so as to avoid certain crossings at grade:

First: The crossing of a private way known as Glen Avenue and said railroad, a crossing at grade.

Second: The crossing of a public way known as Layley Road and said railroad, a crossing at grade.

Third: The crossing of a public way known as Institution Avenue and said railroad, a crossing at grade.

Fourth: The crossing of a public way known as Cypress Street and said railroad, a crossing at grade.

Fifth: The crossing of a public way known as Centre Street and said railroad, a crossing at grade.

Sixth: The crossing of a private way known as Rogers Street and said railroad, a crossing at grade.

Seventh: The crossing of a private way known as Hyde Street and said railroad, a crossing at grade.

Eighth: The crossing of a public way known as Walnut Street and said railroad, a crossing at grade.

Ninth: The crossing of a public way known as Hoyt Street and said railroad, a crossing at grade.

Tenth: The crossing of a public way known as Cook Street and said railroad, a crossing at grade.

And further that such alterations in the approaches to said crossings in the locations of said crossings and in the substitution of other streets and ways therefor, and in the grades thereof and of said railroad should be made as may be necessary for the purpose aforesaid, and that the alterations which shall be made should be changed or discontinued or public ways substituted therefor.

Wherefore your petitioners pray that a commission may be appointed as provided in Chapter four hundred and twenty-eight of the Acts of the Legislature of the Commonwealth for the purpose to decide whether or not the alterations and the provisions hereinbefore specified are necessary, to prescribe the manner in which the same shall be made, and to determine which party shall do the work or to apportion the work to be done between said Railroad Company and said City, and to apportion between said Commonwealth and said City their proportion of the costs and for aich other decrees and orders that may seem just and proper.

To which proceeding the New York Central and Hudson River R. R. Co. and the Worcester Street Railway Co., have been made parties.

And your petitioners pray that you as a commission, to divide if such alterations are necessary, to prescribe the manner and limits within which they shall be made, to determine which party shall do the work or to apportion the work to be done between said Railroad Company and said City, and to apportion between the Commonwealth and said City their proportion of the costs of such alterations.

And you are to meet as soon as may be after receiving notice of this appointment, and after due notice and hearing shall decide the matter of said petition and forthwith return your decision into the Court.

All which proceedings are to be had in accordance with the provisions of Chapter 428 of the Acts of 1902, and any act in amendment thereof.

By the Court,

THEO. C. HURD, Clerk.

The Commissioners appointed in the foregoing case hereby give notice that a public hearing will be held upon the subject matter of the said petition at the Court House in the City of Boston, on the thirteenth day of January, 1903, at ten o'clock in the forenoon, at which time and place the parties interested may be present and be heard.

And it is hereby directed that the petitioner give notice of said hearing by serving a copy of this order and of the petition on the New York Central and Hudson River Railroad Company, and the Boston and Worcester Street Railway Company, at least fourteen days before the day of said hearing, and by publishing the same in the "Newton Graphic" and "Newton Herald" newspapers published in the City of Newton, once a week for two successive weeks, the last publication to be at least fourteen days before the date of said hearing, and by posting a like copy in two or more public places in said City of Newton at least fourteen days before the date of said hearing.

Dated this eleventh day of December, A. D. 1902.

GEORGE W. WIGGIN, EDWARD K. TURNER, GEORGE F. SWAIN, Commissioners.

By George F. Swain, Auctioneer,

90 Bowers Street, Newtonville.

Mortgagee's Sale of Real Estate

By virtue of a power of sale contained in a certain mortgage deed given by Thomas C. Clay to Lydia E. Lovett, dated November 1st, 1900, and recorded with Middlesex South District Deeds, book 208, page 18, in favor of the condition of said mortgage deed, and for the purpose of foreclosing the same will be sold at public auction upon the premises hereinafter described, to wit: A certain lot of land, situated in the City of Boston, in the County of Suffolk, and bounded and described as follows, to wit: Beginning at the northwesterly corner of land now or late of George C. Littlefield, at the junction with Grover street, so called, and running thence in a westerly direction seventy and twenty-nine one-hundredths (70.29) feet, thence turning and running easterly sixty-four and seven one-hundredths (64.07) feet, thence turning and running northerly by land of said Littlefield fifty-nine and twenty-one one-hundredths (59.21) feet to the point of beginning, containing forty-three hundred and thirty-seven (4337) square feet, more or less, together with so much of the proposed new street or court as laid out as abuts on the said premises, from the front or southerly line thereof as described to the centre of said street or court, and including a strip three feet wide across the head or northerly end of said court, and said court or street shall be forever kept open and used in common for the use of all owners or abutters on the same. Being the same premises conveyed to the said Thomas C. Clay by Fitzhugh S. Robbins by deed dated in the thirteenth, 1890, and recorded with Middlesex South District Deeds, book 1064, page 8, and subject to the reservations in said deed contained.

Two hundred dollars will be required to be paid in cash by the purchaser at the time and place of sale.

LYDIA E. LOVETT.

Sleeping Car Rates Advanced.

An advance in sleeping car rates between Boston and New York is the latest contribution to the era of high prices. The charge for this form of transportation on both the New York, New Haven & Hartford and the Boston & Albany railroads has been advanced to \$2 for lower berths and \$1.50 for uppers. The former charge was \$1.50 and \$1, respectively. This has come about as the result of the Pullman company's having recently taken entire charge of the sleeping and parlor car department of the Boston & Albany, and is merely a move in the direction of bringing the prices to the uniform Pullman basis.

A CONTRAST IN BOYS

TOWN AND COUNTRY LADS IN THE STRUGGLE OF LIFE.

Of the Men Who Have Achieved Great Prominence in Public Affairs the Rural Boys Are at Least Twenty to One Over the City Lads.

A country boy's lack of opportunity is his best equipment for the serious struggle of life. This sounds paradoxical, but it is true. It is just as true as the opposite proposition, that the greatest hindrance a city boy has to contend with are the opportunities which beset him when young and pursue him till he begins the real business of life, a business which each individual must carry on for himself. For the city boy everything is made as easy as possible. Even pleasure becomes to him an old story before he is out of his teens. Brought up in the feverish rush of a place where great things are happening day by day, he sees the world with a cynic's eyes and despises the small things which, like the bricks in a house, go to the upbuilding of characters and careers. He believes in using large markers in the game of life; for pennies and small units of value he has little taste and scant regard.

The conditions surrounding the country boy are as different as possible. There is a deal of regular work that every country boy must do, and this regularity of employment, mostly out of doors, inculcates industrious habits, while it contributes to a physical development which in after years is just as valuable as any athletic training that can be had. He cannot run as fast perhaps as those trained by a system. He may not be able to jump so high or so far or excel in any of the sports upon which we bestow so much time and from which we get so much of pleasure, but his development enables him to buckle down to the hard work in which hours are consumed and from which very little or no immediate pleasure is extracted. His strength may be something like that of the cart horse, but the cart horse is to be preferred where a long and steady pull is required. The thoroughbred race horse has a fine light of speed and cutters with delightful lightness and grace along the park bridge paths, but the heavy work is the work most in demand, and for that we want the draft animals every time.

Enthusiasm is the spur to endeavor, and at the same time it is the savor of life. The country boy whose ambition has taken him to town comes filled with enthusiasms. Even the little things are novelties to him, and as he accomplishes this and that he feels that he is doing something not only interesting, but valuable. His simple tastes have not been spoiled by a multiplicity of gratifications, and so he is glad of everything good that comes his way. At thirty, if he leads a clean life, he has more of the boy in him than his city cousin has left at fifteen. He does what is before him because it is his duty, while the other is apt cynically to question the value of doing anything and ask, "What is the use?"

Of the men who have achieved great prominence and high influence in our affairs of state the country boys are at least twenty to one over the city lads. Nowadays indeed our cynical city lads look upon men who take an active interest in public affairs as rather low fellows and quite beneath their association and notice. But the country boys are at the top in other lines of endeavor. In finance they are pre-eminent, and the great bank presidents today in the great cities nearly all learned to read and to cipher in country schools where birch and ferule had not succumbed to the civilizing influences of scientific pedagogy. Our great railroads were in the main built by them, and today the administrators of these great companies are in great measure from farms and country villages, from places where work began in early infancy and a sense of duty developed while still the hiss of childhood lingered.

Some city boys, however, are of such sturdy stuff and endowed with such natural gifts that they succeed by reason of their inherent superiority. Others succeed abundantly because they have used their opportunities wisely and in real life have pursued the same course which enables so many country boys to win fame and fortune. The more honor to them for having survived their too great opportunities. But the country boy when he comes to town reaches out for the high places. Though not all find seats of the mighty, nearly all of the exalted stations are filled in the end by men of country birth and country rearing, for they usually start out with the sound theory that what is worth having is worth striving for.—John Glimmer Speed in *Brandur Magazine*.

Scotch Civility.

A lady went out in search of two others who had gone out for a walk some time before. She met an old man and asked him if he saw two ladies pass this way. "Na, nor I wisna looking for them."

She met another and asked the same question. "Na, but there nicht 'n' been ten passit for anything 'at I ken or care."

At last she met a boy and asked the same question. He replied, "Na, I didna see any ladies, but I saw twa o' wives."—*Scottish American*.

His Boy's Future.

"Are you educating your son for any particular calling?"

"Yes."

"What?"

"Well, he made his own selection, and as near as I can find out he is educating himself to be the husband of a heiress."—*Chicago Post*.

A MAN'S BLUSHES.

He Will Fly the Red Signal More Quickly Than a Woman.

"If there is any one thing that makes me want to get up and talk right out in meeting it is to hear it said of a man that 'he blushes like a woman,'" said the social philosopher to a representative of the *New York Times*.

"How women ever gained the reputation of having run up a corner in blushes is beyond my comprehension. The report does her a grave injustice, for as a matter of fact she not only has no monopoly in blushes, but does not make use of the shure that properly belongs to her. There are some women, of course, who blush if you even blink an eyelid in their direction, but as a general thing men blush much more readily and more violently than women."

"This is not a random statement that I am making for the purpose of hearing myself talk, but a sober deduction founded on careful observation. For years I have made it a point to study the sexes in moments of embarrassment, and the statistics I have jotted down prove that in nine cases out of ten the average man will fly the red signal of distress much more quickly than the average woman. This holds good in all sorts of situations."

"Crack a joke at a man's expense, he blushes; ply him with awkward questions, he blushes; subject him to some humiliation or let some ludicrous accident befall him in public, and he straightway rivals the boiled lobster in hue. A woman may reddens slightly under the same circumstances, but her blush is diluted and perfunctory compared with the brilliant, sunlit glow that suffuses the countenance of man."

"I don't attempt to explain the phenomenon—physiologists and moralists may do that if they can—but merely give the facts for what they are worth in the hope that the next time a story writer has a crop of blushes to dispose of he will ring a few changes on the old phrase that has done duty for generations and say of the heroine that she 'blushed like a man.'"

FIRE ALARM BOXES.

The System in New York and How It Is Operated.

Greater New York is thickly studded with lamppost fire alarm boxes. The directions on each box, which is painted red and is surmounted at night by a red light, are:

"Turn handle to right until door opens; then pull inside hook once and shut the door." The opening of the box rings a large bell in the door, which alarm is intended to notify any one in the neighborhood, especially the nearest policeman, that the box has been opened. The policeman will then make sure that this was not done out of mischief by some one who wanted to see the engines arrive or, as recently happened, by a raw maid servant who wanted to mail a letter. When the inside lever is pulled down and let go, it sets in motion a certain clockwork that ticks out the number of the box three times in succession at headquarters in Sixty-seventh street. Not only that, but it makes a record upon a tape, showing the number of the box and the exact second at which the lever was pulled.

A clerk who sits night and day beside the headquarters instrument notes the number and selects from a drawer a certain disk which when inserted in the proper apparatus causes the alarm to be rung in the station houses of the district in which that firebox is situated. The average time required to select this disk and send out the alarm is ten seconds. There are always two clerks and sometimes three in this department. Not a word is spoken. An outsider would hardly know that an alarm is going out. In order to prevent several alarms coming at the same time from people who see the same fire and run to different boxes no two neighboring boxes are on the same circuit.—*Scribner's*.

Who Told the Fib?

The bell rang, and the occupier of the apartment started to the window to see who the visitor might be. To his annoyance he saw a persistent creditor who had evidently called again for payment of his long outstanding account. The impudently one instantly called to his youthful son and said:

"Tommy, go to the door at once. I don't want to see that man. Tell him I'm not at home."

"Oh, papa, I thought you never told fibs," remarked Tommy.

"I don't, my boy. It's you that's going to tell one. Now run off."—*New York Times*.

Fixing the Blame.

Mr. Snow was seen holding the weekly paper as far away as he could get it and working his head from side to side, with squinted eyes. "Solo! Your sight's begun to fail ye at last," said the visitor bluntly. "Well, 'tain't surprising at your age."

Mr. Snow glared. "My eyesight's all right!" he roared. "The only trouble is my pesky arm isn't long enough!"—*Youth's Companion*.

Fame.

"When I grow up," remarked Bobby Toughmuscles, "I am going to be the people's choice."

"Pugilist or president?" asked Tommy Sharpshoe.—*Cincinnati Commercial Tribune*.

Every one should occasionally say "Whou!" to himself. Because his friends do not say it does not indicate that he doesn't need it.—*Atchison Globe*.

An orange tree in full bearing has been known to produce 15,000 oranges; a lemon tree, 6,000 lemons.

FORCING A FASHION.

How Hats Were Introduced to the South African Natives.

Andries De Villiers, a Boer, was the person who first introduced hats among the South African natives, says the *Hatters' Gazette*, and profit, not philanthropy, was his motive. One morning many years ago he chanced in Port Elizabeth to come across a consignment of damaged hats offered for a mere song. He bought the whole lot, packed them away in his wagon and started for Kaffriland.

When he reached Tembuland, he unloaded his stock, opened his kegs of liquor, without which no trade was made in those days, and began business. But he found his venture likely to prove an unprofitable one. The natives did not want hats. They wanted blankets and beads and looking glasses and above all liquor, but they looked askance at hats. Then a bright idea came to Andries. He wanted to introduce those hats. He did introduce them. His simple expedient was to refuse to sell anything to a Kaffir unless he bought a hat too. The Kaffirs wanted his goods, so they bought the hats.

When a Kaffir buys anything, he feels bound to make use of it. The natives therefore donned their head gear and returned to their kraals. Now appeared the brilliancy of the trader's idea. Fashion rules the world. It is as strong in Africa as in America, and when those who had stayed at home saw the travelers return in all the glory of this strange covering they felt behindhand and old fashioned. Their desire to possess the latest thing in hats became intense. They paid Andries a visit, and his stock no longer hung heavy upon his hands. The hats were soon sold.

This happened some time ago, and now every trading store keeps a supply of hats constantly on hand. They are said to be manufactured expressly for the natives, and no one who glances at the show will doubt it.

A JUGGLER'S TRICK.

Clever Feat of Illusion Performed by an East Indian.

The wonderful feats of East Indian jugglers have formed the theme of many a letter from travelers in the orient, but none is more surprising than that for which an old seadog vouches. While he was an officer on board a P. and O. steamship two natives came aboard at Madras, he says. They were a juggler and his assistant. After they had performed a number of minor feats and gathered quite a crowd around them they called for a sack and a piece of sailcloth.

These having been provided, the chief juggler made a small tentlike structure with the canvas and some stools. He then placed his assistant in the sack and allowed a sailor to tie the knot which bound him a fast prisoner. This done, the chief carried the sack into an open space, warning the people to stand back some distance, and then carried on an animated conversation with his assistant, whose replies could be distinctly heard coming from the sack. Suddenly the chief rushed forward, picked up the sack and dumped it overboard, where, to the horror of the passengers and crew, it sank out of sight.

Immediately the captain rushed forward and seized the man, under the full belief that he had murdered his companion, but the juggler only smiled and, pointing to the canvas, asked that it be raised. This was done, and the supposed drowned man was discovered squatting on the deck. So realistic had been the throwing overboard, however, that it was some time before the surprised passengers could realize a murder had not been committed.

Church and Workmen.

It would be an exaggeration to say that all working people feel antagonistic toward the church. Their general attitude is rather that of indifference. The thinking poor are well enough aware that there is nothing unnatural in the situation and that if the tables were so turned that world advantage shifted to their side it would probably remain unchanged. At times their feeling, especially toward the clergy, is curiously sympathetic. "Say," remarked a labor leader of vivid mind to the writer—"say, I'm awfully sorry for ministers. Most of them are real good men. They know well enough what Christ meant, and they'd like first rate to preach if they dared. But, Lord, how can they? They're got to draw their salaries; they've got families to support." All this quite without a touch of irony.—*Vida D. Scudder in Atlantic*.

Pailing Out the Peas.

Susie, aged four, had been out in the country on a visit. On her return she urged her mother to let her keep a cow.

"But, Susie," said the mother, "there is no one here to take care of the cow and milk it."

"Oh, yes, I'll do that, mamma," "Can you milk a cow? How do you do it?"

"Oh, I know how. I'll just pull the peas out like the man does!"—*Lippincott's*.

The Responsibility.

Anxious Father—Do the best you can for him, doctor. "That is all I can ask. If it is the will of Providence—"

Surgeon—Don't try to place the responsibility on Providence in this case, Mr. McJones. You bought the toy pistol for the boy yourself.

His Art.

"Oh, Mr. Groweth," gushed Miss Nupson, "how did you ever learn to paint such beautiful pictures?"

"I asked a man once," replied the artist, "and he told me how."—*Indianapolis News*.

A BANK STORY.

An Incident That Startled the Old Lady of Threadneedle Street.

Some years ago the directors of the Bank of England were started to receive an invitation to meet an unknown man in the strongroom of the bank at midnight. "You think you are all safe hand you bank his safe, but I know better. I'll hide the bank the last 2 nite hand you nose nuffin about it. But I am not a thief so I'll yer will mett mee in the great square room, with all the moneys, at twelf 2 nite. He explain o't to you, let ly thar 2 cum down, and say nuffin to nobody." The strongroom was guarded the next night in spite of a disposition to regard the letter as a hoax by police and nothing happened.

The next phase of the mystery was more astonishing than ever. A heavy chest of papers and securities taken from the strongroom arrived at the bank, with a letter complaining that the directors had set the police upon the writer, and that he had therefore not appeared as he promised, but to prove that he was neither a thief nor a fool he sent a chest of papers he had taken from the bank. Let a few gentlemen be alone in the room, and he would join them at midnight, said the writer, and to cut short a long and strange chapter of bank history, a man with a dark lantern burst into the strongroom of the bank at midnight after calling from behind the stone walls for the directors to put out the lights. He was one of a strange class of men who gained a living by searching the sewers at night, and through an opening from a sewer he had found his way into the richest room in the world.—*St. James Gazette*.

The Strain on Parents.

"What is molar, mummy?" asked Sally Peterson Jones, looking up from her slow perusal of the newspaper and keeping her place on the page with a dusky forefinger.

Mummy Jones began to rock faster. "You know w't hair is, I s'pose, don't you?" she inquired.

"Oh, yas'm," responded Sally promptly.

"Well, den, does you know w't a molar is?" asked her mother rocking still faster.

"No'm," admitted Sally with great reluctance.

"Well, chile, you can't 'spec' me to take de place ob a molar chile ob animals 'fo' you," said her mother calmly, allowing the rocking chair to slacken its speed. "W'en you're bunted up de mo in one ob your schoolbooks an' know jes' what he looks like, come to me, an' I'll 'splain de rest. But chillen mus' und'take some work on dere own eddication, shorely. 'Tain't right fo' payrents to do it all."

Address as Above.

There is one lawyer in Brooklyn who will never again make use of Latin phrases in writing business letters. A short time ago he had to write a letter to a client in a neighboring city regarding an important lawsuit that was to come up before the court in the course of a few days. The information he solicited was highly essential to his case. In writing this epistle he made use of a letter head with his printed address at the top. In closing his letter he signed himself thus, "John Langdon, address as supra."

After waiting several days for the reply, which did not come, he again wrote his procrastinating client and asked why he had not sooner answered his first letter. The next day he received a reply in which the client said that he had answered the letter and addressed it to "John Langdon, Ut Supra, N. Y."

She Will Keep Her Word.

When Grandmother Pettigill makes up her mind, she is as firm as a rock. Nothing can move her. Perhaps it was on this account that when she returned from the celebration of the one hundredth anniversary of the settlement of Shrubville and made such a determined declaration nobody attempted to influence her.

"I've been here, and it's over with," she said, "and now I'm home safe after all the noise and bands and scared horses and crying children and men making speeches. I want to tell you one thing. I shan't ever go to another centennial in Shrubville, no matter what the circumstances are and no matter who asks me. You children may as well bear that in mind."

Maidens Sold by Auction.

A singular custom obtains in this day in some of the towns on the lower Rhine—namely, that of "selling" maidens at public auction. For nearly four centuries on Easter Monday—auction day—the town crier or clerk of St. Goar has called all the young people together and to the highest bidder sold the privilege of dancing with the chosen girl, and her only, during the entire year. The fees are put into the public poor box.

A Serious Matter.

"So he's trying to live on other people's brains," said the publisher indignantly.

"What's the trouble? Has some one been stealing the ideas from your books?"

"I suppose so. But that's a minor matter. They're trying to coax away the man who writes my advertisements."—*Washington Star*.

His Conscience.

First Bohemian (to second ditto)—I can't for the life of me think why you wasted all that time lagging with that tailor chap and bending him down when you know, old chap, you won't be able to pay him at all.

Second Bohemian—Ah, that's it! I have a conscience. I want the poor chap to lose as little as possible!—*Punch*.

ACKNOWLEDGEMENTS.

While our private troubles have but
little interest for the public at large,
we wish to express our sincere apprecia-
tion for the sympathy and assistance
which has been so freely offered us
since the burning of our press-room.

The misfortune is a serious one, and
will probably affect us for some time,
although our job printing department
will be in operation within a week.
In the meantime we must ask the
indulgence of our patrons, whether
advertisers or subscribers and promise
our utmost efforts to place the
GRAPHIC in a still higher position than
it ever was before.

In regard to our editorial of last
week wherein we referred to a ship-
ment of 100 tons of coal out of New-
ton, we are now informed, that this
particular matter was in the nature
of an exchange and that the coal firm
in question received other coal of
different sizes in place thereof.

Our thanks are due the fire depart-
ment for its very prompt and effective
service.

SPOILING A SCENE.

An Incident That Ended Mary An-
derson's Straining After Realism.

Did you ever hear Mary Anderson's
pet story of how she was cured of her
love of realism?

In a big drama in which this great
actress once took part the heroine in a
scene of intense emotion is made to ex-
claim, "Hark, I hear the wheels of car-
riages!"

Now, it was easy enough to obtain
the effect of wheels on gravel, but no
resource of the stage mechanism was
adequate to imitate the stamping of
the feet of horses as they were drawn
up at the door. Every device was ex-
hausted when a bright idea occurred
to the actress herself. It was that a
donkey should be hired to trot up and
down behind the scenes on gravel laid
for the occasion. This was done, and at
rehearsal all went well. The illusion
was perfect.

The first night came. The heroine
gave the cue. The wheels were heard,
but they stopped, and the rest was si-
lence. A pause, and again the actress
spoke her words. A terrible scuffling
began and then "Hee-haw, hee-haw."
In stentorian tones from the back of
the stage as the indignant donkey
protested vigorously against his ill
treatment by energetic carpenters and
supers. It was one of the most serious
situations of the play, yet audience
and actors joined in paroxysms of
mirth until the tears were streaming
down their cheeks.

A Bold Scotchman.

The late czar of Russia was one night
playing a game of whist at Homburg,
and the Prince of Wales and several
of his friends were of the party. Among
those friends was Sir James Macintosh,
a well known lion vivant of the eight-
ies and nineties. Sir James was one of
those blunt, downright, rough spoken
Scotchmen who didn't know fear of
God or man.

In the midst of the game Sir James
called out to the czar, "You've re-
voked." Everybody's blood ran cold.
The Prince of Wales kicked the Scotch-
man under the table, and the czar,
blushing and confused, exclaimed in
bewilderment: "Revoked? Why, I never
did such a thing in my life!" But Sir
James persisted, and the monarch
was proved to be in the wrong, where-
upon Sir James replied to the observa-
tion of the czar, "I dare say you've
revoked, your majesty, but this is
the first time you were ever told so."

People would get more real enjoy-
ment out of money if it took them as
long to spend it as it does to earn it.—

TWILIGHT IN IRELAND.

It Is Different From That Seen In
Any Other Country.

The interior of a typical Irish cabin
is a sorry sight. The floor is of stone,
uncovered except for a few rag mats.
The furniture is of the poorest, and
sometimes it is homemade; tables im-
provised from boxes, chairs from bar-
rels, and the beds more like stalls for
cattle, with their straw mattresses and
bundle of rags for clothing. A slow,
dull fire of peat gives a cheerless
warmth to the room. What few dishes
there are belonging to the family are
arranged on the mantelpiece. Strips of
bacon, dried cod and herbs hang from
the ceiling.

After a frugal meal Pat will take his
evening promenade. It is between sup-
per time and going to bed that the Irish
most enjoy themselves. An Irish twi-
light is different from any other; in-
deed, it is without a rival. It seems as
if there the sun were loath to set, cast-
ing its rays over the Emerald Isle many
hours after it had disappeared else-
where. In that delicious moment, just
before it finds its final resting place for
the night, it is most enchanting. Over
everything is an unspeakable spell of
peace and quiet, and a warm glow casts
into shadow unsightly objects and sur-
rounds them with a mystic halo of
golden light. It radiates into the hearts
of Ireland's humblest inhabitants, and
they saunter forth, rich and poor alike,
mingling in a throng of living, moving
humanity.

London Theaters of Long Ago.

A writer in London Truth says that
in the early part of the eighteenth cen-
tury the London theaters opened at 6
o'clock, and as it was therefore diffi-
cult for playgoers to arrive punctually
and obtain seats many of them sent
footmen or hired men from the streets
to secure places for them. These sat in
the seats until those who had sent them
came, and the custom prevailed until
1760, when the system now in force
was adopted. "A footman used to be
sent early to take places and keep them
by the simple but effective plan of
sitting on them till his masters and
mistresses arrived. Such a practice
would now be considered an intolerable
nuisance, but people in those days were
much less particular, and appear to
have thought nothing of sitting for an
act or two cheek by jowl with a flunk-
y in the street." An allusion to the cus-
tom occurs in Fielding's "Miss Lucy
in Town," act 1, scene 2, and Pope in
his "Diary" occasionally mentions hav-
ing hired a boy in the streets to occupy
a seat for him.

Japan Once Joined to China.

Japan consists of a group of "fleshy
islands," forming a long curve, with its
convexity toward the mainland, and
many of their peculiarities are due to
their upheaval by subterranean forces,
of which they are still one of the most
active seats. They were undoubtedly
connected with China and with the
land to the north of this at no very re-
mote period, geologically speaking, and
therefore, like Great Britain and Ire-
land, are scientifically classified as "re-
cent continental islands." The proofs
of this are twofold—first, they are con-
nected with Asia by a submarine bank
less than a hundred fathoms beneath
the surface, and this is believed to be,
as in all such cases, a submerged land
tract; second, the animals of Japan are
closely similar to those of China, the
only plausible explanation of this being
that formerly there was a land connection.

Queer Japanese Custom.

In some villages in Japan robbers are
tried and convicted by ballot. When-
ever a robbery is committed the ruler
of the hamlet summons the entire male
population and requests them to write
on a slip of paper the name of the per-
son they suspect as having committed
the crime. The one receiving the largest
number of ballots is declared duly
"elected" and is accordingly hanged.
This system, like all others, has its pec-
uliar advantages. It insures the pun-
ishment of somebody for every robbery
committed, whereas under the system
in vogue in most civilized countries in
nine cases out of ten no punishment is
inflicted on anybody for the crime. Of
course they may not "elect" the guilty
person, but dispose of some other char-
acter equally bad.

Old Violins.

The old time viol was the first instru-
ment of its kind and furnished the plan
for the modern violin, which, however,
is 700 years old. It is said that Charles
II. introduced it into England. One
of the finest makers of violins was
Stradivarius of Cremona, who existed
in the early part of the eighteenth cen-
tury. Violins made by him are worth
thousands of dollars now and are high-
ly esteemed by collectors and perform-
ers.

AN ALASKAN LANDSLIDE.

Rather Lethargic, but Extra Up
Groves and Fills River Beds.

All the morning as we chopped
spongy cottonwood, blew out our lungs
over the fire and flipped water from
the blankets a dull roar which we
thought the river swelled by the rain
was growing louder, louder. I said, "I
guess a moraine choked pond on the
glacier has broken through," and just
then Jack stepped out from under the
soaked tarpulith.

"Look at that, Bobbie, look at that!"
I heard him shouting. Outside he was
pointing across the stream. A land-
slide was roaring down a gully from
the very top of the Rainbow hills. It
was a stupendous sight. We looked at
it silently and then said, both at once,
"I thought an avalanche was sudden."
This thing wiggled like a huge snake
down a sheer 3,000 feet of rock. The
roar seemed forever to increase. Dust
or smoke trailed from this thing, and
enormous boulders skipped solemnly
from side to side of its path like peb-
bles. Water mingled with it, and when
it reached the terrace it was a black
stream, viscous and heavy.

Jack bet it wouldn't cross the half
mile of flat to the river, but in a mo-
ment we saw boulders shooting out
over the terrace and aspen groves fall
as if laid with a scythe. A caucous
fan ate out to the bank and gravelly
stopped over like lumpy paint, cutting
deep channels down to the river.—Out-
ing.

A Place For His Boy.

Sol Smith Russell, who saw humor
in many commonplace happenings,
used frequently to tell of meeting an
old farmer at a railway station in a
small New York town whose philoso-
phy was particularly put, even though
his deductions were hardly compli-
mentary to the actor, says the Chicago
Tribune. Russell and his companion
were awaiting the train when the old
gentleman walked up, eyed the star a
minute or two and asked:

"Be you the feller that cut up capers
at Parker's hall last night?"

"My company and I gave a perform-
ance there last evening, yes," replied
Russell politely.

"I thought so. I was there, and I had
to laugh sometimes. I wanted to tell
you about my boy. He's just your way
—ain't no good for work. Won't stick
to anything, but wants to play clown
and crack jokes all the time. He's got
a job at the hub factory, but all he
does is to keep the men a-laughin'
when they order he workin'. You order
take him 'long with your troupe, for
he's the derndest fool I ever seen!"

Stewed Apples.

To stew apples so each quarter is un-
broken and so clear one can almost see
through it is an art, and yet it is a sim-
ple thing to do if one only knows how.
Peel tart apples very thin, cut them in
quarters and remove the cores and
seeds. As fast as you can peel and
quarter them drop the apples in a
saucepan in which you have already
placed cold water to the depth of two
inches. When the apples are all in, put
the saucepan over a slow fire, cover it
till the water reaches the boiling point,
then remove the cover and let the ap-
ples simmer almost imperceptibly till
you can pierce them easily with a
broom splint; then sprinkle the sugar
over them and let them just simmer
until it is all melted. Remove the
saucepan from the fire and let it stand
where the apples will get cold before
turning them into a dish for the table.

The Samovar.

While it is generally known that the
samovar is a distinctly Russian article,
the fact may not be so familiar that in
the land of the czar the manufacture
of samovars is a privilege of the gov-
ernment, and the Imperial crest is
found upon every genuine Russian tea
urn. The reason given for the govern-
ment's engaging in this manufacturing
business is that the samovar may be
within the purchasing power of the
humblest peasant, and it is therefore
found in the humblest as well as the
most pretentious home in the land. The
real article is always heated by char-
coal, but returned travelers, and par-
ticularly Americans, find it more con-
venient to have their samovar adapted
for spirit lamp heating when intended
for use in their own homes.

Not Dutiable.

"Have you any articles of value with
you?" asked the customs inspector.
"Nothing," answered the returning
traveler, "except a wealthy grass wid-
ow whom I expect to marry as soon as
I land."

"Well," mused the inspector, rubbing
his chin thoughtfully, "I guess you can
take her through. Seems to me she
will come under the classification of
balded bag, and that is free."—Balti-
more American.

Not In His Line.

"What is his status in this commu-
nity, if I may ask?"

"He ain't got none that I ever heard
on. He run a grocery for awhile down
to the Corners, but if he ever had any
status there 'twain't kept out in sight
where anybody could see it."—Chicago
Record-Herald.

The Rejected One.

"Let me see," remarks the ignorant
personage. "Rime means frost, doesn't
it?"

"Mine usually does," replied the un-
successful poet absentmindedly.—Chi-
cago Commercial Tribune.

THE FIRST NATIONAL BANK
OF WEST NEWTON.

Clubs and Lodges.

In the Masonic building, Newton-
ville, Thursday at 12 o'clock the mem-
bers of Gethsemane Commandery with
visiting Sir Knights gathered for the
annual Christmas observance.

Riverdale N. E. O. P. of Aubur-
ndale elected the following officers at
the annual meeting: Warden, F. J.
Jones; vice warden, Horace Lovell;
secretary, James H. Doherty; finan-
cial secretary, W. F. Hadlock; treasur-
er, Helen D. Keyes; chaplain, Mrs.
W. F. Jones; guide, George E. Keyes;
guardian Miss Mary D. Aldridge;
sentinel, William Thayer.

The semi-annual election of New-
ton lodge, I. O. O. F., of West New-
ton, held last week, resulted in the
following officers being chosen: N. G.,
John T. Beale; V. G., John H.
Manter; R. S., Harvey C. Wood; F. S.,
Frank Linnell; treasurer, F. E.
Hunter. The other officers will be
appointed at the installation meeting,
Thursday evening, Jan. 8.

At the last meeting of Loyalty
Lodge of Good Templars a novel en-
tertainment was furnished. A maga-
zine edited by Miss Ida Gammons,
composed entirely of articles written
by members of the lodge was read.

Middlesex court, M. C. O. F., has
elected the following officers for the
ensuing year: George E. Stuart,
C. R.; Margaret J. Lane, R. S.;
Win. H. Thomas, T.; Martin Murphy,
J. C.; P. S. Cummin, V. C. R.; P. A.

At the Churches.

Rev. W. L. D. Twombly was the
leader of the prayer meeting, New-
tonville Methodist church last Friday
evening.

At the First Universalist church,
Newtonville, last Sunday morning the
services were conducted by Rev.
Albert Hannett of Bellows Falls, Vt.

The usual Christmas festival was
held last Wednesday evening at the
Methodist church, Newton Lower
Falls. The program consisted of the
giving of presents, an entertainment
for the young people and refreshments.

The Bible school concert at the
Immanuel Baptist church has been
postponed to next Sunday evening.

There was a large attendance at the
sale held Friday evening in the New
Church parlors, Newtonville, under
the auspices of the Woman's League.

At the Congregational church, Aubur-
ndale next Tuesday a Christian
Endeavor sociable is planned. The
pastor's reception will take place
Thursday evening, January 1st.

The Methodist church, Newtonville,
entertained fifty Boston children at
the Christmas tree entertainment held
Tuesday evening. The Central church
on Saturday afternoon will entertain
35 children from Nonantum.

A Christmas vesper service will be
held next Sunday afternoon at the
Auburndale Congregational church.

The beautiful new church for the
St. John's society is nearing comple-
tion. A simple stone font, costing
about \$100, in keeping with the rest
of the church is much needed.

A Sunday school concert was held
last Sunday evening at the Central
church, Newtonville. Mrs. G. W.
Auryansen gave a talk on "How
Christmas is kept in different coun-
tries," illustrated by special stereop-
ticon slides.

Charles Ward Post 62, G. A. R.

On Thursday evening, Jan. 1st,
1903, the ceremony of installation of
officers for the ensuing year will be
held in Temple hall, Newtonville, at
8 o'clock, the families and friends of
the comrades and the associate mem-
bers of the post are cordially invited
to be present. Following the services
a collation will be served after which
the time will be devoted to such in-
formal exercises as may be agreeable,
and it is hoped that a good old
fashioned social time will be enjoyed.

SCHOOL BOARD.

The school committee of 1902 held
its last regular session on Tuesday
evening, Messrs. Boynton and Cre-
hore being the only absentees.

A request was made on the alder-
men for \$11,600 for furnishings for
the new Burr school at Auburndale
and the new Mason school at Newton
Centre.

After transacting some routine
business, the board enjoyed a colla-
tion, for which the retiring members,
Messrs. Hardy, Howes and Luitwieler
were the hosts.

Servants Are
Hard to Get

Left Eyed People.

The man who spends half his time trying to classify people said he never saw so many left eyed passengers in one car.

"What do you mean by left eyed passengers?" asked his companion.

"People who use their left eye more than their right," was the reply. "The species is not common, and of course none but a student in ocular science would be able to detect offhand the few whom we do meet. A left handed person advertises his peculiarity at once; not so the left eyed man. As a rule it takes an oculist to determine which eye has been used most, but there are certain peculiarities of the pupil and lid that may be taken as pretty sure signs by the trained observer."

"Left eyed people are made, not born. Most of us have been blessed by nature with eyes of equal visual power, but the attitude we strike when reading or writing causes us to exercise one eye more than the other, and the first thing we know we are right or left eyed. This is a one sidedness that should always be taken into consideration when buying glasses."—New York Times.

A Collector's Prayer.

So deeply passionate is Mr. Hodgkin's love for the rare and the curious that one thinks of the Thomas Hearn mentioned by him, who in all simplicity of heart thanked God for his success in collecting.

"O most gracious and merciful Lord God," writes this devotee of old books, "wonderful in thy providence, I return humble thanks to thee for the care thou hast always taken of me. I continually meet with most signal instances of thy providence, and one act of yesterday, when I unexpectedly met with three old manuscripts, for which in a particular manner I return my thanks, beseeching thee to continue the same protection to me a poor, helpless sinner, and that for Jesus Christ his sake."

The prayer is extant and may be read at the Bodleian, where Hearn was assistant librarian.—London Chronicle.

Balzac's Passwords.

It was not easy to make one's way into Balzac's house at Chaillet, Rue des Batilles, for it was guarded like the garden of the Hesperides. Two or three passwords were necessary, which were changed frequently for fear they should become known. I remember a few. To the porter we said, "The plum season has come," on which he allowed us to cross the threshold. To the servant who rushed to the staircase when the bell rang it was necessary to murmur, "I bring some brussels lace," and if you assured him that "Mme. Bertrand was quite well" you were admitted forthwith. This nonsense amused Balzac immensely, and it was perhaps necessary to keep out bores and other visitors still more disagreeable.—Miss Wormley's "Memoir of Balzac."

A Story of Bishop Williams.

It is told of Bishop Williams of Connecticut, for many years presiding bishop of the Episcopal church in America, who lived all his life a bachelor, that he was talking one day with a young man from the west about a tax a western state was trying to impose on bachelors, the tax to be increased a certain per cent for every ten years of bachelorhood.

"Why, bishop," said the young man, "at your age you would have to pay about \$100 a year."

"Well," said the bishop quietly and in his old time vernacular, "it's wuth it."

His Part.

Little Jack—What did papa mean by saying that he was captain of this ship? Ma—Oh, that is only his way of saying that he is the head of the house. Little Jack—Then, if pa is the captain, what are you? Ma—Well, I suppose I am the pilot. Little Jack—Oh, yes, and then I must be the compass? Ma—The compass! Why the compass? Little Jack—Why, the captain and pilot are always boxing the compass, you know.

Needed Them All.

A well known authoress was once talking with a disipated bachelor, who retained little but his conceit. "It is time now," he said pompously, "for me to settle down as a married man, but I want so much. I want youth, health, wealth, of course; beauty, grace!"

"Yes," said his fair listener sympathetically, "you poor man, you do want them all."

Prophecie.

Henry W. Grady less than a month before his death at the early age of thirty-nine remarked to a friend: "Imagine me as an old man! Picture me baldheaded, half blind, toothless and leaning on a cane! It can never be. It is too ridiculous. A man with my riotous blood, tremendous energy and restless activity must die young!"

Shirt Sleeves to Shirt Sleeves.

Oliver Wendell Holmes counted only three generations between shirt sleeves and shirt sleeves. A daughter of Tolstol in an interview with Henry Norman expressed the same idea in these words: "No Russian ever 'rounds a family,' as you say. A man makes his fortune; his son lavishes it; his son disperses it."

Marks Time.

Nodd—Your baby isn't three months old yet, is he? Todd—Oh, yes. To be exact, I have been a wake now just ninety-six nights.—Life.

Nash, a writer of the sixteenth century, says: "If a booge loatheth an eye, he dyeth presently." Also, "Ghosts take breath not at the mouth and nose only, but at ye ears (ears) also."

STREET RAILWAY HEARING

City of Newton.

TO THE HONORABLE BOARD OF ALDERMEN
of the City of Newton.
No. 28019.

Your petitioners, the Board of Directors of the Commonwealth Avenue Street Railway Co., respectfully petition your Honorable Board for a change in the location as granted to this company by your Board on October 20th, 1902, for the necessary location to connect the tracks of this company with the tracks of the Boston Elevated Railway Company on Commonwealth Avenue near Lake street. The location as granted by your Honorable Board is such that the tracks of the Commonwealth Avenue cannot connect with the tracks of the Boston Elevated Railway Company and in order that the tracks may be so connected and in such a way that cars may pass from the rails of one road to those of the other, your petitioners respectfully request that the location as granted may be altered as shown upon the plan to be filed with your Honorable Board.

And your petitioners also respectfully request permission to make such necessary changes, underground and overhead, as may be necessary to accomplish the desired purpose.

Respectfully submitted,
The Board of Directors of the Commonwealth Avenue Street Railway Co.,
By ADAMS D. CLAFIN, Pres.
IN BOARD OF ALDERMEN.

December 15, 1902.
Upon the foregoing petition it is ordered by the Board of Aldermen of the City of Newton that a hearing be had thereon on Monday the 15th day of January, at 2 o'clock P. M., before said Board in the City Hall, in that part of said Newton called West Newton, and that notice of the time and place of such hearing be given by publication of the foregoing petition and this order thereon fourteen days at least before the day of said hearing in the Newton Graphic published in said City of Newton.

By order of the Board,
ISAAC F. KINGSBURY, Clerk.

Wax From Trees.

The wax palm of the Andes is a vegetable wonder. It grows to a height of nearly 200 feet and thrives not only on the plains, but the mountains. The wood is tough and durable and is employed in carpentry. The wax comes from the pits between the trunk and fronds. It is yellow or grayish white, is as pure as beeswax and is used for making candles. A peon climbing the trees can gather from twenty to thirty pounds from each.

The Measure of Success.

It is one of the appointed conditions of the labor of men that in proportion to the time between the seed sowing and the harvest is the fullness of the fruit, and that generally, therefore, the further off we place our aim and the less we desire to be ourselves the witnesses of what we have labored for, the more wide and rich will be the measure of our success.—John Ruskin.

A Symphony of Colors.

Gray was asked why he had written the "Elegy in a Country Churchyard." "Because," he returned, "I thought it was the best place to make the ghost walk."

And indeed this seemed reasonable when it was remembered in addition to being gray he had both duns and blues.—New York Tribune.

A Branch of Etiquette.

"Am I to understand that you were discharged from the army for a mere breach of etiquette?" queried the interested friend.

"Yes, sir," boldly asserted Colonel Blucher.

"What was it?"

"Turning my back to the enemy."—Philadelphia Record.

Use It.

One of the best pieces of advice for a safe journey through life I saw on a sign at a railroad crossing. The sign read, "Stop! Look! Listen!"—Baltimore American.

THE BUYER OF BEEF.

He Is a Man of Consequence About the Stockyards.

The buyer occupies a position of consequence in the stockyards community. He is an expert, usually a man of middle age, who has obtained his education and technical ability partly in the packing houses and partly on the ranch. An experienced buyer is likely to receive a salary of \$1,000 to \$5,000 a year, and he is worth all of that, for on his ability to tell by a moment's inspection what quality of beef will be produced by a steer that he never before laid eyes on depends primarily the excellence of the product issued by his house and hence the increase of its business.

The buyer's work is not arduous, and to all appearance his task is a simple one. He walks along the flat board laid along the top of the fence, glancing keenly at the cattle in the different pens. Some he passes by without a pause, others he stops to inspect more closely, and occasionally he displays his interest in a group by asking a question or two of the man in charge.

Long experience enables him at a glance to distinguish between a grass fed steer and a corn fed steer, to decide whether an animal is entitled to be classed as "fancy," "good" or "common" and to guess within a few pounds of an animal's exact weight by glancing at him. The buyer makes his purchases "on the hoof," paying the market price ruling for the day for the grade in which it is decided each group of cattle belongs. In a few words the transaction is completed, and the buyer's interest in the affair is ended.—Leslie's Monthly.

An Anecdote of Bach.

The Duke of Saxe-Weimar once invited John Sebastian Bach, the Nestor of German music, to attend a dinner at the palace. Before the guests sat down to the feast Bach was asked to give an improvisation. The composer seated himself at the harpsichord and straightway forgot all about dinner and everything else. He played so long that at last the duke touched his shoulder and said, "We are very much obliged, master, but we must not let the soup get cold."

Bach sprang to his feet and followed the duke to the dining room without uttering a word. But he was scarcely seated when he sprang up, rushed back to the instrument like one demented, struck a few chords and returned to the dining room, evidently feeling much better. "I beg pardon, your highness," he said, "but you interrupted me in a series of chords and arpeggios on the dominant seventh, and I could not feel at ease until they were resolved into the tonic. It is as if you had snatched a glass of water from the lips of a man dying of thirst. Now I have drunk the glass out and am content."

Falcon in Japan.

In the olden times in Japan all the daimios (similar to the old English lords) had great sport with falcons, as they went out to the field to catch other birds with falcons. The falcons were tamed well and used to catch large birds, mostly cranes. When people now go out hunting with falcons, the men in charge hold them upon their fingers. As soon as one sees any bird he lets the falcon rush at the bird; as soon as the falcon reaches the bird he bites at the throat and throws the bird down to the ground. Meanwhile the holder runs to the place where they are and catches both of them.

Falcons are not large birds, but, as they belong to the eagle family, they are strong and brave and never afraid to go at any bird to kill it, but the men in charge of falcons of course take great care in feeding and taming them.

Why He Laughed.

Rylands, who had purchased a new horse warranted to be quiet to ride and in harness and a good trotter to boot, had invited a friend to accompany him for a trial drive.

"They had not gone very far when the horse bolted, ran against a heap of stones lying in the road and pitched both occupants violently into the lane. When they recovered, the horse had disappeared, leaving the buggy shaftless and a heap of wreckage. Rylands began to roar.

"What on earth are you laughing at?" dejectedly inquired the friend.

"Why, the fellow who sold me that horse lent me the buggy!"—New York Times.

Wellington as an Art Connoisseur.

In his "Reminiscences" Frederick Goodall tells a story of Wellington as an art connoisseur. He paid Willie 600 guineas for his "Chelsea Pensioners" and laboriously counted out the amount in cash. When the artist suggested that it would be less trouble to write a check, the great duke retorted that he would not let his bankers know "what a blank fool I have been to spend 600 guineas for a picture."

Acquired Greatness.

It is the saying of a great man that if we could trace our descents we should find all slaves to come from princes and all princes from slaves. Give me blood acquired in preference to blood inherited—"to be born of oneself," as Tiberius said of Carinus Rufus.

Condensed.

Sideshow Man—See here, your paper said the biggest snake in my state fair show was twenty feet long when it's really thirty-one feet.

Editor—Sorry, but we were crowded for space yesterday and had to cut everything down.—Indianapolis News.

A Change of Heart.

When a man first loves, he feels unworthy for no particular reason. Later he acquires the reason and forgets to feel unworthy.—Smart Set.

Represented in Newton by H. M. GREENOUGH and F. B. HOMER.

Cinderella and Her Slipper.

Yes; I know you are saying to yourself, "That headline would have looked and sounded better had it been 'Cinderella and the Glass Slipper.'" says a critic, but the writer has been making a close study of this most interesting nursery story and finds that the famous "glass" slipper properly has no place in it. The "glass" slipper is really the "fur," "cloth" or "felt" slipper, the word "glass" having been substituted through a strange mistranslation of the story. In the original it was written pantoufle en vair, which, being translated, would be "the fur slipper." The translator, however, wrote it as if it had been pantoufle en verre, making the "little cluder girl's" fur foot covering one of glass, which, it must be admitted, would be one quite appropriate to a fairy.

A Clench.

The editor of the Glasgow Echo avers he is not much of a sport; but, he says, "when we meet a clench in the road we recognize it." He accepted a proposition the other day, made by a friend, through which he was to give his friend a dime for every time a woman passed them and did not put her hand behind her to learn if her skirt was all right behind. On the other hand, the editor's friend agreed to give him a nickel for each time a woman felt of her belt behind. "We got sixty-two nickels," the molder of opinion says, "and paid him one dime. A woman with both arms full of parcels came along."

Big Trees of Florida.

It is difficult even to guess at the age of the ancient live oaks, but some of them must number centuries, and the oldest and greatest of them all is a monarch of the forest, with its outer branches sweeping the ground in a circle 120 feet across, with limbs as great as ordinary trunks of trees and bearing a garden of aerial ferns and air plants upon their bark. This venerable tree is supposed to be the largest live oak in Florida. Enormous grapevine trunks rise sinuously from the ground and lose themselves amid the quarter acre of foliage that crowns this tree. The saplings that once gave them support have disappeared long years ago, their only record being the angles and curves of grapevine stem to which they lent their transient aid to climbing skyward.—Country Life in America.

So Easy Too.

Suppose your wife—it is a wild supposition of course, but let us just imagine it for once—set up her own judgment against yours in some vital matter. Try this way out of the difficulty. Say to her:

"My dear, you know that my judgment is above criticism, for I had the inspired wisdom to select you from among the many, but you, on the other hand, cannot place absolute reliance upon your judgment if, after accepting me, you find yourself wavering as to your confidence in my ability to direct our ways."

You will readily see that a wife in wisdom cannot protest against such a diplomatic assertion of domestic leadership.

A Clever Cat.

A young lady bookkeeper has been in the habit for some time of giving the office cat a piece of meat for his lunch every day. Precaution is taken to lay a piece of paper under the meat to avoid greasing the floor. The other day at lunch hour, when there was no meat, pussy begged for some in her most intelligent fashion and at last, going to the wastebasket, dragged forth her regular paper tablecloth and laid it properly for the meat.

His Long Wait.

"Grandpa, how old are you?"

"I am eighty-seven years old, my little dear."

"Then you were born eighty years before I was?"

"Yes, my little girl."

"What a long time you had alone waiting for me!"—Current Literature.

Reasonable Explanation.

Customer—You charged me \$14 for this one garment? I think that's pretty high.

Tailor—Well, the bill, as I made it out at first, was for \$13, but that is such an unlucky number I thought you'd rather pay a dollar more.—Chicago Tribune.

Kindness Brought Tears.

Mother—Oh, you fernal boy! You are making your brother cry.

Allegation—No, mummy; I'm not. I'm only sharing my cod liver oil with him, but you said was so nice.—Washington Star.

Some of the people who think they were born to command do not discover their mistake until they get married.—Puck.

TWO SECRETS.

Eben hid his from his wife, and she cherished her own.

"How's business, Eben?"

The old man was washing at the sink after his day's work.

"Fine, Marthy; fine!"

"Does the store look just the same, with the red geranium in the window? Land, how I'd like to see it with the sun shining in! How does it look, Eben?"

Eben did not answer for a moment. When he did, his voice shook a bit.

"The store's never been the same since you left, Marthy."

A faint little flush came into Marthy's withered cheek. Is a wife ever too old to be moved by her husband's dattery?

For years Eben and Marthy had kept a tiny notion store; then Marthy fell sick and was taken to the hospital. That was more than a year ago. She was out now, but she would never be strong again—never be partner in their happy little trade again.

"I can't get over a banking for a sight of the store," thought Marthy one forenoon. "If I take it real careful, I can get down there. 'Tisn't so far. Eben 'll scold, but he'll be tickled most to death."

It took a long time for her to drag herself downtown, but at last she stood at the head of the little street where the store was. All of a sudden she stopped. Ahead, on the pavement, stood Eben. A tray hung from his neck, on which were arranged a few cards of collar studs, some papers of pins and shoelaces. Two or three holders were in his shaking old hand, and as he stood he called his wares.

Marthy clutched at the wall of the building. She looked over the way at the little store. Its windows were filled with fruit, and an Italian name fluttered on the awning. Then Marthy understood. The store had gone to pay her expenses. She turned and hurried away as fast as her trembling limbs would take her.

"It will hurt him so to have me find out," she thought, and the tears trickled down her face.

"He's kept a secret from me, and I'll keep one from him," she said to herself. "He shan't know that I know."

That night when Eben came in, chilled and weary, Marthy asked cheerfully the old question:

"How's business?"

"Better 'n ever, Marthy," answered Eben.—Youth's Companion.

THE BULLFIGHTER.

Picturesque, Self Conscious and the Popular Hero of Spain.

You could never mistake a bullfighter for a man of any other calling. He enforces upon himself a street costume the details of which are as immutable as those of a soldier's uniform. His hair must be brushed forward over his ears, he must be smooth shaven, he must wear a tiny pigtail, his jacket may not come below his waist line, his shirt is deeply duted, and in its front he wears as magnificent a diamond as his earnings and the gifts of his admirers can supply. When he walks the streets on his high French heels, glancing self consciously from beneath his flat brimmed sombrero, he is followed on every side by pointed fingers.

To sit with him at a cafe table is a distinction, and the youngest of Madrid's golden youth flush with pleasure when in public places he nods to them. At the fashionable hour in the Prado they give him the seat of honor in the automobile. It is a survival of the relations of the "patron" and the gladiator. And in return for this social recognition, when Sunday comes, the matadore before he kills the bull bows to the box in which his rich patron sits and throws him his three cornered hat and by so doing lifts with envy the hearts of 15,000 men.

What the effect his fame, his silken calves and his cloth of gold have upon the women of Spain has been sung by generations of poets, playwrights and novelists of his own country.—Richard Harding Davis in Scribner's.

A Gentle Hint.

A certain butcher is renowned among his contemporaries for the qualitates and originality of some of his remarks.

On a road leading to a neighboring parish he one day met a gentleman who at the time owed him for some meat. After a salutation the gentleman remarked:

"That's a fine fat dog you have, Alexander."

"See weel he may, sir," was the reply, "for he has an easy conscience and is out o' debt, and that's mair than you or I can say!"

The hint was taken, and the butcher got his money next day.—London Answers.

She Needed It.

An old colored woman who had saved up a little money went to her lawyer to consult with him about investing it profitably. When she was asked, says Harper's Magazine, what interest she expected, she answered in a very sure and emphatic manner:

"Twelve per cent, Mr. Jedge."

When the attorney expressed some surprise, she explained her position thus:

"Well, Jedge, I ain't got much money, an' yo' see I has ter git a big per cent ter make up."

Reversed.

"A horse ran away with my brother, and he hasn't been out of doors for three weeks."

"That's nothing. My brother ran away with a horse, and he hasn't been out of doors for three years."—Baltimore American.

Pardoned.

"I spent all the money I had in the world on flowers for you, darling."

"Well, dear, it wasn't your fault that you didn't have more."—Life.

Among Women.

The West Newton Women's Educational Club will observe their annual Gentlemen's night at the Newton Club Tuesday evening, Jan. 6th, at 7.30 o'clock. An informal reception from 7.30 to 8 will be followed by a literary entertainment in the assembly hall.

On Principle.

Bert (nervously)—I heard pa tell ma he was goin' to flog me on principle after prayers tonight. Where's principle, Billy?

Billy—I think it's somewhere at the back, Bert. The last time he flogged me on principle I had to sit sideways for more'n a fortnight.—London Tit-Bits.

The Two Classes.

Old Dr. Grimsbaw (to medical student)—And now, remember that to a physician humanity is divided into two classes.

Student—And what are they, doctor?

Old Grimsbaw—The poor whom he cures and the rich whom he doctors.

Just What Happened.

"Penelope," said the anxious mother, "tell me truly, did Charles kiss you last night?"

"There was a slight labial juxtaposition as Charles took his leave, mother, but I assure you it was only momentary and therefore innocuous."

Thwarted Them.

"Why did old Rollinggold give away his money?"

"He was afraid his relatives would have him adjudged incapable of taking care of it."—Newark News.

Nasal
CATARRH

In all its stages there should be cleanliness.

Ely's Cream Balm cleanses, soothes and heals the diseased membrane. It cures catarrh and drives away a cold in the head quickly.

Cream Balm is placed into the nostrils, spreads over the membrane and is absorbed. Relief is immediate and a cure follows. It is not drying—does not produce sneezing. Large Size, 50 cents at Drug-gists or by mail; Trial Size, 10 cents by mail.

N. B.—For sale Wholesale by Carter, Carter & Meigs, Eastern Drug Co., Gilman Bros., H. P. Hoagland Drug Co., and B. O. & G. C. Wilson, Boston, Mass.

LONG, LONG TIME.

Seventy-two years is a long time for a medicine to be on the market. This long term could not have been obtained except by a remedy of unusual merit. In 1830 Dr. Harrison's Peristaltic Lozenges were placed on sale and for over 70 years they have kept the market as the best remedy ever sold over a Drug Counter. This record could not have been obtained by any but a first-class medicine. The lozenges cure constiveness, whether the case is mild, acute or chronic. The best way to test the remedy is to try it. One trial bagets another and today thousands are using the remedy and telling their friends of its great value.
